Section 1.1: Purpose and Scope

For the purpose of implementing the goals, objectives and policies of the Coconino County Comprehensive Plan, to promote and protect the public health, safety, convenience and general welfare of the people of the County of Coconino, to safeguard and enhance the appearance and quality of development of Coconino County, and to provide for the social, physical and economic advantages resulting from comprehensive and orderly planned use of land resources, a Zoning Ordinance establishing classifications of Zones, and regulations within those Zones hereby is established and adopted by the Board of Supervisors.

Section 1.2: Private Agreements

The provisions of this Ordinance are not intended to abrogate any Easements, covenants, or other existing agreements, which are more restrictive than the provisions of this Ordinance.

Section 1.3: Conflicting Ordinances and Regulations

Section 1.3.A: Conflicting Ordinances

Whenever the provisions of this Ordinance impose more restrictive regulations upon Buildings or Structures and the Use of them or the Use of lands or premises and require larger open space or Setbacks than are imposed or required by other ordinances, the provisions of this Ordinance or rules or regulations promulgated thereunder shall govern.

Section 1.3.B: Conflicting Regulations

In the event of conflict between the regulations set forth in this Ordinance and any other regulations applicable to the same area, the more stringent limitation and requirement shall govern.

Section 1.4: Establishment of Zones

Section 1.4.A: Division of County into Zones

In order to classify, regulate, restrict and separate the Use of land, Buildings and Structures and to regulate and to limit the type, height, and bulk of Buildings and Structures in the various districts and to regulate Setbacks and other open areas Abutting and between Buildings and Structures and to regulate the density of development, the County hereby is divided into the following zones.

Section 1.4.B: Adoption of Zones — Maps

Said several zones and boundaries of said zones and each of them hereby are established and adopted as shown, delineated and designated on the “Official Zoning Maps” of the County of

Coconino, Arizona, which maps, together with all notations, references, data, Zone boundaries and other information thereon, is made a part hereof and adopted concurrently herewith.

Section 1.4.C: Filing

The originals of the Official Zoning Maps shall be kept on file with the Department of Community Development and shall constitute the original record.

Section 1.5: Effects of Zoning

Section 1.5.A: Application of Provisions

The provisions of this Ordinance governing the Use of land, Buildings and Structures, Setbacks Abutting Buildings and Structures, the height and bulk of Buildings, the density of development, the number of Dwelling units per acre, standards of performance and other provisions hereby are declared to be in effect upon all land included with the boundaries of each and every Zone established by this Ordinance. Any violation of the performance standards listed in this ordinance is a nuisance per se.

Section 1.5.B: Buildings under Construction

Any Building or Structure for which a Building Permit has been issued and which is still valid under the provisions of earlier ordinances of the County which are in conflict with this Ordinance nevertheless may be continued and completed in accordance with the plans and specifications upon which the permit was issued.

Section 1.6: Severability

If any section, subsection, subdivision, sentence, clause, phrase, or portion of this Ordinance, or the application thereof to any person or place, is for any reason held to be invalid or unconstitutional by the decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of this Ordinance or its application to other persons or places. The Board of Supervisors hereby declares that it would have adopted this Ordinance, and each section, subsection, subdivision, sentence, clause, phrase, or portion thereof, irrespective of the fact that any one or more sections, subsections, subdivisions, sentences, clauses, phrases, or portions, or the application thereof to any person or place, be declared invalid or unconstitutional.

Section 1.7: Statutory Exemptions

Section 1.7.A: Railroad, Mining, Metallurgical, Grazing or General Agriculture

1. Pursuant to A.R.S. § 11-812(A)(2) and (3) nothing contained in this Ordinance shall prevent, restrict or otherwise regulate the Use or occupation of land or improvements for railroad, mining, metallurgical, grazing or general Agricultural purposes including Agricultural Composting, if the parcel concerned is five or more contiguous Commercial Acres (35,000 square feet) in size.
2. Property is not considered exempt from this Ordinance unless and until the Coconino County Community Development Department issues a Certificate of Exemption for that property. Only property eligible for agricultural classification for tax purposes by the Arizona Department of Revenue, based on criteria established in the Department of Revenue Agricultural Manual, is eligible for grazing or general Agricultural exemptions. The Community Development Director may determine that all or part of the property is not used primarily for one or more of the purposes enumerated above.
3. In order to secure a Certificate of Exemption, an application must be submitted on the form prescribed by the Community Development Department. The application must be accompanied by the following: evidence of agricultural classification by the Coconino County Assessor's Office or the Arizona Department of Revenue, a Site Plan, grazing leases, if any, and other documentation indicating the use of the property for Exempt Agricultural Use as may be required by the Director of the Community Development Department. The Community Development Department will review the application for administrative completeness within 10 days after submission. The Department will have 30 days after administrative completeness to conduct its substantive review of the application. The total time for the granting or denying of the Certificate of Exemption is 40 days. Time frames are tolled and may be waived in accordance with A.R.S. §11-1601 et seq.
4. Exempt status is open to review by the Coconino County Community Development Department and may be canceled at any time upon a determination by the Director that the property is no longer being used for an exempt purpose. Any Structures built under an exemption that does not meet the underlying Zoning district may be required to comply with said standards if, at a future date, the exemption is no longer applicable. The denial of a Certificate of Exemption may be appealed to the Board of Supervisors subject the provisions of Section 5.5 of this Ordinance.

Section 1.7.B: Agricultural Composting

Pursuant to A.R.S. § 11-812 nothing contained in this Ordinance shall prevent, restrict or otherwise regulate the Use or occupation of land or improvements for Agricultural Composting, if the tract is five or more contiguous Commercial Acres. An Agricultural Composting operation shall notify in writing the Board of Supervisors and the nearest fire department of the location of the composting operation. If the nearest fire department is located in a city, town or fire district

where the Agricultural Composting is not located, the Agricultural Composting operation shall also notify in writing the fire district in which the operation is located.

Section 1.7.C: Sale of Food by Producers

Pursuant to A.R.S. § 3-561 to 3-563 nothing contained in this Ordinance shall prevent or restrict a producer of food from selling products raised or grown on the same property.

Section 1.8: Fees

All applications for permits in relation to this Ordinance shall be accompanied by a fee established by resolution of the Board of Supervisors.

Section 1.9: Computation of Time

Deadlines are calculated according to the Arizona Rules of Civil Procedure. (All deadlines of 10 days or less are based upon business days, 11 or more are calendar days. The first day is not counted, but the last day is counted.)

Section 1.10: Relationship to Other Policies and Regulations

Section 1.10.A: Other Plans and Ordinances

The Coconino County Comprehensive Plan is the overarching policy document for land use decisions within the County. Area plans for communities within the County have been adopted as amendments to the Comprehensive Plan and provide more specific policies for each area. The Zoning and Subdivision Ordinances are used to implement the Comprehensive Plan and its amendments. The adopted Building Code sets the minimum standards for all construction within the County.

Section 1.10.B: Statutory Changes

The statutory citations are those in effect on the date of adoption of this Ordinance amendment. All subsequent amendments to the Arizona Revised Statutes shall be incorporated.

Section 1.11: Permit Requirements

Section 1.11.A: Zoning Compliance Review

Zoning compliance review is completed in conjunction with each of the following permits:

a. Building Permits

1. A Building Permit, as required by the Building Code, shall be obtained prior to the construction, reconstruction, alteration, relocation or change in use of any Building or other Structure.

b. Floodplain Permits

1. A Floodplain Permit, as required by this Ordinance, shall be obtained prior to the construction, reconstruction, alteration, relocation or change in use of any Building or other Structure.

c. Other Permits

1. All other permits, as required by this Ordinance, including but not limited to Sign Permits, Lighting Permits, Conditional Use Permits and Temporary Use Permits shall be obtained prior to the installation, construction, reconstruction, alteration, relocation, or initiation of the permitted feature.

Section 1.11.B: Permit Applicants

All applications for permits must be signed by the owner of the property that the permit pertains to. If there are several persons or entities with land-based interests in the property such as tenants, easement-holders or holders of a mortgage or note, the Community Development Director, in his or her sole discretion, determines which land-interest holders must sign the permit application. The applicant shall be the proponent of the project or the property owner, but must be the party responsible for meeting the conditions of the permit.

RESIDENTIAL ZONES

Section 2.1: General, Agricultural Residential, and Rural Residential Zones

Section 2.1.A: Purposes

1. In addition to the objectives outlined in Section 1.1: Purpose and Scope, the General, Agricultural Residential, and Rural Residential Zones are included in the zoning regulations to achieve the following purposes:
 - a. To provide zone classifications for all unincorporated remote areas of the County not committed to any specific urban Use.
 - b. To reserve areas of the County for light agricultural pursuits in conjunction with very low-density residential Uses and thereby to encourage and promote rural living.
 - c. To provide space for people, minimize traffic congestion and preserve the existing rural environment of the County.

2. G - General Zone

This zone is a general rural land-use category intended for application to those unincorporated areas of the County not specifically designated in any other zone classification. Only those Uses are permitted which are complementary and compatible with a rural environment.

3. AR - Agricultural Residential Zone

- a. This zone is intended to designate areas of the County for low-density residential Use on minimum Lot sizes of one (1) acre where those light agricultural activities can be conducted which are related to rural family living and pursuits.

4. RR - Rural Residential Zone

- a. This zone is intended to designate areas of the County for low-density residential Use on minimum Lot sizes of one (1) acre where those light agricultural activities can be conducted which are related to rural family living and pursuits. The zone is similar to AR but prohibits Mobile and Manufactured Homes.

Section 2.1.B: Permitted and Conditional Uses: G, AR, and RR Zones

The following Uses shall be permitted where the symbol “P” appears and shall be permitted Uses subject to a Conditional Use permit where the symbol “C” appears in the column beneath each zone designation. All Uses not listed are prohibited. For Uses similar to those listed, see Section 5.9.

Section 2.1.C: Interstate Highway Interchanges G, AR, and RR Zones

1. For properties with parcel boundaries within 500 feet of an Interstate highway interchange Right-of-Way the following Uses shall be permitted subject to the granting of a conditional use permit:
 - a. Automobile Service Stations
 - b. Convenience Markets
 - c. Hotels/Motels
 - d. Recreational Vehicle and Travel Trailer parks
 - e. Restaurants
 - f. Truck Stops
2. Uses shall maintain a minimum Setback of 50 feet from all property lines. Interior Side and Rear Setbacks may be used for off-street parking, Landscaping, and recreational purposes.

Section 2.1.D: Property Development Standards: G, AR, and RR Zones

The following property development standards shall apply to all land and Structures, permitted in their respective zones, except that any Lot shown on an official subdivision map that was duly approved and recorded, or any Lot for which a bona fide deed was duly recorded in conformance with the zoning in effect prior to the date of adoption of this ordinance may be used as a Building site.

- a. The following requirements are minimum unless otherwise noted:

	PROPERTY DEVELOPMENT STANDARDS	G	AR	RR
1.	Dwelling unit per parcel, maximum, except for permitted accessory units	1	1	1
2.	Minimum parcel size, net area in acres (or subject to the provisions of Section 2.1.D.c)	10	1	1

	PROPERTY DEVELOPMENT STANDARDS	G	AR	RR
3.	Lot Width, in feet	300	100	100
4.	Lot Depth, in feet	300	150	150
5.	Front Setback, in feet	30	25	25
6.	Side Interior Setback, in feet	20	10	10
7.	Side Street Side Setback, in feet	30	15	15
8.	Rear Setback, in feet	30	20	20
9.	Lot Coverage, maximum	30%	35%	35%
10.	Structure Height, maximum, in feet	40	35	35
11.	Off-street parking spaces per Dwelling Unit	1	1	1
12.	Distance between Structures, in feet	10	10	10

- b. All Setbacks shall be measured from property lines. In situations where an Access Easement is located along a property line, the Setback shall be measured from the interior edge of the Access Easement line. Where an Access Easement bisects any parcel of land, said Easement shall be considered a Street for Setback purposes and Street Side Setbacks shall apply.
- c. In the AR and RR Zone, the minimum Lot size shall be one (1) acre. However, larger minimum Lot sizes may be specified and designated on the Official Zoning Map by attaching a number designation following the zone classification: such number shall be in increments of one-half ($\frac{1}{2}$) acre. For example, AR-2 means Agricultural Residential -- 2 acre minimum Lot size; AR-2 $\frac{1}{2}$ means Agricultural Residential -- 2 $\frac{1}{2}$ acre minimum Lot size; etc.
- d. For Access purposes each parcel shall have a minimum 30 foot wide Access Easement or Right-of-Way. A turnaround with a minimum radius of 25 feet shall be provided at the end of each Access road over 150 feet in length. No fences or other obstructions shall be placed in the Access Easement area except with written permission of all other property owners served by the Easement. For any parcel of land created after January 3, 1995, an Access road to the parcel must be provided prior to the delivery of any combustible building materials. Said Access road must be constructed to applicable County private road standards.

Section 2.1.E: Performance Standards: G, AR, and RR Zones

1. Parking

- a. Parking shall be provided per the requirements of the Use of the property.
- b. Required Front and Street Side Setbacks shall not be used for parking or storage of any motor vehicles or vehicle accessory such as camper shells, trailers, motor bikes, or other wheeled accessory or convenience, except that licensed and operable vehicles may be parked upon the driveway or Access way to the garage or carport.

1. One motor vehicle or Travel Trailer for sale may be parked on or adjacent to the driveway but not elsewhere in the Front or Street Side Setbacks.
2. Licensed and operable motor vehicles or vehicle accessories with signage may not be parked or stored within the required Front and Street Side Setbacks, except for overnight parking within a driveway or Access way to the garage or carport. Vehicles and accessories with signage may not be set up on site in such a way as to advertise a Use, product or activity.

2. Landscaping

All required Landscaping shall be permanently maintained in a neat and orderly condition.

3. Lighting

No outdoor lighting shall be permitted in G, AR, and RR Zones except as provided in Section 4.3: Lighting.

4. Signs:

No Sign or outdoor Advertising Device shall be permitted in the G, AR and RR Zones except as provided in Section 4.2: Signs.

5. Projections into Required Yards

Required Yards and separations shall be maintained free of above ground Structures except as provided in Section 4.5: Projections into Required Yards.

6. Accessory Structures: G, AR, and RR Zones

- a. In the General, Agricultural Residential, and Rural Residential Zones all Accessory Structures (excluding Guest Houses/Accessory Living Quarters) shall be subject to the following restrictions:
 1. Bathroom facilities shall be limited to one (1) sink and one (1) toilet.
 2. No kitchen facilities or wet bars shall be permitted.
 3. The use of Mobile Homes, semi-trailers, railroad cars, Travel Trailers, camper shells or similar units as Accessory Structures is prohibited. Metal Storage Containers may be permitted, refer to Section 3.10.
 4. Accessory Structures may be established prior to the Dwelling Unit or primary Structure subject to the provisions outlined above.

7. Other Performance Standards

- a. Commercial Vehicles exceeding 26,000 lbs. gross vehicle weight (GVW), including but not limited to semi tractors, semi-trailers, dump trucks, and Commercial Equipment shall not be parked, stored, or serviced on any Lot or parcel of land except as provided in Section 2.1.B.37. Vehicles used for Exempt Agricultural purposes that are stored or parked on a parcel for which the owner has a Certificate of Agricultural Exemption are exempt from this Section.
- b. The storage of a Mobile or Manufactured Home on any Lot or parcel of land, is prohibited except as prescribed in Section 2.1.B.54.

Section 2.2: Single Family Residential Zones

Section 2.2.A: Purposes

In addition to the objectives outlined in Section 1.1: Purpose and Scope, the Residential Zones are included in the zoning regulations to achieve the following purposes:

- a. To reserve appropriately located areas for family living at a broad range of Dwelling Unit densities consistent with the Comprehensive Plan and with sound standards of public health, safety and welfare.
- b. To ensure adequate light, air, privacy, and open space for each Dwelling.
- c. To minimize traffic congestion and to avoid the overloading of utilities by preventing the construction of Buildings of excessive number in relation to the land area around them.
- d. To protect residential properties from noise, direct illumination, unsightliness, odors, smoke and other objectionable influences.
- e. To facilitate the provision of utility services and other public facilities commensurate with anticipated population, Dwelling Unit densities, and service requirements.

1. RS-6,000 - Residential Single Family Zone

This zone is intended for single family, urban residential development on minimum Lot sizes of 6,000 square feet and maximum densities of 6.0 Dwelling Units per acre. Only those additional Uses are permitted that are complimentary to, and can exist in harmony with, a residential neighborhood.

2. RS-10,000 - Residential Single Family Zone

This zone is intended for low-urban density single family residential development on minimum Lot sizes of 10,000 square feet and maximum densities of 4.0 Dwelling Units per acre. Only those additional Uses are permitted that are complimentary to, and can exist in harmony with, a residential neighborhood.

3. RS-18,000 - Residential Single Family Zone

This zone is intended for low density single family residential development on minimum Lot sizes of 18,000 square feet and at maximum densities of 2.0 Dwelling Units per acre. Only those additional Uses are permitted that are complimentary to, and can exist in harmony with, a suburban residential neighborhood.

4. RS-36,000 - Residential Single Family Zone

This zone is intended for very low density single family residential development on minimum Lot sizes of 36,000 square feet and at maximum densities of 1.0 Dwelling Units per acre. Only those additional Uses are permitted that are complimentary to, and can exist in harmony with, a suburban residential neighborhood.

Section 2.2.B: Permitted and Conditional Uses: RS Zones

The following Uses shall be permitted where the symbol “P” appears and shall be permitted Uses subject to a Conditional Use permit where the symbol “C” appears in the column beneath each zone designation. All Uses not listed are prohibited. For Uses similar to those listed, see Section 5.9.

Section 2.2.C: Property Development Standards: RS Zones

- The following property development standards shall apply to all land and Structures, permitted in their respective residential zones, except that, any Lot shown on an official subdivision map that was duly approved and recorded; or any Lot for which a bona fide deed was duly recorded in conformance with the zoning in effect prior to the date of adoption of this Ordinance, may be used as a Building site.
- RESIDENTIAL SINGLE FAMILY ZONES: The following requirements are minimum unless otherwise noted:

PROPERTY DEVELOPMENT STANDARDS		RS-6,000	RS-10,000	RS-18,000	RS-36,000
1.	Density, maximum Dwelling Units per acre	6.0	4.0	2.0	1.0
2.	Dwelling Unit per parcel, maximum except for permitted accessory units	1	1	1	1
3.	Minimum parcel size net area in square feet (or subject to the provisions of Section 2.2.C.4)	6,000	10,000	18,000	36,000
4.	Lot Width, in feet	60	80	100	120
5.	Lot Depth, in feet	100	100	100	150
6.	Front Setback, in feet	20	20	25	25
7.	Side Interior Setback, in feet	5	10	10	20
8.	Side Street Side Setback, in feet	10	10	15	20
9.	Rear Setback, in feet	20	20	25	25
10.	Lot Coverage, maximum	40%	40%	35%	35%
11.	Structure Height, maximum in feet	35	35	35	35
12.	Off-street parking spaces per Dwelling Unit	2	2	2	2
13.	Distance between Structures, in feet	10	10	10	10

- All Setbacks shall be measured from property lines. In situations where an Access Easement is located along a property line, the Setback shall be measured from the interior edge of the Access Easement line. Where an Access Easement bisects any parcel of land, said Easement shall be considered a Street for Setback purposes and Street Side Setbacks shall apply.
- In the RS Zone, other Lot sizes larger than 6,000 square feet may be specified and designated on the Official Zoning Map by attaching a number designation following the zone classification. For example, RS-15,000, RS-40,000, or RS-5 (5 acre minimum lot size). Permitted and conditional uses, property development standards, performance standards and all other requirements and regulations for these alternate zone classifications with the exception of the minimum parcel size, shall be the same as those specified in this Ordinance for the zoning classification with the next lower minimum parcel size, e.g. RS-15,000 would have RS-10,000 requirements and RS-40,000 and RS-5 would have RS-36,000 requirements.

5. For Access purposes each parcel shall have a minimum 30 foot wide Access Easement or Right-of-Way. A turnaround with a minimum radius of 25 feet shall be provided at the end of each Access road over 150 feet in length. No fences or other obstructions shall be placed in the Access Easement area except with written permission of all other property owners served by the Easement. For any parcel of land created after January 3, 1995, an Access road to the parcel must be provided prior to the delivery of any combustible Building materials. Said Access road must be constructed to applicable County private road standards.

Section 2.2.D: Performance Standards: RS Zones

1. Parking

- a. Parking shall be provided per the requirements of the Use of the property.
- b. Required Front and Street Side Setbacks shall not be used for parking or storage of any motor vehicle or vehicle accessory such as camper shells, trailers, motor bikes, or other wheeled accessory or convenience, except that operable motor vehicles may be parked upon the driveway or Access way to the Garage or Carport.
- c. One motor vehicle or Travel Trailer for sale may be parked on or adjacent to the driveway but not elsewhere in the Front or Street Side Yard Setbacks.
- d. Licensed and operable motor vehicles or vehicle accessories with signage may not be parked or stored within the required Front and Street Side Setbacks, except for overnight parking within a driveway or Access way to the garage or carport. Vehicles and accessories with signage may not be set up on site in such a way as to advertise a Use, product or activity.
- e. Commercial Vehicles exceeding 26,000 lbs. gross vehicle weight (gvw) and associated Commercial Equipment shall not be parked, stored, or serviced in any residential zone.

2. Landscaping

In all residential zones, required Front and Street Side Setbacks shall be landscaped except for necessary walks, drives and fences. All required Landscaping shall be permanently maintained in a neat and orderly condition.

3. Lighting

No outdoor lighting shall be permitted in the RS Zones except as provided in Section 4.3: Lighting.

4. Signs: RS Zones

No Sign or outdoor Advertising Device Structure shall be permitted in any R Zone except as provided in Section 4.2: Signs.

5. Projections into required Yards

Required Yards and separations shall be maintained free of above ground Structures except as provided in Section 4.5: Projections into Required Yards.

6. Accessory Structures: RS Zones

Accessory Structures (excluding Guest Houses/Accessory Living Quarters) shall be subject to the following restrictions:

1. Bathroom facilities shall be limited to one (1) sink and one (1) toilet.
2. No kitchen facilities or wet bars shall be permitted.
3. The use of Mobile, Manufactured or Modular Homes, semi-trailers, railroad cars, Travel Trailers, camper shells or similar units as Accessory Structures is prohibited.
4. Accessory Structures may not be established prior to the Dwelling Unit or primary Structure except in the RS Zones with minimum Lot sizes of 1 acre or more.

7. Other Performance Standards

- a. Use of a tent, Travel Trailer, Recreational Vehicle or Park Model as a temporary or permanent residence is prohibited.
- b. In all residential zones, air conditioners, heating, cooling, ventilating equipment, swimming pool pumps and heaters and all other mechanical devices shall be screened from surrounding properties and streets and shall be so operated that they do not disturb the peace, quiet, and comfort of neighboring residents. Facilities for the operation of alternate energy systems shall be exempted from the screening requirements when such screening will clearly restrict the efficient operation of such systems.

Section 2.3: Multi-Family Residential Zones

Section 2.3.A: Purposes

In addition to the objectives outlined in Section 1.1: Purpose and Scope, the Residential Zones are included in the zoning regulations to achieve the following purposes:

- a. To reserve appropriately located areas for family living at a broad range of Dwelling Unit densities consistent with the Comprehensive Plan and with sound standards of public health, safety and welfare.
- b. To ensure adequate light, air, privacy, and open space for each Dwelling.

- c. To minimize traffic congestion and to avoid the overloading of utilities by preventing the construction of Buildings of excessive number in relation to the land area around them.
- d. To protect residential properties from noise, direct illumination, unsightliness, odors, smoke and other objectionable influences.
- e. To facilitate the provision of utility services and other public facilities commensurate with anticipated population, Dwelling Unit densities, and service requirements.

1. RM-10/A - Multiple Family Residential Zone

This zone is intended for the development of medium density Apartments, Condominiums, Townhouses or other group Dwellings with provisions for adequate light, air, open space and landscaped areas at maximum densities of 10.0 Dwelling Units per acre. Only those additional Uses are permitted that are complementary to, and can exist in harmony with, such residential developments.

2. RM-20/A - Multiple Family Residential Zone

This zone is intended for the development of high density Apartments, Condominiums, Townhouses or other group Dwellings with provisions for adequate light, air, open space and landscaped areas at maximum densities of 20.0 Dwelling Units per acre. Only those additional Uses are permitted that are complementary to, and can exist in harmony with, such residential developments.

Section 2.3.B: Permitted and Conditional Uses: RM Zones

19.	Accessory Structures in excess of 3,000 square feet	C
20.	Accessory Uses and Structures located on the same site as a Conditional Use	C
21.	Apparatus needed for the operation of active or passive solar energy systems or other alternative energy systems, including but not limited to, overhangs, movable insulating walls and roofs, attached or detached solar collectors, reflectors and piping.	P
TEMPORARY USES		RMH Zone
22.	Temporary uses as prescribed in Section 3.2.	P
23.	Model homes and subdivision sales offices	C

Section 2.4.C: Property Development Standards — RMH Zone

1. The following property development standards shall apply to all land and Buildings, except that any Lot shown on an official subdivision map duly approved and recorded, or any Lot for which a bona fide deed was duly recorded in conformance with the zoning in effect prior to the date of adoption of this Ordinance, may be used as a Building Site.
2. The following requirements are minimum unless otherwise noted:

PROPERTY DEVELOPMENT STANDARDS		RMH ZONE
1.	Density, maximum Dwelling Units per acre	6.0
2.	Dwelling Unit per parcel, maximum	1
3.	Minimum parcel size, net area in square feet	6,000
4.	Lot Width	50 feet
5.	Lot Depth	100 feet
6.	Front Setback	15 feet
7.	Side Setback	5 feet
8.	Side Street Side Setback	10 feet
9.	Rear Setback	10 feet
10.	Lot Coverage, maximum	40%
11.	Structure Height	35 feet
12.	Off-street parking spaces per Dwelling Unit	2 spaces
13.	Distance between Structures	10 feet

3. All Setbacks shall be measured from property lines. In situations where an Access Easement is located along a property line, the Setback shall be measured from the interior edge of the Access Easement line. Where an Access Easement bisects any parcel of land, said Easement shall be considered a Street for Setback purposes and Street Side Setbacks shall apply.
4. For Access purposes each Building Site shall have a minimum 30 foot wide Easement or Right-of-Way. A turnaround with a minimum radius of 25 feet shall be provided at the end of

each Easement over 150 feet in length. No fences or other obstructions shall be placed in the Easement area except with written permission of all other property owners served by the Easement. For any parcel of land created after January 3, 1995, an Access road to the parcel must be provided prior to the delivery of any combustible Building materials. Said Access road must be constructed to the standards found in Ordinance Number 95-1, the Ordinance for Road Standards.

5. In the RMH Zone, Front Setbacks in subdivision developments may be reduced by 25 percent provided the average of all such Setbacks is not less than the minimum required for the zone.

Section 2.4.D: Performance Standards — RMH Zone

1. Parking

- a. Parking shall be provided per the requirements of the Use of the property.
- b. Required Front and Street Side Setbacks shall not be used for the parking or storage of any motor vehicle or vehicle accessory such as camper shells, trailers, motor bikes, or other wheeled accessory or convenience, except that operable motor vehicles may be parked upon the driveway or Access way to the Garage or Carport.
- c. One motor vehicle or Travel Trailer for sale may be parked on or adjacent to the driveway but not elsewhere in the Front or Street Side Setbacks.
- d. Licensed and operable motor vehicles or vehicle accessories with signage may not be parked or stored within the required Front and Street Side Setbacks, except for overnight parking within a driveway or Access way to the garage or carport. Vehicles and accessories with signage may not be set up on Site in such a way as to advertise a Use, product or activity.

2. Landscaping

Required Front and Street Side Setbacks shall be landscaped except for necessary walks, drives and fences. All required Landscaping shall be permanently maintained in a neat and orderly condition

3. Lighting

No outdoor lighting shall be permitted in the RHM Zone except as provided in Section 4.3.

4. Signs

No Sign or outdoor Advertising Device shall be permitted in any RMH Zone except as provided in Section 4.2: Signs.

5. Projections into Required Yards

Required Yards and separations shall be maintained free of above ground Structures except as provided in Section 4.5.

6. Accessory Structures — RMH Zone

- a. Accessory Structures shall be subject to the following restrictions:
 1. Bathroom facilities shall be limited to one (1) sink and one (1) toilet.
 2. No kitchen facilities or wet bars shall be permitted.
 3. The use of Mobile, Manufactured or Modular Homes, semi-trailers, railroad cars, Travel Trailers, camper shells or similar units as Accessory Structures is prohibited.
 4. Accessory Structures may not be established prior to the Dwelling Unit or primary Structure.

7. Other Performance Standards

- a. Air conditioners, heating, cooling, ventilating equipment, swimming pool pumps and heaters and all other mechanical devices shall be screened from surrounding properties and Streets and shall be so operated that they do not disturb the peace, quiet, and comfort of neighboring residents. Facilities for the operation of alternate energy systems shall be exempted from the screening requirements when such screening will clearly restrict the efficient operation of such systems.
- b. The establishment of a pre-HUD Mobile Home may be permitted subject to the rehabilitation of that unit in accordance with the Arizona Office of Manufactured Housing administrative rules and subject to an insignia of approval having been placed by the state on the home. Mobile Homes shall not be relocated and placed on-site prior to renovation and rehabilitation as provided for in this Ordinance.

Section 2.5: MHP — Manufactured Home Park Zone

Section 2.5.A: Purpose

1. In addition to the objectives outlined in Section 1.1: Purpose and Scope, the MHP - Manufactured Home Park Zone is designed to achieve the following purposes:
 - a. To provide for the exclusive development of Manufactured Home Parks. All Manufactured Home Parks hereinafter shall be developed in accordance with the provisions of this Section.

Section 2.5.B: Permitted and Conditional Uses -- MHP Zone:

1. The following Uses shall be permitted where the symbol “P” appears and shall be permitted Uses subject to a Conditional Use permit where the symbol “C” appears in the column to the right. All Uses not listed are prohibited. For Uses similar to those listed, see Section 5.9.

21.	Model homes and sales offices.	C
22.	One Recreational Vehicle or Travel Trailer per Lot or parcel may be used for temporary residency not to exceed 100 days per year provided that the Lot or parcel is not already occupied by a Dwelling or other residential Structure. A temporary use permit shall be obtained prior to establishing said temporary residence, and the Travel Trailer or Recreational Vehicle must be removed from the parcel upon the expiration of the temporary use permit. Approval may be subject to conditions.	P

Section 2.5.C: Property Development Standards — MHP Zone

- The following are minimum unless otherwise noted:

PROPERTY DEVELOPMENT STANDARDS		MHP Zone
1.	Dwelling units per Lot, parcel, or Manufactured Home Space, maximum	1
2.	Space size in square feet (parks and rental spaces)	4000
3.	Lot size in square feet (subdivided lots)	5000
4.	Subdivided Lot Width	0 feet
5.	Subdivided Lot Depth	100 feet
6.	Front Setback	10 feet
7.	Side Interior Setback	5 feet
8.	Side Street Setback	10 feet
9.	Rear Setback	10 feet
10.	Lot Coverage, maximum	40%
11.	Structure Height, maximum	20 feet
12.	Off-street parking spaces per Dwelling Unit	2 spaces
13.	Distance between Structures	10 feet

- The following regulations shall apply to the site of a Manufactured Home Park. Additional regulations may be specified as conditions of approval of Design Review by the Planning Commission or as conditions of approval for the establishment of an MHP Zone:

Minimum frontage:	200 feet, continuous Frontage
Density, maximum:	10 units per acre
Minimum Setbacks:	20 feet adjoining a street; 15 feet adjoining an Interior Lot Line
Recreation area:	Minimum of 250 square feet of recreation area for each Manufactured Home Space. This requirement shall be increased to 300 square feet per Manufactured Home Space if children under the age of 18 are permitted within the development

Section 2.5.D: Site Development Standards — MHP Zone

1. The following requirements shall apply to development of Manufactured Home Spaces and to facilities within a Manufactured Home Park. Additional requirements may be specified as conditions of Design Review or as conditions of approval for the establishment of an MHP Zone:
 - a. Manufactured Home Spaces
 1. Each space shall contain a minimum of 4,000 square feet for exclusive use by the occupants of the space. Each space shall have at least 40 feet of width adjoining an Access drive. Each space shall have dimensions capable of accommodating a rectangle with minimum dimensions of 45 feet by 65 feet.
 2. Each Manufactured Home shall be located not less than 5 feet from the boundary of a Manufactured Home Space, except that Carports, patio covers, storage Buildings, and similar Structures accessory to a Manufactured Home may be located not less than 4 feet from the boundary of a Manufactured Home Space.
 3. Building Permits. A Building Permit shall be required for the establishment of a Manufactured Home within a Manufactured Home Park.
 4. Minimum Size Manufactured Home. The minimum size for a Manufactured Home established within a Manufactured Home Park shall be 12 feet by 50 feet.
 - b. Circulation and Parking
 1. Access Drives. All Manufactured Home Access drives within a Manufactured Home Park shall be privately owned, and shall have at least 28 feet of pavement width, exclusive of adjoining parking areas, and shall be constructed to County standards.
 2. Parking. Two on-site parking spaces shall be provided for each Manufactured Home Space.
 3. Guest Parking. Guest parking or Recreational Vehicle storage areas shall be provided as required by the Commission.
 4. Sidewalks. Sidewalks at least 5 feet in width shall be provided to serve each Manufactured Home space and to serve all central or common facilities within the Manufactured Home Park. Sidewalks need not adjoin Access drives
 - c. Screening and Landscaping

Screening shall be provided around the entire site of a Manufactured Home Park except that, where a required Setback adjoins a Street, screening shall be located at the rear of the required Setback. Required Setbacks shall be landscaped and said Landscaping shall consist predominantly of plant materials except for necessary walks, drives and fences.

All required Landscaping shall be permanently maintained in a neat and orderly condition.

d. Accessory Structures and Uses.

Accessory Structures and Uses serving the entire Manufactured Home Park, including Recreation Facilities, laundry areas, Manufactured Home Park offices, and maintenance or storage Buildings, shall be located at least 50 feet from the boundary of the Manufactured Home Park Site. All exterior maintenance or storage areas shall be enclosed by a 6 foot high masonry wall.

Section 2.5.E: Performance Standards

1. Parking

- a. Required Front and Street Side Setbacks shall not be used for the parking or storage of any motor vehicle or vehicle accessory such as camper shells, trailers, motor bikes, or other wheeled accessory or convenience, except that operable motor vehicles may be parked upon the driveway or Access way to the Garage or Carport.
- b. One motor vehicle or Travel Trailer for sale may be parked on or adjacent to the driveway but not elsewhere in the Front or Street Side Setbacks.
- c. Licensed and operable motor vehicles or vehicle accessories with signage may not be parked or stored within the required Front and Street Side Setbacks, except for overnight parking within a driveway or Access way to the garage or carport. Vehicles and accessories with signage may not be set up on Site in such a way as to advertise a Use, product or activity.
- d. The overnight parking of Commercial Vehicles and Commercial Equipment, including but not limited to semi-tractors, semi-trailers, dump trucks, equipment trailers, backhoes, etc., is prohibited in the Manufactured Home Park Zone.

2. Landscaping

- a. Landscaping. Not less than 20 percent of each Manufactured Home Space shall be landscaped, including at least one tree (minimum 5 gallon size) on each space.
- b. Required Front and Street Side Setbacks shall be landscaped except for necessary walks, drives and fences. All required Landscaping shall be permanently maintained in a neat and orderly condition

3. Lighting

- a. No outdoor lighting shall be permitted in the MHP Zone except as provided in Section 4.3.

4. Signs

- a. No Sign or outdoor Advertising Device shall be permitted in any MHP Zone except as provided in Section 4.2.

5. Projections into Required Yards

- a. Required Yards and separations shall be maintained free of above ground Structures except as provided in Section 4.5.

6. Accessory Structures

- a. Cabanas. A Cabana may be attached to a Manufactured Home providing the Cabana shall be complimentary to the design and coloration of the Manufactured Home.

1. A Cabana is a portable and demountable room or enclosure: This shall be interpreted to mean that such additions shall be constructed on only pier type foundations.
2. A Cabana is used in conjunction with a Manufactured Home: This shall be interpreted to mean that the interior square footage of the Cabana shall not exceed that of the Manufactured Home it is attached to; and that the Cabana shall be directly attached to the Manufactured Home so as to provide interior Access. Maximum height of the addition shall not exceed fifteen (15) feet.
3. A Cabana is a room, enclosure or other Building: This shall be interpreted to mean that stick-built type of additions constructed on-site shall be in conformance with the applicable Building Codes as it pertains to other conventional Structures built in Coconino County.

- b. Accessory Structures shall be subject to the following restrictions:

1. Bathroom facilities shall be limited to one (1) sink and one (1) toilet.
2. No kitchen facilities or wet bars shall be permitted.
3. The use of Mobile, Manufactured or Modular Homes, semi-trailers, railroad cars, Travel Trailers, camper shells or similar units as Accessory Structures is prohibited.
4. Accessory Structures may not be established prior to the Dwelling Unit or primary Structure.

- c. Attached Structures

1. An Accessory Structure that is attached to a main Structure shall meet all of the requirements for location of the main Structure except as provided in "E" of this Section.

7. Other Performance Standards

- a. Skirting shall be required for each Manufactured Home, and shall be complimentary to the design and coloration of the Manufactured Home.
- b. Mobile Homes. The establishment of a pre-HUD Mobile Home may be permitted subject to the rehabilitation of that unit in accordance with the Arizona Office of Manufactured Housing administrative rules and subject to an insignia of approval having been placed by the state on the home. Mobile Homes shall not be relocated and placed on-site prior to renovation and rehabilitation as provided for in this Ordinance.
- c. Air conditioners, heating, cooling, ventilating equipment, swimming pool pumps and heaters and all other mechanical devices shall be screened from surrounding properties and Streets and shall be so operated that they do not disturb the peace, quiet, and comfort of neighboring residents. Facilities for the operation of alternate energy systems shall be exempted from the screening requirements when such screening will clearly restrict the efficient operation of such systems.

Section 2.5.F: Administration Requirements MHP Zone

1. Pre-Application Procedure

- a. Prior to submitting an application for a Manufactured Home Park, the applicant or prospective developer should hold preliminary consultations with the Department of Community Development to obtain information and guidance before entering into binding commitments or incurring substantial expense in the preparation of plans, surveys and other data. Such preliminary consultations should be relative to a general development plan which expresses the concepts to be embodied in the proposed development.

2. Application

- a. An application for the establishment of a Manufactured Home Park zone must be accompanied with a general development plan showing the location, design and configuration of each Manufactured Home Space and all Accessory Structures and Uses. The development plan shall also show the location and design of the following:
 1. Access drives, sidewalks, and parking spaces;
 2. Walls and fences;
 3. Lighting;
 4. Drainage and sanitary sewer facilities;
 5. Electrical and water service;
 6. Fire protection facilities;

7. Refuse collection facilities;
8. Landscape plan
- b. Water and drainage reports prepared by a registered professional engineer shall be submitted with the application. A report on the proposed wastewater system prepared by a registered sanitary engineer shall also be submitted.
3. Adoption of Development Plan--MHP Zone
 - a. Prior to the development of the Manufactured Home Park the development plans and maps submitted with the application for a Manufactured Home Park shall be approved and adopted by the Board of Supervisors.
4. Amendments to the Development Plan--MHP Zone
 - a. All development within the MHP Zone shall comply substantially with the development plans as approved and adopted by the Board of Supervisors. Any amendments to the development plans shall be accomplished in the same manner as an amendment to the zoning regulations as prescribed in Section 5.12.
5. Pre-Existing Manufactured Home Parks--MHP Zone
 - a. A pre-existing Manufactured Home Park shall not be deemed nonconforming by reason of failure to meet the minimum requirements prescribed by this Section, provided that the regulations of this Section shall apply to the remodeling, enlargement or expansion of an existing Manufactured Home Park.
6. Manufactured Home Park Subdivision
 - a. The division of land for the establishment of a Manufactured Home subdivision shall comply with all of the requirements of this Section and the County Subdivision Ordinance.

Section 2.6: PRD — Planned Residential Development

Section 2.6.A: Purposes

1. In addition to the objectives outlined in Section 1.1: Purpose and Scope, the PRD - Planned Residential Development Zone is designed to achieve the following purposes:
 - a. To facilitate development of areas designated for residential Use on the Comprehensive Plan by permitting greater flexibility and, consequently, more creative and imaginative designs for the development of such residential areas than generally is possible under conventional zoning and subdivision regulations.

- b. These regulations are further intended to promote more economical and efficient Use of the land while providing a harmonious variety of housing choices, a higher level of urban amenities, and preservation of natural and scenic qualities of open spaces.

Section 2.6.B: Permitted and Conditional Uses — PRD Zone:

1. The following Uses shall be permitted where the symbol “P” appears and shall be permitted Uses subject to a Conditional Use permit where the symbol “C” appears in the column to the right. All Uses not listed are prohibited. For Uses similar to those listed, see Section 5.9.

RESIDENTIAL USES		PRD Zone

Section 2.6.C: Property Development Standards — PRD Zone

1. The following specific site development requirements shall apply to a PRD in any zone; these requirements are minimum unless otherwise noted:

PROPERTY DEVELOPMENT STANDARDS		PRD ZONE
1.	Site area, in acres	10
2.	Site frontage on public street	200 feet
3.	Front Setback	25 feet
4.	Side Interior Setback	20 feet
5.	Side Street Side Setback	25 feet
6.	Rear Setback	20 feet
7.	Structure Height, maximum	35 feet
8.	Site coverage, maximum	40%
9.	Parking spaces per unit, covered	1
10.	Guest parking spaces per unit, uncovered	1
11.	Distance between Structures	10 feet

2. There shall be no minimum area requirement for individual lots or individual dwelling sites in a planned residential development.
3. The maximum number of Dwelling Units permitted in a planned residential development shall be determined by dividing the total land area within the boundaries of the proposed development by the density restrictions designated on the Comprehensive Plan or specific plan or by the density restrictions of the existing zone classification or by the action of the Board of Supervisors.
4. No Building, except as hereafter provided, shall be located closer than five feet from an interior vehicular or pedestrian way, court, plaza, open parking lot or any other surfaced area reserved for public use or for use in common by residents of the planned development. Such Setback generally shall be measured from the nearest edge of the surfaced area; provided, however, that where no sidewalk exists in conjunction with a public or private Street, such Setback shall be measured from the nearest edge of the Street Right-of-Way or private road Easement.
5. Site Compatibility
 - a. The planned residential development shall be designed and developed in a manner compatible with and complimentary to existing and potential residential development in

the immediate vicinity of the project site. Site planning on the perimeter shall provide for the protection of the property from adverse surrounding influences, as well as protection of the surrounding areas from potentially adverse influences within the development.

- b. Planned residential developments shall relate harmoniously to the topography of the Site, shall make suitable provision for the preservation of water courses, drainage areas, wooded areas, rough terrain, and similar natural features and areas, and shall be otherwise so designed as to use and retain such natural features and amenities to the best advantage.

6. Open Space

- a. Required open space shall comprise at least 35 percent of the total area of the planned development. Land occupied by Buildings, Streets, driveways or parking spaces may not be counted in satisfying this open space requirement; provided, however, that the land occupied by recreational Buildings, Structures or Uses may be counted as required open space.
- b. At least one-half of the required open space may be improved, or may be left in its natural state, particularly if natural features worthy of preservation exist on Site. Open space left in its natural state shall be kept free of litter and shall at no time constitute a health, safety, fire or flood hazard. Areas devoted to natural or improved flood control channels and those areas encumbered by flowage, floodway or drainage Easements may be applied toward satisfying this portion of the total open space requirement.
- c. If development is to be accomplished in stages, the development plan shall coordinate improvement of the open space, the construction of Buildings, Structures and improvements in such open space, and the construction of Dwelling Units in order that each development stage achieves a proportionate share of the total open space of the total planned development.
- d. All or any part of the required open space may be reserved for use in common by the residents of the planned development. Areas permanently reserved for common open space shall be reserved for the use and enjoyment of the residents in a manner which makes the County, or a public district or public agency, a party to and entitled to enforce the reservation, subject to approval by the County Attorney. The Planning Commission may require that open space Easements over the required open space be conveyed to the County.

7. Public Improvements

- a. All public Streets within or Abutting the proposed planned development shall be dedicated and improved to County specifications for the particular classification of Street. When the developer desires to retain any Streets within the development as private Streets, such Streets shall be constructed to County standards and permanently reserved and maintained for their intended purpose by means acceptable to the Board of

Supervisors. Other forms of Access, such as pedestrian ways, courts, plazas, driveways or open parking lots shall not be offered for dedication.

- b. All utilities within a planned development shall be placed underground. A common central television antenna or receiver may be provided with underground cable service to all Dwelling Units. All other external television or radio antennas shall not be permitted; for the purposes of this Section, appurtenances and associated equipment such as surface-mounted transformers, pedestal-mounted terminal boxes and meter cabinets, and concealed ducts in an underground system may be placed above ground.
- c. The type, number and location of fire hydrants and other fire protective devices shall be subject to the specifications of the Planning Commission.

Section 2.6.D: Performance Standards

1. Parking

Parking shall be provided per the requirements of the Use of the property.

2. Lighting

No outdoor lighting shall be permitted in the PRD zone except as provided for in Section 4.3.

3. Landscaping

All required Landscaping shall be permanently maintained in a neat and orderly condition.

4. Signs

No Sign or outdoor Advertising Device shall be permitted except as provided in Section 4.2: Signs or as prescribed on the approved development plan.

5. Projections into Required Yards

Required Yards and separations shall be maintained free and clear of above ground Structures except as provided in Section 4.5.

6. Accessory Structures

Accessory Structures shall be subject to the following restrictions:

- 1. Bathroom facilities shall be limited to one (1) sink and one (1) toilet.
- 2. No kitchen facilities or wet bars shall be permitted.
- 3. The use of Mobile, Manufactured or Modular Homes, semi-trailers, railroad cars, Travel Trailers, camper shells or similar units as Accessory Structures is prohibited.

4. Accessory Structures may not be established prior to the Dwelling Unit or primary Structure.

Section 2.6.E: Administration Requirements

1. Pre-Application Procedure

- a. Prior to submitting an application for a planned residential development, the applicant or prospective developer should hold preliminary consultations with the Department of Community Development to obtain information and guidance before entering into binding commitments or incurring substantial expense in the preparation of plans, surveys and other data. Such preliminary consultations should be relative to a general development plan which expresses the concepts to be embodied in the proposed development.

2. Application-Development Plan

- a. An application for a planned residential development must be for a parcel or parcels of land which is under the control of the person or corporation proposing the development. The application shall be accompanied by the following plans and maps:
 1. A boundary survey map of the property; a tentative subdivision map may be substituted if the applicant proposes to subdivide the property.
 2. Topography of the property and the preliminary proposed finished grade shown at contour intervals of not to exceed five feet.
 3. The gross land area of the development, the present zoning classification thereof, and the zoning classification and land use of the area surrounding the proposed development, including the location of structures and other improvements.
 4. A general development plan with at least the following details shown to scale and dimensioned:
 - i. Location of each existing and each proposed structure in the development area, the Use or Uses to be contained therein, the number of stories, the gross building and floor areas, approximate location of entrances and loading points thereof.
 - ii. All streets, curb cuts, driving lanes, parking areas, loading areas, public transportation points, and illumination facilities for the same.
 - iii. All pedestrian walks, malls and open areas for the use of occupants and members of the public.

- iv. Location and height of all walls, fences and screen planting, including a plan for the landscaping of the development and the method by which such Landscaping is to be accomplished.
 - v. Types of surfacing, such as paving, turfing or gravel to be used at the various locations.
 - vi. A preliminary grading plan of the area.
 - vii. A preliminary report and overall plan describing proposed provisions for storm drainage, sewage disposal, water supply and such other public improvements and utilities as the County Engineer may require.
- 5. Plans and elevations of Buildings and Structures sufficient to indicate the architectural style and construction standards.
 - 6. The proposed means for assuring continuing existence, maintenance and operation of the various common elements and facilities. If a community association or similar governing structure is to be established, a copy of the covenants, conditions and restrictions (CC & R's) shall be made a part of the record. If the Board of Supervisors deems it necessary, upon advice of the County Attorney, the County of Coconino shall be a party to such CC & R's in order to ensure their continuance and enforceability.
 - 7. Such other information as may be required by the Director of Community Development to permit complete analysis and appraisal of the planned development.
- 3. Adoption of Development Plan—PRD Zone
 - a. The development plans and maps submitted with the application for a planned residential development shall be approved and adopted by the Board of Supervisors and included in the Ordinance establishing the PRD Zone.
 - 4. Amendments to the Development Plan—PRD Zone
 - a. All development within the PRD Zone shall comply substantially with the development plans as approved and adopted by the Board of Supervisors. Any amendments to the development plans shall be accomplished in the same manner as an amendment to the zoning regulations as prescribed in Section 5.12.
 - 5. Findings
 - a. As a condition necessary for the granting of a PRD Zone request, the following findings shall be made:
 - 1. That the development at the location proposed is consistent with and conforms to the goals, objectives and policies of the Comprehensive Plan or specific plan for the area.

2. That the development and proposed location is consistent with the objectives and standards of the PRD Zone and the Subdivision Ordinance.
3. That the development at the location proposed and the development standards to be followed or maintained will not be detrimental to the public health, safety or welfare, or materially injurious to properties or improvements in the vicinity.
4. That the development will promote or preserve environmental qualities and conserve energy usage and energy resources including the protection of adequate sunlight for use of solar energy systems.
5. That the development will promote any design standards established by the Commission for the community in which the project is to be established.

COMMERCIAL ZONES

Section 2.7: Commercial Zones

Section 2.7.A: Purposes

In addition to the objectives outlined in Section 1.1: Purpose and Scope, the Commercial Zones are included in the Zoning Regulations to achieve the following purposes:

- a. To provide appropriately located areas for office Uses, retail stores, service establishments, and Wholesale business, offering commodities and services required by residents of the County and its surrounding market area.
- b. To encourage office and commercial Uses to congregate for the convenience of the public and for a mutually beneficial relationship to each other.
- c. To provide adequate space to meet the needs of modern commercial development, including off-street parking and loading areas.
- d. To minimize traffic congestion and to avoid the overloading of utilities.
- e. To protect residential and other commercial properties from noise, odor, smoke, unsightliness, and other objectionable influences incidental to commercial Uses.
- f. To promote high standards of Site planning, architecture and landscape design for office and commercial developments within Coconino County.

1. CN-2/A - Commercial Neighborhood Zone

9.	Lot Coverage, maximum		35%	
10.	Structure Height, maximum, in feet	35	35	50
11.	Off-street parking		See Section 4.1	

3. All Setbacks shall be measured from property lines. In situations where an Access Easement is located along a property line, the Setback shall be measured from the interior edge of any Access Easement line. Where an Access Easement bisects any parcel of land, said Easement shall be considered a Street for Setback purposes and Street Side Setbacks shall apply.
3. For Access purposes each Building Site shall have a minimum 30 foot wide Easement or Right-of-Way. A turnaround with a minimum radius of 25 feet shall be provided at the end of each Easement over 150 feet in length. No fences or other obstructions shall be placed in the Easement area except with written permission of all other property owners served by the Easement. For any parcel of land created after January 3, 1995, an Access road to the parcel must be provided prior to the delivery of any combustible Building materials. Said Access road must be constructed to the standards found in Ordinance Number 95-1, the Ordinance for Road Standards.

Section 2.7.D: Performance Standards: Commercial Zones

1. Parking

Wherever off-street parking areas are situated across the Street from property in a non-commercial or industrial zones, a masonry wall or berm three feet in height shall be erected between the required landscaped area and the parking area to adequately screen said parking areas from the residential properties.

2. Landscaping: Commercial Zones

- a. Landscaping shall be provided in any commercial zone as required in Section 4.4: Landscaping.
- b. In all Commercial Zones, required Front and Street Side Setbacks shall be landscaped in accordance with Section 4.4: Landscaping to a depth of not less than 10 feet. Remaining Front and Street Side Setbacks may be used for required off-street parking.

3. Screening

- a. Where a commercial or office Use Abuts property in any commercial or industrial zone, a masonry wall six (6) feet in height as measured from the highest adjacent Grade shall be erected and maintained between such Uses and the residential zone. Alternatives to masonry, including double-sided solid wood fencing, stuccoed wood frame walls, native stone or rock veneered walls or an adequate vegetative buffer, may be approved by the Director of Community Development or the Planning and Zoning Commission.
- b. All mechanical equipment, including heating and air conditioning units, shall be completely screened from surrounding properties by use of a wall or fence or shall be enclosed within a Building. Facilities for the operation of solar or alternate energy systems may be exempted from this requirement subject to the approval of the Director of Community Development.
- c. Waste receptacles enclosed with solid masonry walls and with gates shall be provided for each commercial use. Said receptacles shall be set back a minimum of 20 feet from any non-commercial or industrial zone boundary and shall be maintained in a neat and sanitary condition in order to safeguard the health, safety and general welfare of adjacent properties subject to the approval of the Director of Community Development. Alternatives to constructed enclosures may be approved by the Community Development Director.
- d. Methods of screening for outdoor storage may include wooden fencing, masonry walls, rock walls, landscaped berms or vegetative screening subject to the approval of the Director of Community Development. All facilities for outdoor storage shall be subject to the review and approval of the Planning and Zoning Commission.

4. Lighting:

- a. No exterior lighting shall be permitted in any commercial zone except as provided in Section 4.3: Lighting.
- b. The operation of searchlights or similar lighting sources for advertising display or any other commercial purpose is prohibited.

5. Projections into Required Yards

6. Signs:

No Sign or outdoor Advertising Device shall be permitted in any commercial zone except as provided in Section 4.2: Signs.

7. Accessory Structures:

- a. In any Commercial Zone, Accessory Structures shall not be located in front of the main Building.
- b. The use of Mobile Homes, semi-trailers, railroad cars, Travel Trailers, camper shells, or similar units as Accessory Structures is prohibited. Metal Storage Containers may be permitted, refer to Section 3.10.
- c. For the purpose of this Section, swimming pools shall be considered to be a detached Structure. Swimming pools including all Accessory or appurtenant Structures and equipment shall maintain minimum Setback of five feet from all property lines and Buildings. As a precaution against unauthorized use, swimming pools shall be enclosed by a wall or fence not less than 6 feet in height to the specifications of the Department of Community Development.

7. Other Performance Standards

- a. The outdoor storage of any items, including but not limited to items for sale, unlicensed and/or inoperable vehicles, Travel Trailers, boats, Recreational Vehicles, or secondhand materials is prohibited, unless a Conditional Use permit is approved by the Planning and Zoning Commission for said outdoor storage.
- b. Noise shall not be generated by any use to the point of disturbing the peace, quiet and comfort of neighboring residences or the operation of businesses.

Section 2.7.E: Administration Requirements

Procedure for the Establishment of CN-2/A Zones

- a. Preliminary Development Plans. The application for a CN-2/A Zone classification shall be accompanied by a preliminary development plan consisting of maps, drawings and such other materials necessary to show:
 1. The approximate size, shape and location of all proposed Buildings and the intended uses of all Buildings;
 2. The on-site parking arrangements and design, including loading areas;

3. The proposed signing policy for all proposed uses;
 4. The location and treatment of required and proposed landscape areas;
 5. The proposed off-site circulation pattern including Right-of-Way dedications, Street improvements, traffic control measures, location and design of driveway openings, and acceleration/deceleration lanes;
 6. Market analysis showing the need for the shopping center at the location requested and the inadequacy of existing zoned Sites to meet this need.
 7. The preliminary development plan is required to enable the Commission and the Board of Supervisors to assess the impact of the proposed shopping center on surrounding Uses, its relationship to the objectives of the Comprehensive Plan, its relationship to zoning patterns in the neighborhood, and to permit public agencies and utility services to review the adequacy of proposed improvements and the impact of the development on existing and proposed utilities and facilities.
- b. Adoption of Development Plans. The development plans shall be approved by the Board of Supervisors and incorporated into the approval of the CN-2/A Zone.
 - c. The above procedures shall not apply to the establishment of a CN-2/A Zone classification at an existing neighborhood shopping center.

Section 2.8: RC — Resort Commercial Zone

Section 2.8.A: Purposes

1. In addition to the objectives outlined in Section 1.1: Purpose and Scope, the RC - Resort Commercial Zone is designed to achieve the following purposes:

2. Landscaping:

- a. Landscaping shall be permitted in any Industrial Zone as provided in Section 4.4: Landscaping.
- b. In all industrial zones, required Front and Street Side Setbacks shall be landscaped to a depth of not less than ten feet in accordance with Section 4.4: Landscaping. Remaining Front and Street Side Setbacks may be used for required off-street parking. All required Landscaping shall be permanently maintained in a neat and orderly condition.

3. Screening

- a. Methods of screening for outdoor storage may include wooden fencing, masonry walls, rock walls, landscaped berms or vegetative screening subject to the approval of the Director of Community Development. All facilities for outdoor storage shall be subject to the review and approval of the Planning & Zoning Commission.
- b. Waste receptacles enclosed with solid masonry walls and with gates shall be provided for each industrial Use. Said receptacles shall be set back a minimum of 20 feet from any non-commercial or industrial zone boundary and shall be maintained in a neat and sanitary condition in order to safeguard the health, safety and general welfare of adjacent properties, subject to the approval of the Director of Community Development. Alternatives to constructed enclosures may be approved by the Community Development Director.
- c. All mechanical equipment, including heating and air conditioning units, and waste receptacle areas shall be completely screened from surrounding properties by use of a wall or fence or shall be enclosed within a Building. Facilities for the operation of solar or other alternate energy systems may be exempted from this requirement subject to the approval of the Director of Community Development.

4. Lighting:

No exterior lighting shall be permitted in any Industrial Zone except as provided in Section 4.3: Lighting.

5. Signs:

No Sign or outdoor Advertising Device shall be permitted in any Industrial Zone except as provided in Section 4.2: Signs.

6. Projections into Required Yards

Required Yards and separations shall be maintained free of above ground Structures except as provided in Section 4.5.

7. Accessory Structures:

- a. In any Industrial Zone, Accessory Structures shall not be located in front of the main Building except when approved through a Conditional Use permit.
- b. In any Industrial Zone, Accessory Structures shall meet all of the Setback requirements for main Buildings.
- c. In any Industrial Zone, Accessory Structures used for the selling of agricultural products shall be subject to the review and approval of the Director of Community Development.

8. Other Performance Standards

- a. No Use except a temporary construction operation shall be permitted which creates changes in temperature or direct glare, detectable by the human senses without the aid of instruments, beyond the boundaries of the site. No Use shall be permitted which creates electrical disturbances that affect the operation of any equipment beyond the boundaries of the Site.
- b. All storage of and activities involving inflammable and explosive materials shall be provided with adequate safety and fire fighting devices to the specifications of the County Safety Director. All incineration is prohibited.
- c. No Use shall be permitted which creates annoying odor in such quantities as to be readily detectable beyond the boundaries of the Site.
- d. In all industrial zones, the use of radioactive materials shall be limited to measuring, gauging and calibration devices.
- e. No Use except a temporary construction operation shall be permitted which generates inherent and recurrent ground vibration perceptible, without instruments, at the boundary of the Lot in which the Use is located.
- f. Noise shall not be generated by any Use to the point of disturbing the peace, quiet and comfort of neighboring residences or businesses.
- g. No hazardous material shall be disposed on the premises. All such materials shall be transported to a Site officially designated by the State of Arizona for hazardous materials disposal.
- h. All solid waste generated by an industrial Use shall be transported to an approved landfill site for proper disposition.

Section 2.9.E: Administration Requirements

- 22. Whenever there is a question of conformance with the performance standards of this Section, the Director of Community Development shall require the property owner or operator to engage the services of a certified testing firm. Copies of all such tests shall be furnished to the Director.

SPECIAL PURPOSE ZONES

Purposes: Because of their special or unique characteristics and the need to implement specific Sections of the General Plan, the following Special Purpose Zones are established:

SECTION	ZONE	
2.10	PC	Planned Community
2.11	PS	Public and Semi-Public
2.12	OS	Open Space and Conservation
2.13	P	Parking
2.14	MR	Mineral Resource

Section 2.10: PC — Planned Community Zone

Section 2.10.A: Purposes

In addition to the objectives outlined in Section 1.1: Purpose and Scope, the PC - Planned Community Zone is designed to achieve the following purposes:

- a. To provide for the classification and development of parcels of land as coordinated, comprehensive projects so as to take advantage of the superior environment which can result from large-scale community planning.
- b. To allow diversification of land Uses as they relate to each other in a physical and environmental arrangement, while ensuring substantial compliance with the provisions of this Ordinance.
- c. To provide for a zone encompassing various types of land uses, such as single-family residential developments, multiple housing developments, professional and administrative office areas, commercial centers, industrial parks or any public or semi-public Use or combination of Uses through the adoption of a development plan and text materials which set forth land use relationships and development standards.

Section 2.10.B: Permitted and Conditional Uses — PC Zone

1. Those Uses designated on the development plan for the particular PC Zone as approved by the Board of Supervisors.
2. The continuation of all land uses which existed in the zone at the time of adoption of the development plan. Existing land uses shall either be incorporated as part of the development plan or shall be terminated in accordance with a specific abatement schedule submitted and approved as part of the development plan.
3. The following Uses shall be permitted where the symbol “P” appears and shall be permitted Uses subject to a Conditional Use permit where the “C” appears in the column beneath each zone designation. All Uses not listed are prohibited. For Uses similar to those listed, see Section 5.9.

AGRICULTURAL AND RELATED USES		PC ZONE
1.	Agriculture and Animal Keeping subject to the provisions of Section 3.3	P
PUBLIC AND SEMI-PUBLIC USES		PC Zone
2.	Churches, convents, monasteries and other religious institutions	C
3.	Day Care Center	P
4.	Educational Institutions, public or private	C
5.	Fire Stations	C

PUBLIC AND SEMI-PUBLIC USES		PC Zone
6.	Parks, playgrounds, riding and hiking trails, recreational buildings, Structures and facilities; clubhouses, Community Centers and similar Uses; provided, all such Uses are designed for and limited to use by residents of the planned development and their guests.	P
7.	Pre-school	C
8.	Utility installations and public service sub-stations, reservoirs, pumping plants, and similar installations, not including public utility offices.	C
9.	Wireless Telecommunications Facilities subject to the provisions of Section 3.9	C
ACCESSORY USES		PC Zone
10.	Accessory Structures located on the same site as a permitted Use	P
11.	Accessory Structures in excess of 3,000 square feet	C
12.	Accessory Uses and Structures located on the same site as a Conditional Use	C
13.	Accessory Wind Energy Systems subject to the provisions of Section 3.11	P
TEMPORARY USES		PC Zone
14.	Temporary uses as prescribed in Section 3.2	P
15.	Model home and subdivision sales offices	C

Section 2.10.C: Property Development Standards — PC Zone

The area contained within a proposed PC Zone shall not be less than 25 acres.

Section 2.10.D: Performance Standards

1. Parking

Off-street parking facilities shall be provided for each Use as prescribed in Section 4.1: Off-Street Parking or as specified in a Conditional Use permit.

2. Screening and Landscaping

Screening and Landscaping for a Conditional Use shall be specified in the use permit.

3. Lighting

No Outdoor lighting shall be permitted in the PC Zone except as permitted in Section 4.3.

4. Signs

No Sign, or outdoor Advertising Device, or display of any character shall be permitted except as prescribed in Section 4.2: Signs or as authorized in a Conditional Use permit

5. Projections into Required Yards

Required Yards and separations shall be maintained free of above ground Structures except as provided in Section 4.5.

Section 2.10.E: Administration Requirements

The following requirements shall apply to all PC zoned areas:

- a. An application for a zone change to permit the establishment of a PC Zone shall include and be accompanied by a development plan for the entire property.
- b. An application for a zone change to establish a PC Zone must be for a parcel or parcels of land under control of the person or corporation proposing the development.
- c. A conditional use permit may be required for any land use designation on the development plan.
- d. If ambiguity exists as to the specific dimensions or extent of any designated area on the development plan, the specific boundaries shall be set by the filing of a legal description and map of the parcel in question in conjunction with the filing of a conditional use permit, tentative subdivision, or Building Permits.

1. Pre-Application Procedure--PC Zone

Prior to submitting an application for a PC Zone, the applicant should hold preliminary consultations with the Department of Community Development to obtain information and guidance before entering into binding commitments or incurring substantial expense in the preparation of plans, surveys and other data. Such preliminary consultations should be relative to a preliminary development plan and other material which expresses the relationship between the various land uses and the development concepts to be employed.

2. Development Plan--PC Zone

The development plan of a proposed PC Zone should consist of maps, plans, reports, schedules, development standards and schematic drawings and such other documents deemed necessary by the Director of Community Development in accordance with the following requirements:

1. The development plan shall be submitted in a form approved by the Director of Community Development.
2. The development of sections or areas within the PC Zone may be permitted subject to one of the following or any combination thereof:
 - i. The Uses and requirements of any zone classifications established by this Ordinance.

- ii. The Uses and standards of development set forth in the development plan as approved by the Board of Supervisors.
 - iii. Approval of a conditional use permit by the Planning Commission prior to development.
 - iv. Approval of a tentative subdivision or parcel map.
3. The development plan and any amendment thereto shall include the following:
- i. The type and design of Buildings or Structures and the number of Dwelling Units per gross acre proposed for each residential area.
 - ii. A statement of the standards of population density for the various proposed residential land uses.
 - iii. The general location of school sites, recreational areas, and other public and semi-public sites and the approximate area of each.
 - iv. The general location of all major, primary, secondary and local collector Streets coordinated with the Circulation Element of the County Comprehensive Plan.
4. The development plan and any amendment thereto shall be accompanied by the following:
- i. A general land use map setting forth the proposed Uses of all sections or areas within the subject property and the approximate acreage of each.
 - ii. An accompanying text setting forth the land use regulations which constitute the standards of development designed to govern those sections or areas specified in the development plan. Such standards shall contain definitions and information concerning requirements for Building Lot - Coverage, Structure Heights, Building Setbacks, off-street parking, vehicular Access, signing, lighting, storage, screening and landscaping, and any other information which the Director of Community Development shall require to insure substantial compliance with the purpose of the PC Zone.
 - iii. A topographic map and conceptual grading plan of the property.
 - iv. A preliminary report and overall plan describing proposed provisions for storm drainage, sewage disposal, water supply and such other public improvements and utilities as the County Engineer may require.
 - v. A written statement of standards as they relate to the allocation of land within the development plan to all proposed types of land uses.

- vi. Such other information as may be required by the Director of Community Development to enable a complete analysis and appraisal of the planned development.
5. Adoption of Development Plan--PC Zone

The development plan and supporting statements and documents submitted with the application for a planned community shall be approved and adopted by the Board of Supervisors and included in the Ordinance establishing the PC Zone. All development within the PC Zone shall comply with the development plan as approved and adopted by the Board of Supervisors.
6. Amendments to the Development Plan--PC Zone

Any amendments to the development plans shall be accomplished in the same manner as an amendment to the Zoning Regulations as prescribed in Section 5.12.

Section 2.11: Public and Semi-Public Zone

Section 2.11.A: Purposes

1. In addition to the objectives prescribed in Section 1.1: Purpose and Scope, the PS-- Public and Semi-Public Zone is included in the zoning regulations to achieve the following purposes:
 - a. Permit adequate identification of areas reserved and developed for public uses other than street Rights-of-Way.
 - b. To provide for expansion of their operations or change in Use and to identify and preserve areas of historic and community significance for the enjoyment of future generations.

Section 2.11.B: Permitted and Conditional Uses--PS Zone:

1. The following Uses shall be permitted where the symbol "P" appears and shall be permitted Uses subject to a Conditional Use permit where the symbol "C" appears opposite the Use. All Uses not listed are prohibited. For Uses similar to those listed, see Section 5.9.

AGRICULTURAL USES		PS Zone
1.	Agriculture and Animal Keeping subject to the provisions of Section 3.3	P
2.	Feedlots	C

15.	Riding academies or commercial stable	C
16.	Utility Installations	C
17.	Wireless Telecommunications Facilities subject to the provisions of Section 3.9	C

ACCESSORY USES		PS Zone
18.	Accessory Structures incidental to permitted or conditional uses.	P
19.	Commercial uses incidental, accessory to or in conjunction with the above permitted or conditional uses.	P
20.	Accessory Wind Energy Systems subject to the provisions of Section 3.11	P

Section 2.11.C: Property Development Standards

The following requirements are minimums unless otherwise noted:

PROPERTY DEVELOPMENT STANDARDS		PS ZONE
1.	Minimum parcel size	One acre
2.	Lot Width	160 feet
3.	Lot Depth	160 feet
4.	Front Setback	30 feet
5.	Side Setback	25 feet
6.	Rear Setback	25 feet
7.	Lot Coverage, maximum	40%
8.	Structure Height, maximum	35 feet
9.	Distance between Structures	10 feet

Section 2.11.D: Performance Standards

1. Parking

Off-street parking facilities shall be provided for each Use as prescribed in Section 4.1: Off-Street Parking or as specified in a Conditional Use permit.

2. Screening and Landscaping

Screening and Landscaping for a Conditional Use shall be specified in the use permit.

3. Lighting

No Outdoor lighting shall be permitted in the PS Zone except as permitted in Section 4.3.

4. Signs

No Sign, or outdoor Advertising Device, or display of any character shall be permitted except as prescribed in Section 4.2: Signs or as authorized in a Conditional Use permit

5. Projections into Required Yards

Required Yards and separations shall be maintained free of above ground Structures except as provided in Section 4.5.

Section 2.12: Open Space and Conservation Zone

Section 2.12.A: Purposes

In addition to the objectives outlined in Section 1.1: Purpose and Scope, the OS - Open Space and Conservation Zone is included in the zoning regulations to achieve the following purposes:

- a. To reserve areas of the County where it is desirable and necessary to provide permanent open spaces when such are necessary to safeguard the public health, safety and general welfare and to provide for the location and preservation of scenic areas and recreation areas.
- b. This zone classification is intended to be applied primarily to lands held under public ownership.

Section 2.12.B: Permitted and Conditional Uses

The following Uses shall be permitted where the symbol “P” appears and shall be permitted Uses subject to a Conditional Use permit where the symbol “C” appears opposite the Use. All Uses not listed are prohibited. For Uses similar to those listed, see Section 5.9.

AGRICULTURAL USES		OS Zone
1.	Agriculture and Animal Keeping subject to the provisions of Section 3.3	P
2.	Sale of products raised on the premises	C

PUBLIC AND SEMI-PUBLIC USES		OS Zone
3.	Cemeteries, crematories, columbariums and related facilities	C
4.	Flood control facilities	C
5.	Forestry products and the removal thereof; not including processing plants or lumber mills	P

11.	Accessory Structures incidental to permitted or Conditional Use	P

1. Parking

Off-street parking facilities shall be provided for each Use as prescribed in Section 4.1: Off-Street Parking or as specified in a Conditional Use permit.

2. Screening and Landscaping

Screening and Landscaping requirements for a Conditional Use shall be specified in the use permit.

3. Lighting

No Outdoor lighting shall be permitted in the PS Zone except as permitted in Section 4.3.

4. Signs

No Sign, or outdoor Advertising Device or display of any character shall be permitted except as prescribed in Section 4.2: Signs or as authorized in a Conditional Use permit.

5. Projections into Required Yards

Required Yards and separations shall be maintained free of above ground Structures except as provided in Section 4.5.

Section 2.13: P — Parking Zone

Section 2.13.A: Purposes

In addition to the objectives outlined in Section 1.1: Purpose and Scope, the **P - Parking Zone** is included in the zoning regulations to achieve the following purposes:

To provide and identify areas reserved and developed exclusively for public or private off-street parking areas and to accommodate the establishment of parking districts which provide an alternate means of meeting the off-street parking requirements for multiple businesses in a defined area.

Section 2.13.B: Permitted and Conditional Uses — P Zone

The following Uses shall be permitted where the symbol “P” appears and shall be permitted Uses subject to the granting of a Conditional Use permit where the symbol “C” appears opposite the Use. All Uses not listed are prohibited. For Uses similar to those listed, see Section 5.9.

AGRICULTURE AND RELATED USES		P Zone
1.	Agriculture and Animal Keeping subject to the provisions of Section 3.3	P
PARKING USES		P Zone
2.	Public or private open parking lots including incidental control gates, pay boxes or guard sheds	P
3.	Public or private Garages or other parking structures including incidental appurtenances	C
PUBLIC AND SEMI PUBLIC USES		P Zone
4.	Wireless Telecommunication Facilities subject to the provisions of Section 3.9	P
ACCESSORY USES		P Zone
5.	Accessory Structures located on the same site as a permitted Use	P
6.	Accessory Uses and Structures located on the same site as a Conditional Use	C

Section 2.13.C: Property Development Standards — P Zone

1. A minimum 10 foot wide Front and Street Side Setback shall be required in the P-Parking Zone. Said Setback areas shall be landscaped except for necessary walks and drives per Section 4.4.
2. A parking Garage or Structure shall maintain a minimum Setback of five feet from any property in a non-commercial or industrial zone.

3. The design and configuration of the parking Garage or Structure shall comply with the Site development standards prescribed in Section 4.1.C.3 or as specified in the Conditional Use permit.

Section 2.13.D: Performance Standards — P Zone

1. Parking

The design and configuration of the parking lot shall comply with the site development standards prescribed in Section 4.1.

2. Screening and Landscaping

- a. Wherever off-street parking lots Abut property in any non-commercial or industrial zone, a masonry wall six feet in height as measured from the highest adjacent Grade and screen Landscaping shall be erected and maintained between the parking lot and said zones.
- b. Wherever off-street parking lots are situated across the street from property in any non-commercial or industrial zone, a masonry wall or berm three feet in height shall be erected and maintained between the parking lot and the required Front Yard Setback.
- c. All required Landscaping shall consist predominantly of living plant materials and shall be permanently maintained in a neat and orderly condition.

3. Lighting

No Outdoor lighting shall be permitted in the PS Zone except as permitted in Section 4.3.

4. Signs

No Sign, outdoor Advertising Device or display of any character shall be permitted except as prescribed in Section 4.2: Signs or as authorized under a Conditional Use permit.

5. Projections into Required Yards

Required Yards and separations shall be maintained free of above ground Structures except as provided in Section 4.5.

Section 2.14: MR — Mineral Resource Zone

Section 2.14.A: Purposes

In addition to the objectives outlined in Section 1.1: Purpose and Scope, the MR - Mineral Resource Zone is included in the zoning regulations to achieve the following purposes:

To provide areas of the County where it is desirable and necessary to provide for the extraction of minerals and other natural resources.

Section 2.14.B: Permitted and Conditional Uses

The following Uses shall be permitted where the symbol “P” appears and shall be permitted Uses subject to the granting of a Conditional Use permit where the symbol “C” appears opposite the Use. All Uses not listed are prohibited. For Uses similar to those listed, see Section 5.9.

AGRICULTURAL USES		MR Zone
1.	Agriculture and Animal Keeping subject to the provisions of Section 3.3	P
2.	Feedlots	C
3.	Agricultural experimental facilities	P
PUBLIC AND SEMI-PUBLIC USES		MR Zone
4.	Concrete batching plants	C
5.	Excavation, processing and stockpiling of minerals and the back-filling or resultant excavations with inert materials	C
6.	Flood control facilities	C
7.	Manufacture of block, brick, pipe, tile, cement or asphalt	C
8.	Public or private parks, golf courses, golf driving ranges, and other similar open recreational facilities	P
9.	Rock crushing plants, aggregate washing, screening and drying facilities and equipment.	C
10.	Utility Installations	C
11.	Wireless Telecommunications Facilities subject to the provisions of Section 3.9	C
ACCESSORY USES		MR Zone
12.	Offices and maintenance Buildings or Structures	P

14.	Retail or wholesale commercial operations incidental or accessory to or in conjunction with permitted or Conditional Uses	P
15.	Storage of materials or machinery used in conjunction with permitted or Conditional Uses	P
16.	Weigh stations	P

Section 2.14.C: Property Development Standards

1. When a MR Zone Abuts or is situated across the Street from property in any non-commercial or industrial zone, a minimum Building Setback of 100 feet shall be required from such residential zone; provided, however, that the 20 feet of said Setback nearest the Street or zone boundary line shall be landscaped and the remainder may be used for off-street parking purposes as provided in Section 4.1. A three foot high wall, fence or berm shall be constructed in back of the landscaped area along Street Side Setbacks; along all other Lot

Lines adjacent to any non-commercial or industrial zone, a six foot high wall or fence as measured from the highest adjacent Grade and screen Landscaping shall be erected and maintained.

2. Additional property development standards such as, Setbacks, Lot Coverage requirements, height restrictions, screening and landscape requirements may be imposed by the Commission or Board in their approval of a Conditional Use permit.

Section 2.14.D: Performance Standards

1. Parking

Off-street parking facilities shall be provided for each Use as prescribed in Section 4.1: Off-Street Parking or as specified in a conditional use permit.

2. Screening and Landscaping

- a. All mechanical equipment, including heating and air conditioning units, and trash receptacle areas shall be completely screened from surrounding properties by use of a wall or fence or shall be enclosed within a Building.
- b. Outdoor Storage Areas shall be entirely fenced with a rigid, opaque material not less than six feet in height. Those areas visible from a public Street shall be adequately screened by masonry walls or a substitute acceptable to the Director of Community Development.

3. Lighting

No Outdoor lighting shall be permitted in the PS Zone except as permitted in Section 4.3.

4. Signs

No Sign or outdoor Advertising Device shall be permitted in a MR except as provided in Section 4.2: Signs.

5. Projections into Required Yards

Required Yards and separations shall be maintained free of above ground Structures except as provided in Section 4.5.

6. Other Performance Standards

- a. All solid waste which is not disposed on-site shall be transported to a County landfill site for proper disposition.
- b. Trash receptacles enclosed with solid masonry walls and with gates shall be provided for each industrial Use. Said receptacles shall be set back a minimum of 20 feet from any non-commercial or industrial zone boundary and shall be maintained in a neat and

sanitary condition in order to safeguard the health, safety and general welfare of adjacent properties, subject to the approval of the Director of Community Development.

- c. No Use except a temporary construction operation shall be permitted which creates changes in temperature or direct glare, detectable by the human senses without the aid of instruments, beyond the boundaries of the site. No Use shall be permitted which creates electrical disturbances that affect the operation of any equipment beyond the boundaries of the site.
- d. All storage of and activities involving inflammable and explosive materials shall be provided with adequate safety and firefighting devices to the specifications of the State Fire Marshal. All incineration is prohibited.
- e. No Use shall be permitted which creates annoying odor in such quantities as to be readily detectable beyond the boundaries of the Site.
- f. No Use except a temporary construction operation shall be permitted which generates inherent and recurrent ground vibration perceptible, without instruments, at the boundary of the Lot in which the Use is located.
- g. Noise shall not be generated by any Use to the point of disturbing the peace and comfort of neighboring residences.
- h. Any pit resulting from depletion of the mineral resource, or from abandoned or terminated mineral extraction operations shall be filled to ground level and such pits or any depleted hillside areas shall be treated in accordance with the following standards:
 - 1. On property where the mineral resource thereon is in fact depleted by reason of extraction operations, or on property where the production of any such resource is in fact abandoned or terminated, said property shall be filled and landscaped to conform with the surrounding properties. A noxious weed abatement plan shall be included. Said filling and Landscaping treatment shall be commenced within one month from the date of depletion, abandonment or termination of mineral resource production on the property and diligently prosecuted to the completion thereof.
 - 2. Slopes, overburden stockpiles, abandoned spoil piles and the general premises shall be graded and smoothed so as to control erosion, prevent the creation of potentially dangerous areas and present a neat and orderly appearance. No hillside shall remain with an average Grade steeper than one foot horizontal to one foot vertical with a 10 foot wide terrace for not more than each 50 feet of vertical height, unless a permanent steeper slope, without terraces, is approved by the County Engineer.
 - 3. Upon termination of operations, all excavations made to a level below the existing ground water table shall be filled with inert materials as approved by the County Engineer to a level above the existing ground water table. This requirement shall not apply, however, to any water-filled excavations scheduled to be in an integral part of future development of the property. All such water-filled areas remaining shall be

treated with effective mosquito control measures, as required by the County Health Department.

- i. No hazardous material shall be disposed on the premises. All such materials shall be transported to a landfill site officially designated by the State of Arizona for hazardous materials disposal. Only non-hazardous materials produced on the premises may be disposed of on the premises, provided that such disposal be contained in a manner so as to prevent entry of such materials into the surface water system.

Section 2.14.E: Administrative Requirements

Whenever there is a question of conformance with the performance standards of this Section, the Director of Community Development shall require the property owner or operator to engage the services of a certified testing firm. Copies of all such tests shall be furnished to the Director.

OVERLAY ZONES

Section 2.15: Overlay Zones

Section 2.15.A: Purposes

Because of their special or unique characteristics and the need to implement specific sections of the Comprehensive Plan, the following Overlay Zones are established:

SECTION	ZONE	
2.15.B	FPM	Floodplain Management Overlay
2.15.C	DRO	Design Review

Section 2.15.B: FPM — Floodplain Management Overlay Zone

1. Statutory Authorization, Findings of Fact, Purpose and Methods

- a. Statutory Authorization: The Legislature of the State of Arizona has in ARS § 48-3601 through 48-3628 delegated the responsibility to each County Flood Control District to adopt regulations designed to promote the public health, safety, and general welfare of its citizenry. Therefore, the Board of Directors of the Flood Control District of Coconino County, Arizona, do ordain as follows:
- b. Findings of Fact:
 1. The Flood hazard areas of Coconino County are subject to periodic inundation which results in loss of life and property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for Flood protection and relief, and impairment of the tax base, all of which adversely affect the public health, safety and general welfare.
 2. These Flood losses are caused by the cumulative effect of obstructions in Special Flood Hazard Areas which increase Flood heights and velocities, and when inadequately anchored, cause damage in other areas. Uses that are inadequately Flood proofed, elevated or otherwise protected from Flood damage also contribute to the Flood loss.
- c. Statement of Purpose: It is the purpose of this Ordinance to promote the public health, safety, and general welfare, and to minimize public and private losses due to Flood conditions in specific areas by provisions designed:
 1. To protect human life and health;
 2. To minimize expenditure of public money for costly Flood control projects;
 3. To minimize the need for rescue and relief efforts associated with Flooding and generally undertaken at the expense of the general public;

4. To minimize prolonged business interruptions;
 5. To minimize damage to public facilities and utilities such as water and gas mains, electric, telephone and sewer lines, Streets and bridges located in Special Flood Hazard Areas;
 6. To help maintain a stable tax base by providing for the sound use and development of Special Flood Hazard Areas so as to minimize future Flood blight areas;
 7. To ensure that potential buyers are notified that property is in a Special Flood Hazard Area;
 8. To ensure that those who occupy the Special Flood Hazard Areas assume responsibility for their actions; and
 9. To participate in and maintain eligibility for flood insurance and disaster relief.
- d. Methods of Reducing Flood Losses: In order to accomplish its purposes, this Ordinance includes methods and provisions for:
1. Restricting and prohibiting Uses which are dangerous to health, safety, and property due to water or Erosion hazards, or which result in damaging increases in Erosion or in Flood heights or velocities;
 2. Requiring that Uses vulnerable to Floods, including facilities which serve such Uses, be protected against Flood damage at the time of initial construction;
 3. Controlling the alteration of natural Floodplains, stream channels, and natural protective barriers, which help accommodate or channel Flood waters;
 4. Controlling filling, grading, dredging, and other development which may increase Flood damage; and;
 5. Preventing or regulating the construction of Flood barriers which will unnaturally divert Flood waters or which may increase Flood hazards in other areas.

2. General Provisions--FPM Zone

- a. Lands to Which This Ordinance Applies: This ordinance shall apply to all Special Flood Hazard Areas within the boundaries of Coconino County except those incorporated cities and town which have adopted a resolution in accordance with ARS § 48-3610.
- b. Basis for Establishing the Special Flood Hazard Areas: The Special Flood Hazard Areas identified by the Federal Insurance Administration (FIA) of the Federal Emergency Management Agency (FEMA) in a scientific and engineering report entitled "The Flood Insurance Study (FIS) for Coconino County, dated September 3, 2010 with accompanying Flood Insurance Rate Maps (FIRMs), dated September 3, 2010 and all subsequent amendments and/or revisions, are hereby adopted by reference and declared

to be a part of this Ordinance. This Flood Insurance Study and attendant mapping is the minimum area of applicability of this Ordinance and may be supplemented by studies for other areas which allow implementation of this Ordinance and which are recommended to the Floodplain Board by the Floodplain Administrator. The Board, within its area of jurisdiction shall delineate (or may by rule require developers of land to delineate) for areas where development is ongoing or imminent, and thereafter as development becomes imminent, Floodplains consistent with the criteria developed by the Federal Emergency Management Agency and the Director of Water Resources. The FIS and FIRMs are on file at the Department of Community Development, 2500 N. Fort Valley Road, Flagstaff.

- c. Compliance: All development of land, construction of residential, commercial or industrial Structures or future development, or Uses of any kind conducted on land areas located within the Floodplain Management Overlay Zone shall be accomplished in complete conformance with the provisions of this Section and other applicable regulations. Proposed actions which may divert, retard or obstruct Flood waters or in any way threaten public health, safety or the general welfare must first be reviewed and approved by the County Engineer and may be initiated only after a finding has been made that serious detrimental impacts will not occur.
- d. Abrogation and Greater Restrictions: This Ordinance is not intended to repeal, abrogate, or impair any existing Easements, covenants, or deed restrictions. However, where this Ordinance and another ordinance, Easement, covenant, or deed restriction conflict or overlap, whichever imposes the more stringent restrictions shall prevail.
- e. Interpretation: In the interpretation and application of this Ordinance, all provisions shall be:
 - 1. Considered as minimum requirements;
 - 2. Liberally construed in favor of the governing body; and,
 - 3. Deemed neither to limit nor repeal any other powers granted under state statutes.
- f. Warning and Disclaimer of Liability: The degree of Flood Protection required by this Ordinance is considered reasonable for regulatory purposes and is based on scientific and engineering considerations. Larger Floods can and will occur on rare occasions. Flood heights may be increased by human-made or natural causes. This Ordinance does not imply that land outside the Special Flood Hazard Areas or Uses permitted within such areas will be free from Flooding or Flood damages. This Ordinance shall not create liability on the part of Coconino County, any officer or employee thereof, the State of Arizona, the Federal Insurance Administration, or the Federal Emergency Management Agency, for any Flood damages that result from reliance on this Ordinance or any administrative decision lawfully made thereunder.
- g. Statutory Exemptions:

1. In accordance with ARS § 48-3609.H, regulations herein adopted for the FPM Overlay Zone shall not affect:
 - i. Existing legal Uses of property or the right to continuation of such legal Uses. However, if a nonconforming Use of land, Building or Structure is discontinued for 12 months or destroyed to the extent of 50 percent of its value, as determined by a competent appraiser, any further Use shall comply with this Ordinance and regulations of Coconino County.
 - ii. Reasonable repair or alteration of property for the purposes for which the property was legally used on August 3, 1984, or the effective date of any regulations affecting such property, except that any alteration, addition or repair to a nonconforming Building or Structure which would result in increasing its Flood damage potential by fifty per cent or more shall be either Floodproofed or elevated to or above the regulatory Base Flood Elevation.
 - iii. Reasonable repair of Structures constructed with the written authorization required by ARS §48-3613.
 - iv. Facilities constructed or installed pursuant to a certificate of environmental compatibility issued pursuant to Title 40, Chapter 2, Article 6.2.
2. In accordance with ARS § 48-3613, written authorization shall not be required, nor shall the Floodplain Board prohibit:
 - i. The construction of bridges, culverts, dikes and other Structures necessary to the construction of public highways, Roads and Streets intersecting or crossing a Watercourse.
 - ii. The construction of storage dams for watering Livestock or wildlife, Structures on banks of a Watercourse to prevent Erosion of or damage to adjoining land if the Structure will not divert, retard or obstruct the natural channel of the Watercourse, or dams for the conservation of Flood waters as permitted by ARS Title 45, Chapter 6.
 - iii. Construction of tailing dams and waste disposal areas for use in connection with mining and metallurgical operations. This paragraph does not exempt those sand and gravel operations which will divert, retard or obstruct the flow of waters in any Watercourse from complying with and acquiring authorization from the Board pursuant to regulations adopted by the Board under this Section.
 - iv. Other construction if it is determined by the Board that written authorization is unnecessary.
 - v. Any Flood control district, county, city, town, or other political subdivision, from exercising powers granted to it under Title 48, Chapter 21, Article 1.

- vi. The construction of streams, waterways, lakes and other auxiliary facilities in conjunction with development of public parks and Recreation Facilities by a public agency or political subdivision.
 - vii. The construction and erection of poles, towers, foundations, support Structures, guy wires, and other facilities related to power transmission as constructed by any utility whether a public service corporation or a political subdivision.
3. Before any construction authorized by subsection 2.15.B.2.g.2 of this Section may begin, the responsible person must submit plans for the construction to the Floodplain Board for review and comment.
4. In addition to other penalties or remedies otherwise provided by law, this State, a political subdivision or a person who may be damaged or has been damaged as a result of the unauthorized diversion, retardation or obstruction of a watercourse has the right to commence, maintain and prosecute any appropriate action or pursue any remedy to enjoin, abate or otherwise prevent any person from violating or continuing to violate this Section or regulations adopted pursuant to ARS Title 45, Chapter 10. If a person is found to be in violation of this section, the court shall require the violator to either comply with this section if authorized by the board or remove the obstruction and restore the watercourse to its original state. The court may also award such monetary damages as are appropriate to the injured parties resulting from the violation including reasonable costs and attorney fees.

h. Declaration of Public Nuisance:

Every new Structure, Building, fill, excavation or development located or maintained within any Special Flood Hazard Area after August 8, 1973 in violation of this Ordinance is a public nuisance per se and may be abated, prevented or restrained by action of this political subdivision.

i. Abatement of Violations:

Within 30 days of discovery of a Violation of this Ordinance, the Floodplain Administrator shall submit a report to the Floodplain Board which shall include all information available to the Floodplain Administrator which is pertinent to said Violation. Within 30 days of receipt of this report, the Floodplain Board shall either:

- i. Take any necessary action to effect the abatement of such Violation; or
- ii. Issue a Variance to this Ordinance in accordance with the provisions of Section 2.15.B.7 herein; or
- iii. Order the owner of the property upon which the Violation exists to provide whatever additional information may be required for their determination. Such information must be provided to the Floodplain Administrator within 30 days

of such order, and they shall submit an amended report to the Floodplain Board within 20 days. At their next regularly scheduled public meeting, the Floodplain Board shall either order the abatement of said Violation or they shall grant a Variance in accordance with the provisions herein established; or

- iv. Submit to the Administrator of the Federal Insurance Administration a declaration for denial of insurance, stating that the property is in Violation of a cited State or local law, regulation or ordinance, pursuant to Section 1316 of the National Flood Insurance Act of 1968 as amended.

j. Unlawful Acts

1. It is unlawful for any person to engage in any development or to divert, retard or obstruct the flow of waters in any Watercourse whenever it creates a hazard to life or property without securing the written authorization of the Floodplain Board per ARS 48-3613. Where the Watercourse is a delineated Floodplain, it is unlawful to excavate or build any Structure affecting the flow of waters without securing written authorization of the Floodplain Board.
2. Any person found guilty of violating any provision of this Ordinance shall be guilty of a misdemeanor. Each day that a Violation continues shall be a separate offense punishable as hereinabove described.

k. Severability:

1. These Floodplain Management Regulations and the various parts thereof are hereby declared to be severable. Should any Section of this Ordinance be declared by the courts to be unconstitutional or invalid, such decision shall not affect the validity of the Ordinance as whole, or any portion thereof other than the Section so declared to be unconstitutional or invalid.

3. Permitted and Conditional Uses--FPM Zone

Within the Floodplain Overlay Zone, the following Uses shall be permitted where the symbol "P" appears and shall be permitted subject to the granting of a Conditional Use permit where the symbol "C" appears unless otherwise prohibited by the underlying Zoning District:

AGRICULTURAL USES		FPM Zone
1.	Agriculture Animal Keeping subject to the provisions of Section and further limited below	P
2.	Agricultural experimental facilities	P
3.	Agricultural Uses wherein a building or structure is proposed within a Floodplain	C
4.	Agricultural Uses conducted for commercial purposes on parcels of less than 5 acres	C

OTHER USES		FPM Zone
5.	Flood Control Facilities (subject to the conditions as outlined in Section 2.15.B.2.c)	P
6.	Dredging and filling subject to the approval of the County Engineer. On federal designated waterways, such operations also shall be subject to the approval of the Army Corps of Engineers	P
7.	Parking Lots	P
8.	Parks and outdoor Recreational Facilities	P
9.	All other Uses permitted in the underlying zone with which the FPM Zone is combined except that Single Family Residences in the G, AR, RR and RS Zones shall be permitted subject to compliance with these regulations	C

4. Administration

- a. Establishment of Floodplain Permit: A Floodplain Permit shall be obtained before, grading or placing fill, installation of utilities, construction or development, including the installation of wastewater systems and the placement of Manufactured Homes, begins within any Special Flood Hazard Areas established in Section 2.15.B.2.b. Application for a Floodplain Permit shall follow Administrative Permit requirements and procedures and in addition shall be made on forms furnished by the Floodplain Administrator and may include, but not be limited to:
 1. A completed Coconino County Floodplain Permit application form including engineer or surveyor information, assessor's parcel number, identification of possible flood hazards, and identification of methods of construction.
 2. Three copies of a scaled site plan drawn to standard engineer scale showing the nature, location, dimensions, and elevation of the area in question; north arrow, means of access, easements, topography, watercourses, walls or fences, wastewater systems, utilities and existing or proposed Structures, fill, storage of materials, and drainage facilities; and the location of the foregoing. Specifically, the following information is required:
 - i. Proposed elevation and method of elevation in relation to mean sea level, of the lowest floor (including Basement) of all Structures provided by a Certified Professional Engineer or Registered Land Surveyor; in Zone AO, elevation of existing highest adjacent natural grade and proposed elevation of lowest floor of all Structures;
 - ii. Proposed elevation in relation to mean sea level to which any non-residential Structure will be Floodproofed;
 - iii. Certification by a registered professional engineer or architect that the Floodproofing methods for any nonresidential Structure meet the Floodproofing criteria in Section 2.15.B.5.a.3.iii; and

- iv. Description of the extent to which any Watercourse will be altered or relocated as a result of proposed development.
 - v. Base Flood Elevation data for subdivision proposals or other development greater than 50 lots or 5 acres, whichever is the lesser.
- b. Designation of the Floodplain Administrator: The Director of the Department of Community Development is hereby appointed to administer, implement, and enforce this Ordinance by granting or denying Development Permits in accordance with its provisions
- c. Duties and Responsibilities of the Floodplain Administrator: Duties of the Floodplain Administrator shall include, but not be limited to:
- 1. Review all Development Permits to determine that:
 - i. The permit requirements of this Ordinance have been satisfied;
 - ii. All other required state and federal permits have been obtained;
 - iii. The site is reasonably safe from Flooding;
 - iv. The proposed development does not adversely affect the carrying capacity of areas where Base Flood Elevations have been determined but a Floodway has not been designated. For purposes of this Ordinance, “adversely affects” means that the cumulative effect of the proposed development when combined with all other existing and anticipated development, will increase the Water Surface Elevation of the Base Flood more than one foot at any point.
 - 2. Substantial Improvement and Substantial Damage Procedure. Using FEMA publication FEMA 213, “Answers to Questions about Substantially Damaged Buildings,” develop detailed procedures for identifying and administering requirements for Substantial Improvement and Substantial Damage, to include defining “Market Value.” Assure procedures are coordinated with other departments and divisions and implemented by community staff.
 - 3. Use of Other Base Flood Data. When Base Flood Elevation data has not been provided in accordance with Section 2.15.B.2.b, for example in A Zones for which detailed studies have not been done, or areas subject to Flooding which have not been designated by FEMA on FIRM’s, the Floodplain Administrator shall obtain, review, and reasonably utilize any Base Flood Elevation data available from a federal, state or other source, in order to administer Section 2.15.B.5. The Floodplain Administrator may require that a hydrologic study which determines Base Flood Elevation be prepared by a Professional Engineer and be submitted by the property owner prior to the submission of a development or Building Permit application. Any such information shall be consistent with the requirements of the Federal Emergency Management Agency and the Director of Water Resources and shall be submitted to the Floodplain Board for adoption.

4. Obtain and maintain for public inspection and make available as needed for Flood Insurance Policies or effecting Increased Cost of Construction Coverage for Repetitive Loss Structures:
 - i. The certified Regulatory Flood Elevation required in Section 2.15.B.5.a.3.i, and 2.15.B.5.e.1;
 - ii. The Floodproofing certification required in Section 2.15.B.5.a.3.iii.a;
 - iii. The Flood vent certification required in Section 2.15.B.5.a.3.iv; and
 - iv. The elevation certification required for additional development standards, including Subdivisions, in Section 2.15.B.5.d.
 - v. The Floodway encroachment certification required in Section 2.15.B.5.g.
 - vi. Maintain a record of all Variance actions, including justification for their issuance, and report such Variances issued in it biennial report submitted to the Federal Emergency Management Agency.
 - vii. Obtain and maintain improvement calculations.
5. Whenever a Watercourse is to be altered or relocated:
 - i. Notify adjacent communities and the Arizona Department of Water Resources prior to such alteration or relocation of a Watercourse, and submit evidence of such notification to the Federal Insurance Administration through appropriate notification means;
 - ii. Require that the Flood carrying capacity of the altered or relocated portion of said Watercourse is maintained.
 - iii. Prior to the alteration of any Watercourse the County Engineer shall review and revise as necessary all plans for proposed stream modifications.
6. Base Flood Elevation and rate of flow due to physical alterations:
 - i. Base Flood Elevations may increase or decrease resulting from physical changes affecting Flooding conditions. As soon as practicable, but not later than six months after the date such information becomes available, the Floodplain Administrator shall notify the Federal Emergency Management Agency of the changes by submitting technical or scientific data in accordance with Volume 44 Code of Federal Regulations section 65.3. Such a submission is necessary so that upon confirmation of those physical changes affecting Flooding conditions, risk premium rates and Floodplain Management Requirements will be based upon current data.

- ii. Within one hundred twenty days after completion of construction of any Flood control protective works which change the rate of flow during the Flood or the configuration of the Floodplain upstream or downstream from or adjacent to the project, the person or agency responsible for installation of the project shall provide to the governing bodies of all jurisdictions affected by the project a new delineation of all Floodplains affected by the project. The new delineation shall be done according to the criteria adopted by the Director of Water Resources.
 7. Advise in writing and provide a copy of any development plan, to any city or town which has assumed jurisdiction over its Floodplains in accordance with ARS § 48-3610, of any application for a Floodplain use permit or Variance to develop land in a Floodplain or Floodway within one mile of the corporate limits of such city or town. The District shall also advise such city or town in writing and provide a copy of any development plan of any major development proposed within a Floodplain or Floodway which could affect Floodplains, Floodways, or Watercourses within such city's or town's area of jurisdiction. Written notice and a copy of the plan of development shall be sent to such city or town no later than three working days after having been received by the District.
 8. Make interpretations where needed, as to the exact location of the boundaries of the Special Flood Hazard Areas (for example, where there appears to be a conflict between a mapped boundary and actual field conditions). The person contesting the location of the boundary shall be given a reasonable opportunity to appeal the interpretation as provided in Section 2.15.B.7.
 9. Take actions on Violations of this Ordinance as required in Section 2.15.B.2.i herein.
 10. Notify the Federal Emergency Management Administration of acquisition by means of annexation, incorporation, or otherwise, of additional areas of jurisdiction.
5. Provisions for Flood Hazard Reduction

In all Special Flood Hazard Areas the following standards are required:

a. Standards of Construction:

1. Anchoring

- i. All New Construction and Substantial Improvements shall be anchored to prevent flotation, collapse, or lateral movement of the Structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy.
- ii. All Manufactured Homes shall meet the anchoring standards of Section 2.15.B.5.e below.

2. Construction Materials and Methods

- i. All New Construction and Substantial Improvements shall be constructed with materials and utility equipment resistant to Flood damage.
 - ii. All New Construction and Substantial Improvements shall be constructed using methods and practices that minimize Flood damage.
 - iii. All New Construction, Substantial Improvement and other proposed new development shall be constructed with electrical, heating, ventilation, plumbing and air conditioning equipment and other service facilities that are designed and/or located so as to prevent water from entering or accumulating within the components during conditions of Flooding.
 - iv. Require within Zones AH or AO that adequate drainage paths around Structures on slopes guide Flood waters around and away from proposed or existing Structures.
3. Elevation and Floodproofing
- i. New residential Construction and Substantial Improvement of any Structure in Zones AE, AH and A1-30 shall have the lowest floor, including Basement, elevated to or above the Regulatory Flood Elevation. In an A Zone where a BFE has not been determined, any Structure shall be elevated to or above the regulatory flood elevation or be elevated in accordance with the criteria developed by the Director of the Arizona Department of Water Resources. Nonresidential Structures may meet the standards of Section 3.c below. Upon the completion of the Structure the elevation of the lowest floor, including Basement, shall be certified by a registered professional engineer or registered land surveyor verified by the community building inspector and provided to the Floodplain Administrator.
 - ii. New residential Construction and Substantial Improvement of any Structure in Zone AO shall have the lowest floor, including Basement, higher than the highest adjacent Grade at least one foot higher than the depth number on the FIRM, or at least two feet if no depth number is specified. Nonresidential Structures may meet the standards in Subsection 2.15.B.5.a.3.iii below. Upon completion of the Structure a registered professional engineer or registered land surveyor shall certify to the Floodplain Administrator that the elevation of the Structure meets this standard verified by the community building inspector.
 - iii. Nonresidential construction, New or Substantial Improvement, shall either be elevated in conformance with Subsections a or b above or together with attendant utility and sanitary facilities:
 - a. be Floodproofed so that below the regulatory flood level the Structure is watertight with walls substantially impermeable to the passage of water;

- b. have structural components capable of resisting hydrostatic and hydrodynamic loads and effects of buoyancy; and
 - c. be certified by a registered professional engineer or architect that the standards of this subsection are satisfied. Such certifications shall be provided to the Floodplain Administrator.
- iv. Require, for all New Construction and Substantial Improvements, that fully enclosed areas below the lowest floor that are useable solely for parking of vehicles, Building access or storage in an area other than a Basement and which are subject to Flooding shall be designed to automatically equalize hydrostatic Flood forces on exterior walls by allowing for the entry and exit of floodwaters. Designs for meeting this requirement must be certified by either a registered professional engineer or architect to meet or exceed the following minimum criteria:
 - a. A minimum of two openings on different side of each enclosed area, with a total net area of not less than one square inch for every square foot of enclosed area subject to Flooding shall be provided.
 - b. The bottom of all openings shall be no higher than one foot above Grade.
 - c. Openings may be equipped with screens, louvers, valves, or other coverings or devices provided that they permit the automatic entry and exit of Floodwaters.
 - d. Alternatively, a registered engineer or architect may design and certify the openings.
- v. Manufactured Homes shall meet the applicable above standards and also the standards in Section 2.15.B.5.e.
- vi. A Garage attached to a residential Structure, constructed with the Garage floor slab below the Regulatory Flood Elevation, must be designed to allow for the automatic entry of Flood waters. See Section 2.15.B.5.a.3.iv. Areas of the Garage below the Regulatory Flood Elevation must be constructed with Flood resistant materials. See Section 2.15.B.5.a.2. A Garage attached to a nonresidential Structure must meet the above requirements or be dry Floodproofed.
- vii. Detached Accessory Structures used solely for parking or storage, as defined in Chapter 6, may be constructed such that its floor is below the regulatory flood elevation, provided the structure is designed and constructed in accordance with the following requirements:
 - a. Use of the Accessory Structure must be limited to parking or limited storage.

- b. The portions of the Accessory Structure located below the Regulatory Flood Elevation must be built using Flood-resistant materials.
 - c. The Accessory Structure must be adequately anchored to prevent floatation, collapse or lateral movement.
 - d. Any mechanical and utility equipment in the Accessory Structure must be elevated or Floodproofed to or above the Regulatory Flood Elevation.
 - e. The Accessory Structure must comply with Floodway encroachment provisions in Section 2.15.B.5.g.
 - f. The Accessory Structure must be designed to allow for the automatic entry of Flood waters in accordance with Section 2.15.B.5.a.3.iv.
 - g. Detached Garages and Accessory Structures not meeting the above standards must be constructed in accordance with all applicable standards in Section 2.15.B.5.
- b. Standards for Storage of Materials and Equipment:
- 1. The storage or processing of materials that are, in time of Flooding, buoyant, flammable, explosive, or could be injurious to human, animal or plant life is prohibited.
 - 2. Storage of other material or equipment may be allowed if not subject to major damage by Floods, and if firmly anchored to prevent flotation, or if readily removable from the area within the time available after Flood warning.
- c. Standards for Utilities:
- 1. All new or replacement water supply and sanitary sewage systems shall be designed to minimize or eliminate infiltration of Flood waters into the system and discharge from systems into Flood waters.
 - 2. On-site waste disposal systems shall be located to avoid impairment to them or contamination from them during Flooding.
 - 3. All new and replacement sanitary sewage systems for development projects in identified Floodplain areas shall meet all requirements of the State and/or County Health Departments and shall be designed to minimize or eliminate infiltration of Flood waters. On-site effluent disposal systems shall not be installed wholly or partially within the designated regulatory Floodway. On-site waste disposal systems shall be located so as to avoid their impairment during Flood conditions as well as to preclude contamination from them during Flooding. Waste disposal systems shall not be installed in a regulatory Floodway.
- d. Standards for Subdivisions:

All new Subdivision proposals and other proposed development (including proposals for Manufactured Home Parks and Subdivisions), greater than 50 lots or 5 acres, whichever is the lesser, shall:

- i. Identify the Special Flood Hazard Areas and the elevation of the Base Flood.
- ii. Identify on the final plans the elevations(s) of the proposed Structure(s) and pads. If the site is filled above the Base Flood Elevation, the final lowest floor and Grade elevations shall be certified by a registered professional engineer or surveyor and provided to the Floodplain Administrator.
 - a. All Subdivision proposals and other proposed development shall be consistent with the need to minimize Flood damage.
 - b. All Subdivision proposals and other proposed development shall have public utilities and facilities such as sewer, gas, electrical and water systems located and constructed to minimize Flood damage.
 - c. All Subdivision proposals and other proposed development shall provide adequate drainage to reduce exposure to Flood hazards.
- e. Standards for Manufactured Homes: All Manufactured Homes that are placed or Substantially Improved shall:
 1. Be elevated so that the bottom of the structural frame or the lowest point of any attached appliances, whichever is lower, is at or above the Regulatory Flood Elevation and provide an elevation certificate to that effect; and
 2. Be securely anchored to an adequately anchored foundation system to resist flotation, collapse or lateral movement. Methods of anchoring may include, but are not to be limited to, use of over-the-top or frame ties to ground anchors. This requirement is in addition to applicable State and Local anchoring requirements for resisting wind forces.
- f. Standards for Recreational Vehicles: All Recreational Vehicles placed on site will either:
 1. Be on site for fewer than 180 consecutive days, and be fully licensed and ready for highway use. A Recreational Vehicle is ready for highway use if it is on its wheels or jacking system, is attached to the site only by quick disconnect type utilities and security devices, and has no permanently attached additions; or
 2. Meet the permit requirements of Section 2.15.B.4 of this Ordinance and the elevation and anchoring requirements for Manufactured Homes in Section 2.15.B.5.e (or 2.15.B.5.a.3.v.).
- g. Floodways: Located within Special Flood Hazard Areas established in Section 2.15.B.2.b are areas designated as Floodways. Since the Floodway is an extremely hazardous area

due to the velocity of Flood waters which carry debris, potential projectiles, and erosion potential, the following provisions apply:

1. Prohibit encroachments, including fill, New Construction, Substantial Improvements, and other development unless certification by a registered professional engineer or architect is provided demonstrating that encroachments shall not result in any increase in Flood levels during the occurrence of the Base Flood discharge.
2. If Section 2.15.B.5.g.1 is satisfied, all New Construction and Substantial Improvements shall comply with all other applicable Flood hazard reduction provisions of Section 2.15.B.5.

f. Flood-related Erosion-prone Areas:

1. The Floodplain Administrator shall require permits for proposed construction and other development within all Flood-Related Erosion-prone areas as known to the community.
2. Permit applications shall be reviewed to determine whether the proposed Site alterations and improvements will be reasonably safe from Flood-Related Erosion and will not cause Flood-Related Erosion hazards or otherwise aggravate the existing hazard.
3. If a proposed development is found to be in the path of Flood-Related Erosion or would increase the Erosion hazard, such improvements shall be relocated or adequate protective measures shall be taken to avoid aggravating the existing Erosion hazard.
4. Within Zone E on the Flood Insurance Rate Map, a Setback is required for all new development from the lake, bay, riverfront or other body of water to create a safety buffer consisting of a natural vegetative or contour strip. This buffer shall be designated according to the Flood-Related Erosion hazard and Erosion rate, in relation to the anticipated “useful life” of Structures, and depending upon the geologic, hydrologic, topographic, and climatic characteristics of the land. The buffer may be used for suitable open space purposes, such as for agricultural, forestry, outdoor recreation and wildlife habitat areas, and for other activities using temporary and portable Structures only.

6. Property Development Standards—Floodplain Management Overlay Zone

- a. All performance, development and maintenance standards, including screening and Landscaping, off-street parking and Sign regulations, shall be as set forth in the underlying zone with which the FPM Zone is combined.
- b. Such other performance, development and maintenance standards as may be specified in a conditional use permit required for any use also shall be applicable.

- c. In a Floodplain where no Floodway is identified, all Structures, except as authorized by Section 2.15.b.2.c, shall be set back five feet from the bank(s) of the Watercourse as determined by the County Engineer.
- d. All development proposals for land areas greater than five acres, wherein at least a portion of the subject property is located in an identified Floodplain area, shall clearly indicate the Base Flood Elevation data as shown on the Flood Insurance Rate Maps (FIRMs).
- e. Flood retarding or protection Structures such as walls or berms may be constructed in identified Floodplain areas if, in the opinion of the County Engineer, such Structures will ensure the protection of properties, Buildings and public safety. Such Structures shall be constructed in accordance with plans and specifications prepared by an engineer registered and licensed to practice in the State of Arizona and as approved by the County Engineer. Such Structures shall not create any detrimental impact or increase Flood hazards on upstream or downstream properties.

7. Variance Procedure

a. Nature of Variances:

- 1. The Variance criteria set forth in this section of the Ordinance are based on the general principle of zoning law that Variances pertain to a piece of property and are not personal in nature. A Variance may be granted for a parcel of property with physical characteristics so unusual that complying with the requirements of this ordinance would create an exceptional hardship to the applicant or the surrounding property owners. The characteristics must be unique to the property and not be shared by adjacent parcels. The unique characteristic must pertain to the land itself, not to the Structure, its inhabitants, or the property owners.
- 2. It is the duty of Coconino County to help protect its citizens from Flooding. This need is so compelling and the implications of the cost of insuring a Structure built below the Regulatory Flood Elevation are so serious that Variances from the Flood elevation or from other requirements in the Flood Ordinance are quite rare. The long-term goal of preventing and reducing Flood loss and damage can only be met if Variances are strictly limited. Therefore, the Variance guidelines provided in this ordinance are more detailed and contain multiple provisions that must be met before a Variance can be properly granted. The criteria are designed to screen out those situations in which alternatives other than a Variance are more appropriate.
- 3. Variances from the provisions of this Section shall be issued only upon consideration and review of technical documentation, prepared by a registered engineer and acceptable to the Floodplain Administrator showing that the objectives of Flood hazard reduction would not be contradicted by the granting of a Variance and that the Variance is the minimum necessary, considering the Flood hazard, to afford relief.

b. Appeal Board:

1. The following information shall be submitted when applying for a Floodplain Variance:
 - i. A completed Coconino County Floodplain Variance application form including name and address of the applicant, name of contact person, phone number, fax number and email address, Assessor's Parcel Number, Subdivision/unit/lot, site address/location, zoning, existing land use, lot size, variance request description, and property owner's authorization by their signature.
 - ii. A typewritten narrative describing the precise nature of the Variance requested.
 - iii. Seven (7) copies of a site plan drawn to scale using accurate dimensions showing property boundaries and any adjacent property affected.
 - iv. A list of all owners of property within three hundred feet (300') of the exterior boundaries of the subject property; the list shall be keyed to a map showing the location of these properties.
 - v. A survey of the property subject to the request may be required based on the specific Variance.
2. The Floodplain Board of Coconino County shall hear and decide appeals and requests for Variances from the requirements of this Ordinance.
3. The Floodplain Board shall hear and decide appeals when it is alleged there is an error in any requirement, decision, or determination made by the Floodplain Administrator in the enforcement or administration of this Ordinance.
4. In passing upon such applications, the Floodplain Board shall consider all technical evaluations, all relevant factors, standards specified in other sections of this Ordinance, and:
 - i. the danger that materials may be swept onto other lands to the injury of others;
 - ii. the danger of life and property due to Flooding or Erosion damage;
 - iii. the susceptibility of the proposed facility and its contents to Flood damage and the effect of such damage on the individual owner;
 - iv. the importance of services provided by the proposed facility to the community;
 - v. the necessity to the facility of a waterfront location, where applicable;
 - vi. the availability of alternative locations for the proposed Use which are not subject to Flooding or Erosion damage;

- vii. the compatibility of the proposed Use with existing and anticipated development;
 - viii. the relationship of the proposed Use to the Comprehensive Plan and Floodplain Management program for that area;
 - ix. the safety of access to the property in time of Flood for ordinary and emergency vehicles;
 - x. the expected heights, velocity, duration, rate of rise, and sediment transport of the Flood waters expected at the Site; and,
 - xi. the costs of providing governmental services during and after Flood conditions, including maintenance and repair of public utilities and facilities such as sewer, gas, electrical, and water system, and Streets and bridges.
5. Upon consideration of the factors of Section 2.15.B.7.b.4 and the purposes of this Ordinance, the Floodplain Board may attach such conditions to the granting of Variances as it deems necessary to further the purposes of this Ordinance.
6. Any applicant to whom a Variance is granted shall be given written notice over the signature of a County official that:
- i. the issuance of a Variance to construct a structure below the Base Flood level will result in increased premium rates for Flood insurance up to amounts as high as \$25 for \$100 of insurance coverage, and
 - ii. such construction below the Base Flood level increases risks to life and property.
 - iii. Such notification shall be maintained with a record of all Variance actions as required in Section 2.15.B.7.b.7 of this Ordinance. Such notice will also state that the land upon which the Variance is granted shall be ineligible for exchange of land pursuant to any Flood relocation and land exchange program. A copy of the notice shall be recorded by the Floodplain Board in the office of the Coconino County Recorder and shall be recorded in a manner so that it appears in the chain of title of the affected parcel of land.
5. The Floodplain Administrator shall maintain a record of all Variance actions, including justification for their issuance, and report such Variances issued in its biennial report submitted to the Federal Emergency Management Agency.
- c. Conditions for Variances:
- 1. Generally, Variances may be issued for New Construction and Substantial Improvements to be erected on a Lot of one-half acre or less in size contiguous to and surrounded by Lots with existing Structures constructed below the Base Flood level,

providing the procedures of Sections 2.15.B.4 and 2.15.B.5 of this Ordinance have been fully considered. As the Lot size increases beyond one-half acre, the technical justification required for issuing the Variance increases.

2. Variances may be issued for the repair, rehabilitation or restoration of Structures listed in the National Register of Historic Places or the State Inventory of Historic Places, upon a determination that the proposed repair or rehabilitation will not preclude the Structure's continued designation as a Historic Structure and the Variance is the minimum necessary to preserve the historic character and design of the Structure.
3. Variances shall not be issued within any designated Floodway if any increase in Flood levels during the Base Flood discharge would result.
4. Variances shall only be issued upon a determination that the Variance is the minimum necessary, considering the Flood hazard, to afford relief.
5. Variances shall only be issued upon:
 - i. A showing of good and sufficient cause;
 - ii. A determination that failure to grant the Variance would result in exceptional hardship to the applicant;
 - iii. A showing that the Use cannot perform its intended purpose unless it is located or carried out in close proximity to water. This includes only facilities defined in Chapter 6 of this Ordinance in the definition of "Functionally Dependent Use"; and
 - iv. A determination that the granting of a Variance will not result in increased Flood heights, additional threats to public safety, or extraordinary public expense, create nuisances, cause fraud on or victimization of the public, or conflict with existing local laws or ordinances.

d. Variance Review Timeframes

1. Administrative completeness pursuant to A.R.S. 11-1605 shall be determined within 60 calendar days of the submittal of a Variance application. Applicants will be notified in writing of an incomplete application with a list of deficiencies. Notice in writing of application deficiencies shall suspend the administrative completeness timeframe until such time as all deficiencies have been addressed.
2. Substantive review of all Variance applications shall be completed within 120 calendar days from the determination that the Variance application is administratively complete. One written request for additional information may be made to the applicant during the review process. The substantive review includes investigation

- and report on the case, public hearing and action of the Floodplain Board. The applicant may waive the timeframe constraints on this review.
3. The total time for the granting or denying of the design review overlay approval is 180 days.
 4. Timeframes shall be subject to the standards for Permits requiring Hearing.

Section 2.15.C: Design Review Overlay Zone — DRO Zone

1. Purposes

In order to protect and enhance the visual quality of certain areas of the County, the Board of Supervisors, upon recommendation by the Planning and Zoning Commission, may in addition to an existing zone classification as specified in this Ordinance, apply the Design Review Overlay Zone to such area to accomplish the following purposes:

1. To ensure that the development, Buildings or Structures will conserve the values of adjacent properties and will not prove detrimental to the character of Buildings or Uses already established in the area.
2. To ensure that the proposed development will be properly related to its Site and to surrounding Sites and Structures, and to prevent the construction of Structures that would be inharmonious with their surroundings.
3. To ensure that Sites, projects and Structures subject to Design Review are developed with due regard for the environmental qualities of the natural terrain and landscape, and, that trees and shrubs are not indiscriminately destroyed.
4. To ensure that the design and exterior architecture of proposed Structures will not be so at Variance with either the design or exterior architecture of the Structures already constructed or being constructed in the immediate neighborhood as to cause a substantial depreciation of property values in the neighborhood.
5. To ensure that open spaces, parking areas, and Landscaping are designed to enhance the visual and physical use of the property and to screen deleterious Uses.
6. To ensure that the proposed development complies with all of the provisions of this Ordinance and the goals and objectives of the Comprehensive Plan or any amendment or element thereof or specific plan for the area.

2. Establishment and Application of Zones

- a. Upon application of the Design Review Overlay Zone to a specific area of the County, the Board of Supervisors, upon recommendation of the Planning and Zoning Commission, shall establish design guidelines for that area. Said guidelines may include exterior design, materials, textures, colors, and means of illumination.

- b. The provisions of this Section shall be applicable only to multiple-family developments, commercial or industrial establishments, and public or semi-public Uses and all Signs for such Uses.
- c. All development or redevelopment described in Subsection above, including Buildings, Structures, Signs, Landscaping, site layout and Use relationships, to be located within the Design Review Overlay Zone shall be first approved under the provisions of this Section by the Planning and Zoning Commission prior to the letting of permits for and/or initiation of such development. Redevelopment shall include, but not be limited to, any remodeling or change in appearance of the exterior of any Structure, or the appearance of any Site.
- d. Approval of all development to be located within the Design Review Overlay Zone shall be based upon a finding by the Commission that such development conforms to the applicable design guidelines as required by Subsection a, above.
- e. Within the Design Review Overlay Zone, all Uses permitted in the underlying zone with which the DRO Zone is combined are permitted.

3. Approval Process

a. Design Review Overlay Application Requirements

Design Review Overlay applications shall follow requirements and procedures for Permits requiring hearing and in addition the following information shall be submitted when applying for Design Review Overlay approval:

- 1. Documentation shall be provided in a written description as well with supplemental data to show compliance with the specific guidelines of the adopted design review guidelines for the following communities: Kachina Village, Mountaineer, Oak Creek Canyon, Doney Park/Timberline/ Fernwood, and the Fort Valley Highway 180 Scenic Corridor.

b. Timeframe of Approval

Paint color, Landscaping, Signs, fencing and other minor improvements may be administratively approved by staff. A Design Review Overlay application is not required for an administrative approval which may be completed in conjunction with an associated lighting permit, Sign permit or Building Permit. Applicants may take any proposal directly to the Planning and Zoning Commission for review in lieu of an administrative decision.

c. Investigation and Report

The Director of Community Development shall make an investigation of the application and shall prepare a report thereon which shall be submitted to the Planning and Zoning Commission and made available to the applicant prior to the public hearing.

d. Action by the Planning and Zoning Commission

Within 45 days of the date the drawings are submitted, the Planning and Zoning Commission shall act on the proposal. Failure of the Commission to act within 45 days shall be deemed approval of the drawings unless the applicant shall consent to an extension of time.

e. Effective Date of Design Review Decision

A decision of the Planning and Zoning Commission on a Design Review shall be effective immediately upon receipt by the Department of Community Development of a signed agreement to the conditions of approval; provided, however, that an applicant or any other person may appeal said decision to the Board of Supervisors within fifteen (15) days from the date of such decision.

f. Appeal to the Board of Supervisors

A decision of the Planning and Zoning Commission on a Design Review may be appealed to the Board of Supervisors as prescribed in Section 5.5.A (Appeal of Decision of Planning and Zoning Commission).

g. Action by Board of Supervisors on Appeal

The Board of Supervisors shall hold at least one public hearing on a decision of the Planning and Zoning Commission which has been appealed per the requirements of Section 5.5.B.

h. Lapse of Design Review Approval

Design Review approval shall lapse and shall be void one year following the date upon which the plans and drawings were approved unless prior to the expiration of one year a Building Permit is issued and construction is commenced and diligently pursued toward completion.

Approval of Accessory Dwellings shall require compliance with the following performance standards:

- a. A maximum of one Accessory Dwelling is permitted per Lot.
- b. In all single Family residential areas, an Accessory Dwelling of up to 400 square feet livable area is permitted regardless of Lot or principal Dwelling size.
- c. Accessory Dwellings are further limited to 50% of the livable square footage of the main Dwelling up to a maximum of 1000 square feet for a Detached Accessory Dwelling, or 1200 square feet for an Attached Accessory Dwelling.
- d. Only a single Family Dwelling or Modular Home may be used as an Accessory Dwelling. Travel Trailers, Park Models, Recreational Vehicles, Manufactured and Mobile Homes are prohibited Accessory Dwellings.
- e. All utilities may be on separate meters than the principal Dwelling unless otherwise prohibited by a utility company.
- f. Maximum separation between the principal Dwelling and Detached Accessory Dwelling shall be sixty (60') feet on Lots less than four (4) acres and one hundred (100') feet on Lots four (4) acres or greater.
- g. Accessory Dwellings shall share some common features with the principal Dwelling. Common features may include, but are not limited to, roof pitch, colors, porches and window treatments or other components of the exterior appearance.

Section 3.4.D: Permits and Administration:

1. Applicable Building, Environmental Quality and Engineering Permits apply. Planning and Zoning review shall be conducted through the issuance of such permits.
2. A waiver of the requirements of for separation distance and maximum square footage may be requested in writing from the Director of Community Development if the waiver is necessary to achieve the following:
 - a. For existing Structures to be converted into an Accessory Dwelling,
 - b. Protection of Environmentally Sensitive Features,
 - c. Energy efficiency through passive solar design,
 - d. The accommodation of alternative energy **or water conservation systems.**
3. A decision of the Director of Community Development may be appealed to the Planning and Zoning Commission.

Section 3.5: Home Occupations

Section 3.5.A: Purpose

Section 3.5.B: Applicability

Home Occupations, where permitted by the provisions of this Ordinance, shall be subject to the approval of the Director of Community Development and shall comply with the following Performance Standards:

Section 3.5.C: Performance Standards

1. A Home Occupation shall be conducted in a Dwelling and shall be clearly incidental to the Use of the Structure as a Dwelling.
2. In no way shall the appearance of the Structure or the premises be so altered or the conduct of the occupation within the Structure be such that the Structure or premises may be reasonably recognized as serving a non-residential Use (either by color, materials, or construction, lighting, Signs, sounds or noises, vibrations, display of equipment, etc.).
3. No one other than a resident of the Dwelling shall be employed in the conduct of a Home Occupation.
4. No motor or mechanical equipment shall be permitted other than normally incidental to the Use.

5. The Use shall not generate pedestrian or vehicular traffic beyond that normal to the district in which it is located.
6. No storage of materials and/or supplies, including vehicles or equipment used in the occupation, indoors or outdoors, shall be permitted which will be hazardous to surrounding neighbors or detrimental to the residential character of the neighborhood.
7. No Building or space outside of the main Building shall be used for Home Occupational purposes except approved Agricultural/horticultural related activities.
8. There shall be no use of utilities or community facilities beyond that normal to the Use of the property for residential purposes.
9. A Home Occupation shall not create any radio or television interference or noise audible beyond the boundaries of the site.
10. No smoke, odor, liquid, or solid waste shall be emitted.
11. There shall be no outdoor storage or display of materials or equipment maintained on the premises.
12. The conduct of the Home Occupation shall not interfere with the maintenance of the required off-street parking spaces on the property.

Section 3.5.D: Permits and Administration

1. The application shall be subject to periodic review by the Director of Community Development. Violation of any criteria listed above shall result in cancellation of the Home Occupation permit.
2. A decision of the Director of Community Development regarding the approval, disapproval, or conditions imposed may be appealed in writing to the Planning and Zoning Commission within fifteen (15) days of notice of the decision.

Section 3.6: Cottage Industries

Section 3.6.A: Purpose

Section 3.6.B: Applicability

Cottage Industries, in Zones in which they are listed Use, may be permitted subject to the granting of a Conditional Use permit per Section 5.7 by the Planning and Zoning Commission, and if approved shall comply with the following restrictions:

Section 3.6.C: Performance Standards

1. The entrepreneur of the Cottage Industry shall reside on the property.
2. The number of persons employed in connection with the Cottage Industry and who are not residents of the Dwelling shall not exceed three (3) full time employees or the equivalent part-time.
3. The Cottage Industry may be conducted either within the Dwelling or an Accessory Structure, or both, provided that not more than 50% of the combined floor area shall be used in the conduct of the Cottage Industry.
4. One non-illuminated Sign not exceeding six (6) square feet in area and six (6) feet in height shall be permitted. Colors of Sign background, Sign lettering, and support structure shall be earth tones complementary to the natural surroundings.
5. Adequate off-street parking shall be provided according to the provisions of Section 4.1, Off-Street Parking. There shall be a maximum of five (5) parking spaces.
6. Any outdoor storage shall be as permitted in the underlying zone or as specified by the Commission. Outdoor storage shall be completely enclosed with a solid six (6) foot high fence or wall.
7. Parking of Commercial Vehicles shall be as permitted in the underlying zone.
8. Property for which a conditional use permit for a Cottage Industry is approved shall front on and have direct Access on a Road accepted for maintenance by the County or other governmental agency.
9. Outdoor lighting shall conform to Section 4.3, Lighting.
10. Direct sales of products is allowed if such sales are specifically provided for in the Use permit.
11. The business shall not generate any noise, vibration, smoke, dust, odor, heat, glare, or electrical interference with radio or television reception that would exceed that normally produced by a Dwelling Unit.

Section 3.6.D: Permits and Administration:

1. Establishment of a Cottage Industry shall require issuance of a Conditional Use Permit in compliance with the provisions of Section 5.7
2. The Commission may grant a Conditional Use permit for up to three (3) years. If all requirements of this Section and of the use permit have been consistently met, and if no complaints have been filed with the Department of Community Development, the Use permit may be renewed for up to five (5) years.

Section 3.7: Bed And Breakfast Establishments

Section 3.7.A: Purpose

Section 3.7.B: Applicability

Bed and Breakfast Establishments, where permitted by the provisions of this Ordinance through the issuance of a Conditional Use permit per Section 5.7, shall be subject to the approval of the Planning and Zoning Commission and shall comply with the following Performance Standards:

Section 3.7.C: Performance Standards

1. All provisions of Section 3.5 pertaining to Home Occupations shall be met.
2. Applicants for a use permit shall be the property owners.
3. No more than two bedrooms shall be used at any one time.
4. No more than five boarders may be accommodated at any one time.
5. The maximum duration of stay of any one guest shall be ten days.
6. The boarders must enter through the main entrance of the Dwelling to get to their rooms, with no separate entrances allowed.
7. All parking must be accommodated on site.
8. The Commission may grant a Conditional Use permit for up to three (3) years. If all requirements of this Section and of the Use permit have been consistently met, and if no complaints have been filed with the Department of Community Development, the Use permit may be renewed for up to five (5) years.
9. For the use of two bedrooms, State and County Health Department approval and permits are required.

Section 3.7.D: Permits and Administration:

Establishment of a Bed and Breakfast shall require issuance of a Conditional Use Permit in compliance with the provisions of Section 5.7.

Section 3.8: Group Homes for the Disabled

Section 3.8.A: Purpose:

The purpose of these regulations is to permit disabled persons, as defined by state and federal law, to reside in single family residential neighborhoods in compliance with the Fair Housing Act and applicable state law, while preserving the residential character of the neighborhood.

Section 3.8.B: Applicability

1. Zoning Confirmation: Prior to registration, a request for zoning confirmation may be submitted to the Community Development Department to confirm that the proposed location of the group home is permitted under this Section.
2. Additional Requirements of State Law: Notwithstanding the foregoing, if the State has adopted laws or rules for the regulation of a specific type of home, such as a Group Home for the developmentally disabled pursuant to ARS § 36-582 or an assisted living home pursuant to ARS Title 36, Chapter 4, then any such State law or rule shall apply in addition to the conditions listed herein and shall preempt any conflicting condition listed herein.

Section 3.8.C: Performance Standards

Group Homes for the Disabled shall be located, developed, and operated in compliance with the following standards:

- a. Separation. The minimum separation between group homes shall be 1,200 feet in accordance with ARS § 36-582, as measured from the closest property lines. No separation is required when Group Homes are separated by a utility Right-of-Way of at least 300 feet in width, or by a freeway, arterial Street, canal, or railroad.
- b. Occupancy. The number of residents, excluding staff, shall not exceed 10.
- c. Exterior Appearance. There shall be no sign or other exterior indication of a Group Home visible from a Street.
- d. Compliance with all applicable Building, Environmental Health and Fire Safety Regulations. If a Group Home has one or more non-ambulatory residents, building code requirements in addition to those applicable to Group Homes with no non-ambulatory residents, shall apply.
- e. Licensing. Group Homes shall comply with applicable licensing requirements.
- f. Parking. Any parking for the Group Home shall be on Site.

Section 3.8.D: Permits and Administration

1. Permits shall be subject to the standards of Section 5.1.A: Administrative Permits.
2. Property is considered a Group Home for the Disabled under this Ordinance after the Coconino County Community Development Department issues a Permit for a Group Home for the Disabled for that property. Only property serving occupants who fit the definition of Disabled under the Fair Housing Act are eligible for determination as a Group Home for the Disabled.
 - a. In order to secure a Permit for a Group Home for the Disabled, an application must be submitted on the form prescribed by the Community Development Department. The application must be accompanied by the following: a Site Plan, a notarized statement detailing qualifications, copies of applicable licenses, an affidavit of compliance and other documentation indicating the use of the property as a Group Home for the Disabled as may be required by the Director of the Community Development Department. The Director of Community Development may require additional information or plans, if they are necessary to enable a determination as to whether the circumstances prescribed for the granting of a Conditional Use Permit exist. The Director of Community Development may authorize omission of any or all of the plans and drawings required by this Section if they are not necessary.
 - b. The Community Development Department will review the application for administrative completeness within 10 days after submission. The Department will have 30 days after administrative completeness to conduct its substantive review of the application. The total time for the granting or denying of the Certificate of Exemption is 40 days. Time frames are tolled and may be waived in accordance with A.R.S. §11-1601 et seq.
3. If standards are not met, the home shall be considered an Other Group Home or Institutional Residential Use and shall be subject to the provisions of the Zoning Ordinance guiding such an establishment. Status as a Group Home for the Disabled is open to review by the Coconino County Community Development Department and may be canceled at any time upon a determination by the Director that the property is no longer being used for a qualifying purpose or meeting standards laid forth in this Ordinance.

Section 3.9: Wireless Telecommunication Facilities

Section 3.9.A: Purpose

1. The purpose of this Section is to establish a process, rules and standards for the construction of Wireless Telecommunication Facilities to:
 - a. To protect and promote the public health, safety and welfare.
 - b. To provide guidelines for the siting and design of Wireless Telecommunication Facilities.

- c. To protect the county's environmental resources and to minimize adverse impacts on visual resources.
- d. To ensure that Wireless Telecommunication Facilities are compatible with adjacent land Uses.
- e. To minimize the number of towers by encouraging the joint use (co-location) of facilities and by maximizing the use of existing Towers and Structures.
- f. To allow competition in telecommunications service.
- g. To enhance the ability to provide wireless telecommunication services to county residents, businesses and visitors.

Section 3.9.B: Applicability

1. Wireless Telecommunication Facilities require the granting of a Conditional Use permit by the Planning and Zoning Commission except as exempted in Section 2 below. Facilities are preferred in the industrial (M-1-10,000, M-2-6,000, and MP) and commercial (CG-10,000, CH-10,000, and CN-2/A) zones, but are also permitted with a Conditional Use permit in the AR, RR, G, PRD, PC, PS, OS, RC, P, RS, RM, MHP, RMH, and MR zones. Facilities are least preferred in the residential (RS-6,000, RS-10,000, etc., RM-10/A, RM-20/A, MHP and RMH) zones.
2. Exemptions
 - a. Zoning Ordinance Section 3.9 does not apply to Ham Radio Towers, which are regulated elsewhere in the Zoning Ordinance, or to satellite dishes for television reception at individual single family residences.
 - b. A Conditional Use Permit is not required to co-locate additional Antennas on already approved Towers unless it results in a substantial change in the approval, such as an increase in Tower Height. An increase of the originally approved Tower Height by more than 10% or an increase in the originally approved Tower Height to create an antenna separation of more than 20 feet is considered a substantial change in Tower Height. Co-locations are subject to the same conditions of approval as the original Conditional Use Permit. A Conditional Use Permit is not required for attached Antennas where the Height of the Structure the Antenna is being attached to is not increased. Examples would be Antennas on existing utility or light poles, water Towers, or on the fascia of existing Buildings.
 - c. A conditional use permit is also not required for a stealth design that meets the Height restriction of the zone in which the Tower is proposed to be located. Towers exempted by this subsection shall meet all requirements of subsection 3.9.C.3 and all underlying zone performance standards.

Section 3.9.C: Performance Standards

1. Preferred Facilities:

- a. Site location and development of Wireless Telecommunication Facilities shall preserve the existing character of the surrounding land Uses and Buildings and the aesthetic visual character of the area. If technically feasible, new facilities shall use the most preferred facility type. The order of preference for new facilities is as follows (from most preferred to least preferred):
 1. Co-location on an existing Tower
 2. Antennas attached to existing Structures such as Buildings, light poles, utility poles
 3. Concealed or camouflaged facilities
 4. New sites on previously disturbed areas such as cinder pits
 5. New Towers/facilities under 100' in commercial or industrial zones
 6. New Towers/facilities 100'-175' in commercial or industrial zones
 7. New Towers/facilities under 100' in G, AR, or RR zones
 8. New Towers/facilities 100'-199' in G zones
 9. New Towers/facilities 100'-150' in AR or RR zones
 10. New Tower in other zones as described in Section 3.9.B.1 above
- b. New facilities shall use the most preferred facility type and location where technically feasible, even if it results in an increase in the number of facilities or a higher cost. A lesser-preferred facility type may be permitted only if the applicant presents substantial evidence to show that it will have a lesser visual impact or is more technically necessary than the use of more preferred facilities. New facilities shall be designed to accommodate co-location to the extent possible.

2. Disfavored Facilities

- a. Any site that is within a state or federal designated scenic corridor such as Highways 180, 64, and 89A.
- b. Any site within a visual corridor or scenic vista, for example in the view of the San Francisco Peaks, along a ridgeline exposed to view from highway travelers or to residential areas, along a public trail, in a park or recreation area, unless the facility blends with the surrounding natural and human made environment.
- c. Sites adjacent to or very close to residential areas.

- d. Sites adjacent to or very close to sacred sites.

3. All Facilities

- a. Height. New facilities shall not exceed 199 feet in Height.
- b. Setbacks. The Setback for Towers is 105% of the Tower Height from all property lines so that in case of collapse or failure the Tower would be contained on the property. Setbacks may be allowed to extend onto adjacent properties if there are dedicated fall zone easements. The Setbacks may be reduced if a registered engineer can certify that in case of failure the tower would be contained on site. In commercial and industrial zones, the Setbacks may be reduced to 30% of the Tower Height if a registered engineer can prove that in case of failure the Tower would be contained on site. Guys and Accessory Structures must meet the Setbacks of the underlying zoning classification. Facilities that are located on new or replaced utility poles, street lights, or traffic signal poles are exempt from the Setback requirements.
- c. Color and Materials. Towers and attached Antennas must be painted or coated in a color that blends with the surrounding environment. Muted colors, earth tones, and subdued hues, such as gray, shall be used. All associated Structures such as equipment Buildings, including the roofs, shall be painted with earth tone colors.
- d. Flight Diversers. All towers with guy wires must include a Flight Diverter for every fifteen feet of wire, or as otherwise approved by staff based on the most current technology.
- e. Fencing. New Towers, other than flagpoles, utility poles, or other camouflaged facilities, shall be fenced to prevent trespass.
- f. Lighting. Lighting on any new Tower is prohibited unless required by the Federal Aviation Administration or by other applicable state or federal requirements. Motion detector security lighting may be approved if the lights are fully shielded. Any outdoor lighting requires a separate lighting permit.
- g. Landscaping. Perimeter Landscaping may be required as a condition of approval of the facility, depending on the location. Existing vegetation shall be preserved to the maximum extent possible.
- h. Signs. No advertising is permitted anywhere upon or attached to the facility. Signage is limited to small non-illuminated warning and identification Signs.
- i. Permits. A Building Permit is required for the construction of any new Tower and for Accessory Structures.
- j. Storage. Long-term vehicle storage and other outdoor storage are prohibited.

- k. Term of use permit. The Conditional Use Permit shall have a time limit of no more than ten years. Prior to the end of the ten-year period, the applicant and/ or Structure owner shall be responsible for submitting a new application for renewal. The applicant shall demonstrate that changes in technology have not eliminated the need for the facility as approved. Renewal of a conditional use permit shall be based on compliance with the conditions of approval.

4. Abandonment

The provisions of Zoning Ordinance Section 3.13, Historic and Nonconforming Uses, shall apply to Wireless Telecommunications Facilities. Pursuant to Section 3.13, a Tower shall be considered abandoned and the use discontinued if it is not utilized, i.e. there are no providers/Antennas on the tower, for a continuous period of 180 days.

5. Obsolescence and Removal

In addition to all other remedies available to Coconino County, if a facility is abandoned pursuant to Section 3.9.C.4 above and Section 3 of the Zoning Ordinance, or if a facility becomes obsolete due to changing technology, it shall be the responsibility of the Tower owner and/or property owner to remove the Tower and to restore the site to its original condition within 60 days.

Section 3.9.D: Permits and Administration:

1. Establishment of a Wireless Telecommunications Facility shall require issuance of a Conditional Use Permit in compliance with the provisions of Section 5.7, except as exempted by Section 3.9.B.2.
2. Application Process
 - a. Prior to the submittal of a conditional use permit application, the applicant shall schedule a pre-application conference with staff of the Community Development Department. In addition, for facilities located within one-half mile of a residential area, the applicant shall hold a neighborhood meeting prior to the submittal of an application. Staff will attend the meeting and utilize the comments of neighbors in the analysis presented to the Planning and Zoning Commission. The requirement for a neighborhood meeting may be waived by the Director of Community Development.
 - b. In addition to requirements of Section 5.1.B, Permits requiring Hearing, the following shall be provided:
 1. Elevation drawings. The drawings shall show the Tower and proposed attached Antenna(e), as well as proposed Structures on the ground. Materials and colors shall be indicated and color samples shall be provided.
 2. Photo images. Photo simulations of the proposed facility from each direction shall be provided showing the Tower, all Antennas, Structures, and equipment facilities,

- demonstrating the true impact of the facility on the surrounding visual environment. The Community Development Department will assist in specifying recommended vantage points and the requested number of photo simulations at the pre-application conference.
3. Coverage maps. The applicant shall submit coverage maps from a licensed engineer demonstrating the need for the proposed facility. The maps shall be drawn to scale, shall demonstrate existing service coverage and strength, and shall demonstrate future service coverage and strength with the proposed facility.
 4. Evidence of the least intrusive means to address a demonstrated coverage gap. For applications made to close a significant gap in coverage, the applicant shall provide evidence that they have explored all other reasonable locations and designs to address the demonstrated coverage gap. The applicant shall provide evidence that the selected site and design is the least intrusive option to address the gap in coverage or that less intrusive sites and designs are not technically or physically feasible.
 5. Written narrative. A written narrative shall be submitted with the application explaining why the proposed site has been chosen, why the proposed Wireless Telecommunication Facility is necessary, why the requested height was chosen, ability of the facility to accommodate other providers, and any other information requested at the pre-application conference.
 6. Existing Structures. Evidence shall be submitted demonstrating that no existing verticality can be utilized within the targeted search area, defined generally as a one mile radius, to meet the applicant's requirements.
 7. Property owner list. A typewritten list of the names and addresses of all property owners, keyed to Assessor's Parcel Numbers, within 500 feet of the outside boundaries of the subject property for towers up to 99 feet, and within 1000 feet for towers from 100-199 feet.
 8. For facilities within one quarter mile of an established residence, evidence of notification of property owners within one quarter mile, and a map indicating the Tower site and residential area.
- c. Due to the complexity of the methodology or analysis required to review an application for a wireless telecommunications facility conditional use permit, the Director may require a technical review by a third party expert. The costs of this review shall be borne by the applicant, and shall be in addition to applicable Conditional Use Permit and Building Permit fees. The expert review may include, but is not limited to, the following:
1. The accuracy and completeness of the submissions;
 2. The applicability of analysis techniques and methodologies;
 3. The validity of conclusions reached;

4. Whether the proposed Wireless Telecommunications Facility complies with the applicable criteria set forth in these regulations;
5. Other matters deemed by the Director to be relevant in determining whether a proposed Wireless Telecommunications Facility complies with the provisions of these regulations.

Section 3.10: Metal Storage Container Boxes

Section 3.10.A: Purpose

The purpose of this Section is to establish the criteria, process, rules and standards for the use of Metal Storage Container boxes.

Section 3.10.B: Applicability

Section 3.10.C: Performance Standards

1. Temporary Uses in the G, AR, RR and RS Zones
 - a. Upon the issuance of an Administrative Permit, two 160 square foot Metal Storage Containers may be established with a no-fee temporary use permit. A temporary use permit is required prior to the storage containers being located on site and may be issued for up to 18 months at a time. Temporary use permits may be renewed so long as Building Permit remains in active status.
 - b. For non-permit projects (emergency situations related to fire or flood, or remodels), two 160 square foot Metal Storage Containers may be established with temporary use permit for up to 9 months. Emergency related projects are subject to a no fee permit. Temporary use permits may be renewed for an additional 9-month period.
 - c. Metal Storage Containers shall be located at least 10 feet from the Front and Street Side Property Lines and shall meet Side and Rear Setback requirements for the zoning district in which they are located. Exceptions may be granted by the Director of Community Development in an emergency situation for a maximum of 90 days.
 - d. There shall be no utilities installed within the Metal Storage Container.
 - e. Any deviations from these standards may be approved through the issuance of a Conditional Use Permit per Section 5.7.
2. Temporary Uses in the CG, CH, M1 and M2 Zones
 - a. Upon the issuance of an Administrative Permit, Metal Storage Containers may be established with a temporary use permit. A no fee temporary use permit is required prior

to the storage container being located on site and may be issued for up to 18 months at a time. Temporary use permits may be renewed so long as Building Permit remains in active status.

- b. For non-permit projects Metal Storage Containers may be established with a temporary use permit for up to 6 months.
- c. Metal Storage Containers are required to meet all development standards of the Zoning District in which they are located including Setbacks, Building separation and Structure Height. Exceptions may be granted by the Director of Community Development in an emergency situation for a maximum of 90 days.
- d. There shall be no utilities installed within the Metal Storage Container.

3. Permanent Uses in the G, AR, RR and RS Zones

- a. One 160 square foot Metal Storage Container may be established with an approved Administrative Permit subject to the following standards.
 - 1. There shall be no signage on the Metal Storage Container.
 - 2. The only utilities permitted shall be electricity for lights and outlets, i.e. there shall be no plumbing or mechanical. The addition of electricity requires an electric permit.
 - 3. All containers shall be painted and maintained either the primary Structure color or a pre-approved earthtone color consistent with the surrounding terrain prior to placement.
 - 4. Metal Storage Containers are required to meet all development standards of the Zoning District in which they are located including Setbacks, Building separation and Structure Height.
 - 5. Use of the unit is for the storage of personal effects owned by the property owner or tenant. There shall be no commercial use of the unit, for example rental of the unit to people not residing on the property.
 - 6. The unit shall not be used for residential use or for the keeping of animals.
 - 7. Nothing shall be stored on top of the unit.
- b. Any deviations from these standards may be approved through the issuance of a Conditional Use Permit per Section 5.7.
- c. Metal storage containers existing prior to the adoption of this Ordinance will have until January 1, 2009 to meet these requirements.

3. Permanent Uses in the CG and CH Zones

- a. The equivalent of one 320 square foot Metal Storage Container (for example two 8'x20' containers or one 8'x40') may be established with an approved Administrative Permit subject to the following standards.
 - 1. There shall be no signage on the Metal Storage Containers.
 - 2. Electric utility may be permitted as part of the Building Permit.
 - 3. All containers shall be painted and maintained either the primary Structure color or a pre-approved earthtone color consistent with the surrounding terrain prior to placement.
 - 4. Metal Storage Containers are required to meet all development standards of the Zoning District in which they are located including Setbacks.
 - b. Any deviations from these standards may be approved through the issuance of a Conditional Use Permit per Section 5.7.
 - c. Metal storage containers existing prior to the adoption of this Ordinance will have until January 1, 2009 to meet these requirements.
4. Permanent Uses in the M1 and M2 Zones
- a. Metal Storage Containers are permitted with an approved Building Permit subject to the following standards.
 - 1. There shall be no signage on the Metal Storage Containers
 - 2. Electric utility may be permitted as part of the Building Permit.
 - 3. All containers shall be painted and maintained either the primary Structure color or a pre-approved earth tone color consistent with the surrounding terrain prior to placement.
 - 4. Metal Storage Containers are required to meet all development standards of the Zoning District in which they are located including Setbacks. Any deviations from these standards may be approved through the issuance of a conditional use permit.
 - b. Any deviations from these standards may be approved through the issuance of a Conditional Use Permit per Section 5.7.
 - c. Metal Storage Containers existing prior to the adoption of this Ordinance will have until January 1, 2009 to meet these requirements.

Section 3.10.D: Permits and Administration:

1. All Metal Storage Containers shall be subject to the issuance of a permit. Issuance may be through the action of the Director of Community Development or the Planning and Zoning Commission.
 - a. Establishment of a Metal Storage Container Administrative Permit shall be in compliance with the provisions of Section 5.1.A.
 - b. Establishment of a Metal Storage Container requiring issuance of a Conditional Use Permit shall be in compliance with the provisions of Section 5.7.

Section 3.11: Accessory Wind Energy Systems

Section 3.11.A: Purpose

The purpose of this Section is to establish a process, rules and standards for the construction and operation of Accessory Wind Energy Systems used primarily for on-site power consumption.

Section 3.11.B: Applicability

1. Accessory Wind Energy Systems shall be considered a permitted use in the following zoned areas G, AR, RR, RS, RM, PC, PRD, PS, RC, CG, CH, MR, MP, M1 and M2 Zones that are a minimum of one acre in size. Roof mounted systems may be permitted in any of the above-mentioned zoned areas that are a minimum of one-half acre in size.
2. Any deviation from the required standards of this Ordinance may be approved through the issuance of a Conditional Use Permit per Section 5.7.

Section 3.11.C: Performance Standards

1. The requirements of this Ordinance shall apply to all Accessory Wind Energy Systems proposed after the effective date of this Ordinance.
2. All Accessory Wind Energy Systems shall conform to applicable industry standards, including those of the American National Standards institute.
3. Minimum parcel size of one acre is required for the installation of an Accessory Wind Energy System.
4. No more than two systems are permitted per parcel.
5. Maximum height shall be that of the underlying zoning district measured from preexisting natural Grade to the center of the turbine hub for horizontal and vertical systems.

6. Setback requirements shall be 100% of the Total Height of the Accessory Wind Energy System from all property lines, Access Easements, Residential Structures, and public electric power or telephone lines. No part of the wind system Structure, including guy wire anchors, may extend into the minimum Setback area of the underlying zoning district or into any Access or utility Easements
7. All portions of the energy system shall be a non-reflective, non-obtrusive color, subject to the approval of the Community Development Director. The appearance of the turbines, towers and any other related components shall be maintained throughout the life of the wind energy facility pursuant to industry standards.
8. Systems shall not be used for displaying any advertising.
9. Systems shall not be illuminated unless required by a state or federal agency.
10. The electrical collection system shall be placed underground within the interior of each parcel. The collection system may be placed overhead near substations or points of interconnection to the electric grid. All grid-connected systems shall have a completed contractual agreement with the local utility prior to the issuance of a Building Permit.
11. Accessory Wind Energy Systems shall be designed, installed, and operated so that noise generated by the system shall not exceed fifty decibels (50 dBA), as measured from the nearest property line, except during short-term events including utility outages and severe wind storms.
12. Obsolescence and Removal

If the Accessory Wind Energy System remains nonfunctional or inoperative for a continuous period of 120 days, the system shall be deemed to be abandoned and shall constitute a public nuisance. The owner shall remove the abandoned system at their expense after a demolition permit has been obtained. Removal includes the entire Structure including foundations to below natural Grade, and transmission equipment.

Section 3.11.D: Permits and Administration:

Building Permits shall be obtained for any Accessory Wind Energy System prior to installation.

Section 3.12: Medical Marijuana Dispensaries and Off-Site Cultivation and Infusion Facilities

Section 3.12.A: Purpose

The purpose of this Section is to establish a process, rules, and standards for the construction, establishment, and operation of Medical Marijuana Dispensaries, and Off-Site Cultivation and Infusion Facilities, pursuant to ARS §36-2806.01.

Section 3.12.B: Applicability

1. Medical Marijuana Dispensaries shall be considered a permitted use in the CG-10,000 (Commercial General) and CH-10,000 (Commercial Heavy) Zones or in the PC (Planned Community) Zone in areas designated for development subject to CG-10,000 and CH-10,000 Uses and development standards subject to the following performance standards and design requirements.
2. Medical Marijuana Off-Site Cultivation and Infusion Facilities shall be considered permitted Uses in the M-1-10,000 (Light Industrial), and M-2-6,000 (Heavy Industrial) Zones or in the PC (Planned Community) Zone in areas designated for development subject to the M-1-10,000 and M-2-6,000 Uses and development standards subject to the following performance standards and design requirements. Off-Site Cultivation and Infusion Facilities shall be considered Conditional Uses per Section 2.7.B in the CH-10,000 (Commercial Heavy) Zone or in the PC (Planned Community) Zone in areas designated for development subject to CH-10,000 uses and development standards.

Section 3.12.C: Performance Standards

1. Medical Marijuana Dispensaries shall be located in a permanent Building, and may not locate in a trailer, cargo container, or motor vehicle.
2. Medical Marijuana Dispensaries shall have a single secure entrance and shall implement appropriate security measures to deter and prevent the theft of marijuana and unauthorized entrance into areas containing marijuana pursuant to ARS §36-2806(C).
3. Medical Marijuana Dispensaries shall be a maximum of 2,500 gross square feet.
 - a. Medical Marijuana Dispensaries and Cultivation/Infusion Facilities shall not be located within 500 feet of a public or private Preschool, kindergarten, elementary, secondary, or high school, place of worship, or public park existing before the date of application for the Medical Marijuana Dispensary or Cultivation/Infusion Facility. This distance shall be measured in a straight line from the exterior walls of the Building or portion thereof in which the business is conducted or proposed to be conducted to the property line of the protected use.
 - b. Medical Marijuana Dispensaries and Cultivation/Infusion Facilities shall not be located within 500 feet of another Medical Marijuana Dispensary or Cultivation or Infusion Facility. This distance shall be measured in a straight line between the exterior walls of the Buildings or portions thereof in which the businesses are conducted or proposed to be conducted.
 - c. Any Medical Marijuana Dispensaries and Cultivation/Infusion Facilities lawfully operating shall not be rendered in violation of these provisions by the subsequent location of a public or private Preschool, kindergarten, elementary, secondary, or high school, place of worship, or public park.

- d. Retail sales and dispensing of Medical Marijuana and related products is prohibited at Off-Site Medical Marijuana Cultivation and Infusion Facilities.
- e. Operating hours of Medical Marijuana Dispensaries are limited to 8:00 am to 8:00 pm.
- f. Drive-through services are prohibited.
- g. There shall be no emission of dust, fumes, vapors, odors, or hazardous waste into the environment from any facility where Medical Marijuana Cultivation or Infusion occurs.
- h. Marijuana remnants and byproducts shall be secured and properly disposed of and shall not be placed within the facility's exterior refuse containers.
- i. Medical Marijuana Cultivation and Infusion may occur within a Medical Marijuana Dispensary. Otherwise, a Medical Marijuana Dispensary may have one additional location where Cultivation, Infusion, and production of Medical Marijuana products occurs pursuant to ARS §36-2804(B)(1)(b)(ii).

Section 3.12.D: Permits and Administration

- 1. Establishment of a Medical Marijuana Dispensaries and Cultivation/ Infusion Facility shall require issuance of an Administrative Permit in compliance with the provisions of Section 5.1.
- 2. Where Medical Marijuana Dispensaries and Cultivation/Infusion Facilities are classified as a permitted Use, an administrative permit shall be obtained prior to establishment of the Use and in compliance with the provisions of Section 5.1.A. To obtain an administrative permit, an applicant must comply with paragraphs 3-9 of this Section.
- 3. Where Medical Marijuana Cultivation/Infusion Facilities are classified as a Conditional Use, a Conditional Use Permit shall be obtained prior to establishment of the Use per Section 5.7. The standard conditional use permit application procedures and requirements shall be met along with additional requirements contained herein.
- 4. The applicant shall provide the name and location of the Medical Marijuana Dispensary. For an Off-Site Cultivation and/or Infusion Facility, the applicant shall provide the name and location of the dispensary with which it is associated.
- 5. The applicant shall provide a copy of their dispensary registration certificate issued by ADHS pursuant to ARS §36-2804(B) and a copy of the operating procedures adopted pursuant to ARS §36-2804(B)(1)(c) along with a Site plan, floor plan, and security plan.
- 6. If the dispensary and/or cultivation/infusion facility is proposed to be located in an existing Building, the applicant shall obtain a Building Permit for change of occupancy with plans prepared by a professional architect registered in the State of Arizona.

7. A Medical Marijuana Dispensary or Infusion Facility that incorporates Medical Marijuana by means of cooking, blending, or incorporation into consumable/edible goods shall obtain applicable food service permits from the County Health Department.
8. If the measured distance is within 25 feet of the required limits identified in Sections 3.13.C.3 a and b above, a survey sealed by a registered land surveyor may be required, at the discretion of the Director of Community Development and at the applicant's expense, to verify the required separation.
9. Permits may be denied if the applicant, in the reasonable opinion of the Director of Community Development, is failing to comply with any applicable state or local law or regulation.

Section 3.13: Historic and Nonconforming Uses

Section 3.13.A: Purposes

This Section is intended to limit the number and extent of Nonconforming Situations by prohibiting or limiting their enlargement, their reestablishment after abandonment, and the alteration or restoration after destruction. The overall purpose is the gradual elimination of Nonconforming Uses or conversion to conforming Uses in order to further the goals of the Coconino County Comprehensive Plan, special area plans, and this Ordinance.

Section 3.13.B: Applicability

1. Continuation of Nonconforming Situations
 - a. Nonconforming Situations that were lawful when created or established may be continued.
2. Completion of Nonconforming Projects
 - a. Nonconforming Projects which have been approved or permitted before the effective date of this Ordinance or any amendment thereto or of any zoning map change may be completed in accordance with the terms of their permits, so long as these approvals or permits were validly issued and remain unrevoked and unexpired.
 - b. Nonconforming Projects approved by conditional use permit shall be allowed to be completed so long as the Use is commenced or a Building Permit is obtained within one (1) year of approval as per Section 3.13.B to 3.13.D.
 - c. Applicable zoning regulations for a Nonconforming Project are those in place at the time of a Building Permit application or at the time of application for a zone change or conditional use permit.

- d. For projects designed to be completed in stages, construction may be completed according to regulations in effect on the date of approval pursuant to schedules of development approved by the Planning and Zoning Commission or Board of Supervisors.

Section 3.13.C: Performance Standards

1. Nonconforming Lots

- a. Lots that were legally established and in conformance with the Zoning Ordinance when created shall be considered usable.
- b. When the Use proposed for a Nonconforming Lot is one that conforms in all other respects but the applicable Setback requirements cannot be reasonably complied with, the Board of Adjustment may grant Variances from the applicable Setback requirements if it finds that:
 - 1. The property cannot reasonably be developed for the use proposed without such Variance,
 - 2. The Variance is necessitated by the size and shape of the Nonconforming Lot, and
 - 3. The property can be developed as proposed without any significantly adverse impact on surrounding properties or the public health or safety.
- c. For the purpose of Section b above, compliance with applicable Building Setback requirements is not reasonable possible if a Building that serves the minimal needs of the Use proposed for the Nonconforming Lot cannot practicably be constructed and located on the Lot in conformity with such Setback requirements. However, mere financial hardship does not constitute grounds for finding that compliance is not reasonably possible.
- d. This Section only applies to undeveloped Nonconforming Lots. A Lot is undeveloped if it has no substantial Structures on it. A change in Use of a developed Nonconforming Lot may be accomplished in accordance with Section 3.13.D.1 below.

2. Nonconforming Signs

- a. Subject to the remainder of this Section, Nonconforming Signs that were lawful when established may be continued.
- b. No Nonconforming Sign may be enlarged or altered in such a manner as to increase the extent of the nonconformity nor may illumination be added to any Nonconforming Sign.
- c. A Nonconforming Sign may not be moved or replaced except to bring the Sign into complete conformity with this Ordinance.

- d. Restoration of a damaged Sign may be accomplished in accordance with Section 3.13.C.5 below.
 - e. The message of a Nonconforming Sign may be changed so long as this does not create any new nonconformities (for example, by creating an Off-Premise Sign where such Sign would not be allowed).
 - f. Routine maintenance and repairs may be done so long as the cost of such work does not exceed 50 percent of the value of such Sign within any 12-month period.
 - g. If a Nonconforming Sign advertises a business, service, commodity, accommodation, attraction, or other enterprise or activity that has not been offered or conducted for a period of 180 days, that Sign shall be considered abandoned and shall be removed within 30 days after such abandonment. If the business is resumed following the abandonment, all Signs shall conform to this Ordinance.
 - h. If a nonconforming Billboard remains blank for a continuous period of 180 days, that Billboard shall be deemed abandoned and shall be removed within 30 days after such abandonment. For the purpose of this Section, a sign is blank if:
 - 1. It advertises a business, service, commodity, accommodation, attraction, or other enterprise or activity that is no longer operating or being offered or conducted; or
 - 2. The advertising message it displays becomes illegible in whole or substantial part; or
 - 3. The advertising copy paid for by a party other than the Sign owner or promoting an interest other than the rental of the Sign has been removed.
3. Nonconforming Mobile Homes and Mobile Home Parks
- a. Within nonconforming Mobile Home Parks, Mobile Homes may be replaced subject to the following:
 - 1. The total number of spaces in the Mobile Home Park shall not be increased over the number existing at the time the park became nonconforming;
 - 2. There shall be a minimum 10' Front Setback; and
 - 3. There shall be a minimum 10' spacing between Mobile Homes.
 - 4. Setbacks around the perimeter of the park shall not be reduced from those existing at the time the park became nonconforming.
 - b. Expansions of nonconforming Mobile Home Parks may only be accomplished through rezoning to the Mobile Home Park Zone for the proposed expansion area.
 - c. Individual nonconforming Mobile Homes on discrete parcels may only be replaced with the granting of a conditional use permit as described in Section 3.14.D.1 below. Minor

additions or improvements, such as decks, porches, and cabanas with a cost up to 25 percent of the appraised value of the nonconforming Mobile Home, are permitted.

4. Extension or Enlargement of Nonconforming Situations

- a. Except as otherwise specifically allowed in this Section, no increase in the extent of nonconformity of a Nonconforming Situation is permitted. In particular, no Nonconforming Use shall be enlarged or extended in such a way as to occupy any part of the Structure or site or another Structure or site which it did not occupy at the time it became a Nonconforming Use, or in such a way as to displace any conforming Use occupying a Structure or site, except as permitted in this Section.
- b. No Nonconforming Use or Structure shall be enlarged or extended so as to increase the nonconformity with respect to Setbacks, height, density or number of units, distance between Structures, parking or other requirements such as performance standards.
- c. Extension of hours or seasons of use, addition of new Uses, and changes in character of the Nonconforming Use are considered to be extensions and are not permitted.
- d. Pursuant to Arizona Revised Statutes § 11-830, within any zoning district, subject to the granting of a conditional use permit, a nonconforming business Use may expand if such expansion does not exceed one hundred percent of the area of the original business. Such expansions shall be limited to Uses of the same basic nature and character. Expansion shall be limited to the original parcel on which the Use was located at the time it became nonconforming. For Uses within a Structure, the expansion shall be measured by floor area. For business Uses not involving a Structure, for example junk yards, truck yards, or contractors' yards, area shall be strictly construed to mean the square footage or acreage of the Use at the time it became nonconforming.

5. Repair, Maintenance, and Reconstruction

- a. Minor repairs and routine maintenance of property where Nonconforming Situations exist are permitted and encouraged. Major renovation, i.e. work estimated to cost more than 25% of the appraised value of the Structure to be renovated, may only be done with the granting of a conditional use permit. Cost shall mean the fair market value of the materials and services necessary to accomplish the repair or maintenance.
- b. If a Structure located on a parcel where a Nonconforming Situation exists is damaged to an extent of 50% or less of the appraised value of the damaged Structure, then it may be repaired and replaced and the Nonconforming Use may be resumed, provided that restoration is started within one year and diligently pursued to completion. For damaged Nonconforming Signs, restoration must be initiated within three (3) months and completed within six (6) months. If the damage exceeds 50% or the Structure is voluntarily razed or is required by law to be razed, the Structure shall not be restored except in full conformity with the regulations for the zone in which it is located, and the Nonconforming Use shall not be resumed. Structure as used in this paragraph includes

on-premise Signs and Billboards. Nonconforming Structures used for single family residential purposes, if damaged to an extent exceeding 50% may be reconstructed and restored subject to the granting of a conditional use permit.

- c. For the purpose of paragraph B above, the extent of damage shall be based on the ratio of the estimated cost of restoring the Structure to its condition prior to such damage or partial destruction to the estimated cost of duplicating the entire Structure as it existed prior to the damage. Estimates for this purpose shall be reviewed and approved by the Director of Community Development or the Chief Building Official and shall be based on the minimum cost of construction in compliance with adopted building codes.

Section 3.13.D: Permits and Administration

1. Change in Use of Property Where a Nonconforming Situation Exists

- a. A change in Use of property where a Nonconforming Situation exists to a principal Use that is permissible in the zone in which the property is located shall be accomplished in the same manner as establishing the Use on a vacant Lot. Once conformity with this Ordinance is achieved, the property may not revert to its nonconforming status.
- b. If the change is to a permissible Use, but all requirements of this Ordinance, for example property development and performance standards, cannot be met then the change may be allowed subject to the Board of Adjustment granting a Variance for the waivers. In addition to other findings required for a Variance, the Board must find that:
 1. The change will not result in a Violation of Section 3.14.C.4; and
 2. All of the requirements that can reasonably be met will be met. Compliance is not reasonably possible if compliance cannot be achieved without the addition of land or without moving a substantial Structure that is on a permanent foundation. Mere financial hardship related to such requirements as paving a parking lot may not constitute grounds for granting a Variance.
- c. A change from one Nonconforming Use to another principal Use that is also nonconforming may be permissible with the granting of a conditional use permit. The permit may be granted if the findings in Section b above are met and if the proposed development will have less of an impact on the area and will be more compatible with the surrounding neighborhood than the Use in operation at the time the permit is applied for. Applications for a change shall be restricted to the property, i.e. the specific parcel, on which the Nonconforming Use is located.

2. Nonconforming Uses Authorized by Conditional Use Permits

- a. Uses approved by conditional use permit which have become nonconforming because of a Zoning Ordinance text amendment or a zoning map change may continue until the expiration date of the permit. At that time the Planning and Zoning Commission may

grant a use permit for renewal if all of the original conditions of approval have been met, even if the Use is no longer a permitted or conditional use in the zoning district in which the property is located. The Commission may impose reasonable improvements to bring the property into closer conformity or to mitigate the Use.

- b. Whenever a Nonconforming Use has been discontinued, or changed to a conforming Use, for a consecutive period of 180 days, Use of the Structure or Site thereafter shall be in conformity with the regulations for the zone in which the property is located.

Section 3.14: Walls and Fencing

Section 3.14.A: Purpose

Section 3.14.B: Applicability

1. The provisions of this Section shall not apply to a wall or fence required by any law or regulation of the State of Arizona or any agency thereof.

Section 3.14.C: Performance Standards

1. In any required Front or Street Side Setback, an opaque or solid wall or fence shall not exceed three (3) feet in height. Non-opaque fences, which are at least 50% transparent, may be established in any required Front or Street Side Setback to a maximum height of six (6) feet.
2. A wall or solid fence not more than six (6) feet in height, as measured from the highest adjacent Grade, may be maintained along the interior side or rear lot lines provided that such wall or solid fence does not extend into a required Front or Street Side Setback. Stacking firewood along a property line shall be considered a wall or fence and must meet height limits.
3. A wall or fence adjacent to a driveway providing vehicular Access to an Abutting Lot shall not exceed three feet in height within fifteen (15) feet of the intersection of said driveway and the Street Right-of-Way so as not to obstruct visibility.
4. Tires may not be used to construct walls, unless they are fully encapsulated so as to prevent the accumulation of water inside the tires, and subject to the granting of a Building Permit.
5. Industrial Zones allowances

Barbed wire, electrical fences, broken glass or other similar hazardous on top of walls and fences in Industrial Zone may be permitted subject to the approval of the Director of Community Development.

Section 3.14.D: Permits and Administration:

1. Applicable Building, Environmental Quality and Engineering Permits apply. Planning and Zoning review shall be conducted through the issuance of such permits.
2. Walls or fences exceeding six (6) feet in height may be permitted only through the Variance or Administrative Adjustment procedure set forth in Chapter 5 and subject to the granting of a Building Permit.

Section 3.15: Storage and Screening

Section 3.15.A: Purpose

Section 3.15.B: Applicability

Section 3.15.C: Performance Standards

1. Residential

In all Residential Zones, outdoor storage of unlicensed or inoperable vehicles, vehicle parts, auto parts, tires, secondhand building material, pipe, drums, appliances, household furniture, household refuse, unlicensed Travel Trailers or utility trailers, etc., shall be permitted subject to the following conditions:

1. For any Lot or parcel of land, the area permitted for the above described outdoor storage shall be 200 square feet. An additional 100 square feet of outdoor storage per acre for properties larger than one acre, shall be permitted up to a maximum of 2000 square feet.
2. On any Lot or parcel of land, all outdoor storage shall be located to the rear of the property and screened from neighboring properties and roadways by a wall; opaque, rigid fencing; Landscaping; or other Structure. Second-hand materials may not be used for the construction of such screening unless otherwise approved by the Community Development Director. Any wall or fencing shall not exceed six (6) feet in height and shall be subject to the provisions of Section 3.13. Stored secondhand materials, vehicles, vehicle parts, etc., shall not be stacked so as to be visible above the required screening, or more than six (6) feet high. The provisions of this paragraph shall not be construed to restrict the storage of firewood maintained for personal use by the occupant of the premises.
3. All permitted screened outdoor storage areas shall meet the minimum required Building Setbacks as prescribed by this Section.
4. Outdoor storage shall not be permitted on any parcel unless there is a Dwelling on the parcel.

5. Temporary storage of construction materials shall be permitted on any Lot or parcel of land provided such materials are being used in conjunction with a valid construction project on that Lot or parcel.
6. In the MHP Zone, outdoor storage of unlicensed or inoperable vehicles, vehicle parts, auto parts, tires, second-hand Building materials, pipe, drums, appliances, household furniture, household refuse, unlicensed Travel Trailers or utility trailers, etc. shall be subject to the following conditions:
 - i. A maximum area of 200 square feet may be used on any one Lot or Manufactured Home Space for outdoor storage.
 - ii. Such outdoor storage shall be located to the rear of the main Dwelling

2. Commercial

The outdoor storage of any items, including but not limited to items for sale, unlicensed and/or inoperable vehicles, Travel Trailers, boats, Recreational Vehicles, or secondhand materials is prohibited, unless a Conditional Use permit is approved by the Planning and Zoning Commission for said outdoor storage.

3. Industrial

The outdoor storage of any items, including but not limited to items for sale, unlicensed and/or inoperable vehicles, Travel Trailers, boats, Recreational Vehicles, or secondhand materials is prohibited, unless a Conditional Use permit is approved by the Planning and Zoning Commission for said outdoor storage.

4. Special Purpose

Screening and landscaping requirements for a Conditional Use shall be specified in the use permit.

Section 3.15.D: Permits and Administration:

1. Applicable Building, Environmental Quality and Engineering Permits apply. Planning and Zoning review shall be conducted through the issuance of such permits
2. Establishment of Storage and Screening requirements through the issuance of a Conditional Use Permit shall be in compliance with the provisions of Section 5.7.

Section 3.16: Amateur (HAM) Radio Towers

Section 3.16.A: Purpose

Section 3.16.B: Applicability

Amateur (HAM) Radio Towers shall be permitted for the personal use of the property owner/resident in Residential Zones and subject to the following Performance Standards:

Section 3.16.C: Performance Standards

1. Towers shall not project more than 65 feet above Grade; establishment of towers above this limit but less than 100 feet in height may be permitted only through the Variance procedure set forth in Section 5.8. The height of extension antennas shall be determined in their cranked-down position and shall remain in said position except during use.
2. Towers shall meet the minimum Setback requirements for the zone in which they are located; no portion of any antenna array shall extend beyond the property lines.

Section 3.16.D: Permits and Administration

It shall be the responsibility of the property owner to demonstrate that the site is adequate in size to contain debris resulting from tower failure and that such failure will not present a safety hazard to adjoining properties.

Section 4.1: Parking

Section 4.1.A: Purposes

In order to alleviate or to prevent traffic congestion and shortage of curb spaces, off-street parking facilities shall be provided incidental to new Uses and major alterations and enlargements of existing Uses. The number of Parking Spaces prescribed in this Section, shall be in proportion to the need for such facilities created by the particular type of Use. Off-street parking is to be laid out in a manner that will ensure its usefulness, protect the public safety, and, where appropriate, insulate surrounding land Uses from its impact.

Section 4.1.B: Applicability

1. Off-street parking shall be provided for any new Building constructed and for any new Use established; for any addition or enlargement of an existing Building or Use; and for any change in the occupancy of any Building or the manner in which any Use is conducted that would result in additional Parking Spaces being required, subject to the provisions of this Article.
2. No existing Use of land or Structure shall be deemed to be nonconforming solely because of the lack of off-street parking facilities prescribed in this Section, provided that facilities being used for off-street parking on the effective date of this Ordinance shall not be reduced in capacity to less than the minimum standards prescribed in this Article.
3. For additions or enlargements of existing Buildings or Uses, or any change of occupancy or manner of operation that would increase the number of Parking Spaces required, the additional parking shall be required only for such addition, enlargement, or change and not for the entire Building or Use, provided that no additional parking shall be required where the total number of spaces prescribed for the addition, enlargement, or change is less than 10 percent of the number of spaces prescribed for the use as conducted prior to such addition, enlargement or change.
4. Parking required by this Section for any Building or Use shall not be considered as providing parking for any other Building or Use, except where a joint parking facility serves more than one Building or Use or where the Planning and Zoning Commission determines that overlapping parking requirements will not conflict with each other.
5. All off-street Parking Spaces and Areas required by this Section shall be maintained for the duration of the Use requiring such areas. Required Parking Spaces and Areas shall not be used for the sale, display or repair of motor vehicles or other goods and services.
6. No Use shall be required to provide more spaces than prescribed by this Section or prescribed by any conditional use permit.

Section 4.1.C: Performance Standards

1. General

- a. In the CN Zone, off-street parking for a shopping center shall be provided on the same Site at a ratio of 5 spaces for each 1,000 square feet of gross floor area.
- b. In all residential zones, for residential uses, off-street parking shall be provided in accordance with Section 2.1.D.a.11 for G, AR and RR Zones; Section 2.2.C.2.12 for Single Family Residential Zones; and Section 2.3.C 11 and 12 for Multi-family Residential Zones.
- c. In all other zones and for all other Uses, off-street parking shall be provided in accordance with the standards prescribed in Section 4.1.C.2. The requirement for any Use not specifically listed shall be determined by the Director of Community Development on the basis of the requirement for similar Uses.
- d. Where the application of the off-street parking requirements result in a fractional number of spaces, a fraction of one-half or greater shall be resolved to the next higher whole number.
- e. All required off-street Parking Spaces shall be located on the same Lot as the Use to be served unless a joint parking facility or parking district is established and approved by the Planning and Zoning Commission.

- d. All required landscaped areas shall be provided with a permanent and adequate means of irrigation and shall be adequately maintained.
- e. All off-street Parking Areas, except for single family Dwellings, shall be constructed and maintained to provide the following:
 1. Grading, drainage, and a minimum of two inches of asphaltic concrete paving over a four inch aggregate base or other acceptable paving design prepared by a registered professional engineer to the specifications of the County Engineer unless a paving

- waiver is approved by the Planning and Zoning Commission or a Variance is granted by the Board of Adjustment.
2. Internal spacing, circulation, and dimensions as indicated on the sample parking lot plan.
 3. Bumpers, wheel stops, stall markings and other vehicular controls to the specifications of the Director of Community Development.
 4. Where provided, parking lot lighting shall meet the requirements of Section 4.3: Lighting.
 5. Drainage shall be provided to the specifications of the County Engineer.
 6. Parking lot turn-outs shall be a minimum of 100 feet from the nearest street intersection.
- f. Parking Area design dimensions shall be as follows: (See sample parking lot plan.)
1. In the event practical difficulties and hardships result from the strict enforcement of the following standards due to existing permanent Buildings or an irregularly shaped parcel, an administrative Variance by the Director of Community Development may be given for Standards Nos. 1 through 4 inclusive, not to exceed ten (10) percent.
 2. The number in the left-hand column of the following listing refers to the numbers on the attached sample parking lot plot plan.

1.	30° 45°	60°	90°
2.	16' 17'	18'	18'
3.	14' 16'	19'	24'
4.	46' 50'	55'	60'
 5. 14' for one-way traffic; 24' for two-way traffic (two-way aisles shall be permitted only on 90 degree parking designs).
 6. Islands shall have a maximum length of 180 feet.
 7. Islands shall have a minimum width of 5 feet. The minimum average width of islands at the extremities of 90 degree parking islands shall be 5 feet.
 8. Curbs shall be installed at a minimum of 5 feet from walls, fences, Buildings or other Structures. This requirement excepts driveways that are not a part of the maneuvering area for parking. A curb shall be installed a minimum of three feet (3') from the edge of driveways that are parallel to block walls or fences.

9. Curb radius shall be 3-foot minimum.
 10. Driveway widths shall be 24 feet minimum and constructed to County standards.
 11. First Parking Space shall be 10 feet minimum distance from Front and Street Side Property Lines.
 12. Walk openings four feet (4') wide shall be permitted in the island every 5 spaces.
 13. All parallel parking stalls shall be a minimum of 8 x 24 feet.
- g. Where off-street parking facilities are provided but not required by Section 4.1, such facilities shall comply with the development standards of this Section.
 - h. Loading spaces shall be provided to the specifications of the Director of Community Development.
 - i. Parking for the handicapped shall be provided in accordance with the requirements of all applicable laws.
 - j. At the discretion of the Planning and Zoning Commission, designated bus parking may be required for Uses subject to tour bus traffic. Where required, minimum dimensions for bus parking spaces shall be 12 x 42 feet for angle parking and 10 x 48 feet for parallel parking.
 - k. At the discretion of the Planning and Zoning Commission, off-street parking facilities providing more than forty (40) parking spaces may contain an on-site traffic circulation and parking plan to accommodate both full-size and compact car spaces. Said optional parking plans shall meet the following criteria:
 1. Not more than 40% of the total number of parking spaces shall be designed for compact and sub-compact vehicles.
 2. Compact spaces must be designed for 90 degree parking and located opposite a 45 degree or 30 degree full-sized aisle and parking stall.
 3. Compact car parking spaces shall measure at least 8 feet by 15 feet in size.

Section 4.1.D: Permits and Administration

Applicable Building, Environmental Quality and Engineering Permits apply. Planning and Zoning review shall be conducted through the issuance of such permits.

Section 4.2: Signs

Section 4.2.A: Purpose

1. The location, height, size, and illumination of Signs are regulated in order to maintain the attractiveness and environmental qualities of the County; to protect business sites from loss of prominence resulting from excessive Signs on nearby sites; and, to protect the public safety and welfare.

Section 4.2.B: Applicability

1. Exempt Signs

The following Signs shall be exempt from the provisions of this Section:

1. Official notices authorized by a court, public body, or public safety official.
2. Directional, warning or information Signs authorized by federal, state or municipal authority.
3. Memorial plaques and Building cornerstones when cut or carved into a masonry surface or when made of incombustible material and made an integral part of the Building or Structure.
4. Commemorative symbols, plaques and historical tablets.
5. Political Signs; provided, however, that such Signs shall be displayed no more than sixty (60) calendar days prior to the election to which they refer, and shall be removed within three (3) calendar days following the date of the election to which they refer. Signs shall not exceed sixteen (16) square feet in residentially zoned areas or a maximum of thirty-two (32) square feet in all other areas.

2. Prohibited Signs

The following special purpose signs shall be prohibited:

1. Billboards
 - i. Billboards and off-premise Signs shall not be permitted in any zone. All existing Billboards and off-premise Signs are Nonconforming Uses subject to the provisions of Section 3.14 of this Ordinance.
 - ii. If any Billboard contains copy advertising a Use, business or product no longer in existence, or is left blank, or is maintained without paid copy for a period of 180 days or more, such Billboard shall be removed immediately unless a conditional use permit is approved for its reuse.

2. Portable Signs

Portable and sandwich board Signs are prohibited. Temporary real estate “open house” Signs shall be exempt.

3. Vehicle Signs

Signs painted on or attached to vehicles parked on public or private premises that are displayed in view of vehicular or pedestrian traffic for a period in excess of twenty-four (24) hours shall be prohibited.

Section 4.2.C: Performance Standards

1. All Signs

- a. All Sign illumination shall be from the interior or from top mounted, downward directed flood light projection. Signs may not be illuminated between the hours of 9:00 PM and sunrise, unless the Use they advertise is open to the public during those hours. If illumination is provided, all lights must be installed and used in conformance with Section 4.3, Lighting of this Ordinance.
- b. No Sign shall rotate or simulate movement by means of fluttering, spinning or reflective devices.
- c. No Sign may encroach upon or overhang any adjacent property or any public Right-of-Way. No Sign shall be attached to any utility pole, light standard, tree or any other public facility. No Sign may be placed in any public Right-of-Way or Easement.
- d. Canopy Signs shall not project above the canopy; Signs attached to a Building shall not project above the eave line except as approved by the Planning and Zoning Commission.
- e. The square footage of a Sign made up of letters, words, or symbols within a frame shall be determined from the outside edge of the frame itself. The square footage of a Sign composed of only letters, words, or symbols shall be determined from imaginary straight lines drawn around the entire copy or grouping of such letters, words, or symbols. Only those portions of the construction elements that are an integral part of the Sign itself shall be considered in the allocation of square footage allowed.
- f. All Signs shall be structurally safe and shall be maintained in good condition in the opinion of the Director of Community Development and the Chief Building Official. Furthermore, it shall be the responsibility of the owner of the land and/ or improvements to remove any Sign or Signs on premises where the use has been discontinued for a period of ninety (90) days.
- g. All Signs, together with all of their supports, braces, guys and anchors shall be kept in good condition. The display surfaces of all Signs shall be kept neatly painted or posted at all times. Also, all weeds shall be removed periodically as necessary. The Community

Development Director may order the removal of any sign not in conformance with the provisions of this Section.

- h. No cloth, paper, plastic or similar Advertising Signs or Devices other than in rigid frames as provided herein shall be permitted.
- i. For retail commercial Uses in any zone where such Uses are listed as permitted or conditional Uses, Window Signs may be permitted. Signage exceeding 25% of the window area is prohibited. Window Signs above the ground floor shall be considered equivalent to a wall Sign and shall be included in the overall signage calculation.

SIGN GRAPHIC

- j. No roof Signs shall be permitted. However, where no Building Setback is provided, roof Signs may be permitted subject to the approval of the Planning and Zoning Commission.
- k. Projecting Signs shall not extend out more than thirty-two (32) inches from the wall to which they are attached, and shall not exceed ten (10) square feet in area. A minimum of eight (8) feet of clearance between the ground and the bottom edge of the Sign shall be provided.
- l. No person shall exhibit, post or display upon any Sign or wall any statement, symbol or picture of an obscene nature.
- m. No person, firm or corporation shall erect, construct, enlarge, modify or relocate any Sign in the County without first obtaining a Building Permit, as applicable, for each such Sign. Where said Sign is electrical or illuminated by electricity, a separate electrical permit shall be obtained.
- n. Signs shall not blink, flash, or be animated by lighting in any fashion. Electronic reader board copy shall not be changed more than once in 24 hours.
- o. The operation of searchlights or similar lighting sources for advertising, display or any other commercial purpose is prohibited.
- p. No Sign shall be located in such a manner as to obstruct or otherwise interfere with an official traffic Sign, signal, or device or obstruct or interfere with a driver's view of approaching, merging or intersecting traffic. A clear sight triangle shall be maintained at all street intersections and driveway entrances. Such clear sight triangle shall be determined by measuring twenty-five (25) feet along each property line at Street intersections, and along the property line and the driveway for driveway entrances. Signs that are to be located in such clear sight triangle shall not exceed three feet in height.
- q. Signs that are placed on gasoline pumps or on spanners above gasoline pumps that do not exceed one quarter (1/4) square foot in area shall not be counted toward the maximum number of wall Signs allowed for each Use. One such Sign may be placed on each side of a gasoline pump or spanner. If such Signs exceed one quarter (1/4) square foot in area

they shall be considered wall Signs and will be counted toward the maximum number of wall Signs allowed for each Use.

2. Special Purpose Signs

The following special purpose Signs shall be permitted:

All sale and rental Signs shall be removed within thirty (30) days from the date of sale.
 - ii. Open house Signs. Open house Signs shall be limited to four (4) square feet and shall not exceed three (3) feet in height. They shall be limited to no more than two days per week for any given property. One on-site and no more than three Off-Premise Signs are permitted. The Signs shall be placed no more than 30 minutes prior to the beginning of the open house and shall be removed within 30 minutes of the end of the open house. Off-Premise Signs placed in public Rights-of-Way or Easements shall be placed such that they do not obstruct traffic or visibility at the intersection. They shall not obstruct multi-purpose paths or sidewalks. When placed on private Easements, they shall be placed with the property owner's permission.
 - iii. Construction Signs. On the Site of a property actively under construction, one unlighted Sign not exceeding twenty (20) square feet in area and six (6) feet in height in a residential zone or forty (40) square feet in area and eight (8) feet in height in a commercial or industrial zone to identify each contractor, architect or engineer engaged in the project. Said Signs shall be removed within five (5) days after the issuance of a certificate of occupancy by the Chief Building Inspector.
 - iv. Directional Subdivision Signs. In any zone, unlighted Signs advertising Subdivisions containing only the name of the Subdivision, the name of the developer and/or agent, an identification emblem and directional message shall be permitted, provided:
 - a. There shall be no more than three such Signs for each Subdivision;

- b. The total area of all Signs shall not exceed thirty (30) square feet;
 - c. The total height of each Sign shall not exceed eight (8) feet;
 - d. Directional subdivision Signs may be displayed during the two years following the date of recordation of the final plat for the Subdivision, or until one hundred percent (100%) of the Lots have been sold, whichever occurs first.
 - e. Directional Subdivision Signs may be located outside the boundaries of the Subdivision, but no further than the closest intersection of a public Street.
- v. Temporary on-site Subdivision Signs shall be permitted provided there shall be no more than one hundred (100) square feet of total Sign area for each Subdivision and a total of five (5) Signs. Freestanding Signs shall not exceed fifteen (15) feet in height in a commercial Subdivision and eight (8) feet in height in a residential Subdivision. Such on-site Signs shall be permitted to remain for two (2) years from the date the required Sign permit is issued. An extension beyond the two (2) year limitation may be granted for a one (1) year period subject to the approval of the Planning and Zoning Commission. However, if a conditional use permit is approved for a sales office, any temporary on-site Subdivision signs may remain for the term of the conditional use permit.
- vi. Subdivision entrance Signs. At the major Street entrance(s) to a Subdivision or development, not more than two (2) signs, each not exceeding twenty (20) square feet in area per Sign, shall be permitted. Such Signs shall be attached to and shall not extend above a wall or fence, and shall indicate only the name and/or the address of the Subdivision or development. Design, color scheme and height of entrance Signs are subject to the approval of the Director of Community Development. Such Signs shall be constructed of materials and shall be affixed to the wall or fence in such a manner as to render them not readily susceptible to vandalism.
- vii. Office Buildings and shopping centers and industrial Subdivisions may display leasing and rental Signs for a period of one year following final construction inspection. These Signs shall be limited to one freestanding Sign and two Building-mounted Signs not to exceed a total of one hundred fifty (150) square feet in area. Freestanding Signs shall not exceed eight (8) feet in height.

3. Special Sale Signs

For retail commercial Uses in any zone where such Uses are listed as permitted or conditional uses, special sale Signs may be permitted while a special sale of goods or services is being conducted. Signs attached to the Building or to an existing

freestanding Sign shall be in rigid frames, and the display of the Signs shall be limited to fourteen (14) days per calendar quarter. The size of special sale Signs shall not exceed one hundred per cent (100%) of total square footage of any permanent on premise Signs that advertise the commercial Use.

4. Other Special Signs

Flags, emblems, insignias and posters of any nation, state, international organization, political subdivision or other governmental agency; unlighted non-verbal religious symbols attached to a place of religious worship; and, temporary displays of a patriotic, religious, charitable, or civic character shall be exempt from the provisions of this Section; however, if the height exceeds thirty (30) feet, such Signs shall be subject to the approval of the Director of Community Development. The preceding shall not be construed as to permit the use of such flags, insignias, etc. for the purpose of advertising or identifying a product or business.

3. Signs in General, Agricultural Residential, and Rural Residential Zones

Except as prescribed in Section 4.2.C.2, Special Purpose Signs, only the following signs shall be permitted in a General, Agricultural Residential, or Rural Residential Zone:

2. Conditional Uses. Signs identifying Uses permitted subject to the granting of a Conditional Use permit shall be as specified in the approved use permit.

Section 4.2.D: Permits and Administration

1. Cash Deposit on Certain Signs

Directional Subdivision Signs. Applications for permits for directional Subdivision Signs shall be accompanied by a cash deposit of \$250.00 for each Sign which shall be posted with the Finance Department. Such \$250.00 cash deposit shall be used to defray the costs of Sign removal by the County in the event the permit holder defaults upon the agreement to remove same. Before any permit for any such Sign is issued, the applicant and the record owner(s) of the property shall furnish the Department of Community Development written authority granting the County permission to enter upon the premises to remove such Sign.

2. Elimination of Nonconforming Signs

The elimination of nonconforming Signs shall be as prescribed in Section 3.14.C.2, Nonconforming Signs.

3. Sign Permit Requirements

- a. The following Signs shall not require a Sign permit: Real Estate For Sale, Rental and Open House Signs (see Section 4.2.C.2.2 i and ii), residential name plates (see Section 4.2.C.3.1.i) and residential construction Signs (see Section 4.2.C.2.2.iii). A Sign permit shall be obtained for all other Signs including new construction, modifications, replacements and Sign face changes prior to their installation.
- b. The following information shall be submitted when applying for a Sign permit in addition to the requirements of Section 5.1.A, Administrative Permits.
 1. Provide specific signage information (sketch or photographs) indicating color scheme, lettering or graphic style, lighting and material for each proposed or existing Sign.
 2. All open zoning Violations shall be addressed prior to the acceptance of a complete Sign permit application.

3. All required Design Review Overlay, Conditional Use Permit, Variance, and other permits and licensing as necessary shall be obtained prior to the acceptance of a complete Sign permit application.

Section 4.3: Lighting

Section 4.3.A: Purposes

1. It is hereby found that the topography, and atmospheric conditions and of Coconino County, Arizona, are uniquely suited for astronomical observation, that a substantial investment has been made in observatories in the County, and that the use of certain types of outdoor lights and certain outdoor lighting practices have an adverse impact on astronomical observation. It is further recognized that naturally dark landscapes and star-filled skies are valued by many, and that poor lighting practices in outdoor lighting waste energy, hamper the reasonable use and enjoyment of property and can endanger the public welfare by producing unnecessary glare.
2. Accordingly, it is the intent of this Ordinance to encourage lighting practices and systems which will minimize light pollution, light trespass, and conserve energy while maintaining night-time safety, utility, security and productivity. Since not all areas in the County are near established observatories, four Lighting Zones are established, allowing increased flexibility in the uses of outdoor lighting further from the observatories.
3. There may be other areas that are worthy of designation where protection of the night sky is deemed to be highly important, and where the establishment of more restrictive Lighting Zones is desired.

Section 4.3.B: Applicability

1. In the event of conflict between the regulations set forth in this Ordinance and any other regulations applicable to the same area, the more stringent limitation and requirement shall govern.
 - a. Airports: Airport navigation lighting systems are exempt from the provisions of this Ordinance. All other lighting at airports, including that used for loading areas, hangars, terminal aprons, parking areas, etc., shall conform to all applicable standards of this Ordinance.
 - b. Holiday Decorations: Low-wattage holiday decorations are exempt from the provisions of this Ordinances from 15 November through 15 January. Such lighting and all associated wiring used outdoors must be certified for outdoor use by Underwriters Laboratories.

Section 4.3.C: Performance Standards

1. Approved Materials and Methods of Construction or Installation/Operation
 - a. The provisions of this Ordinance are not intended to prevent the use of any design, material or method of installation or operation not specifically prescribed by this code, provided any such alternate has been approved by the Community Development Director. The Community Development Director may approve any such proposed alternate provided he/she finds that it:
 1. Provides at least approximate equivalence to the applicable specific requirements of this Ordinance; and
 2. Is otherwise satisfactory and complies with the intent of this Ordinance.
2. Lighting Zones. Different areas, with different developed and natural conditions, and different distances from astronomical observatories, have differing levels of appropriate light usage, and different sensitivities to the various obtrusive aspects of outdoor light usage. Because of this, three Lighting Zones are hereby defined and established. These Zones are shown on the Lighting Zone Maps that are attached hereto as Map 1a and Map 1b and by this reference made a part hereof. In general, these Zones are described as follows:
 1. Zone I: all areas within Coconino County located within two and a half (2.5) miles within the following locations:
 - i. The Hall telescope at Lowell Observatory on Anderson Mesa
 - ii. The Kaj Strand telescope at the U.S. Naval Observatory
 - iii. Roden Crater
 - iv. The Discovery Channel Telescope
 2. Zone II: all areas within Coconino County more than two and a half (2.5) miles, yet less than seven (7) miles of the locations listed in 4.3.C.2.1 above.
 3. Zone III: all other areas within Coconino County.
 4. Split Parcels: A parcel located in more than one of the described Lighting Zones shall be considered to be only in the more restrictive Lighting Zone.
3. Preferred Source and Zone I Use Preference
 - a. Preferred Source: Low-Pressure Sodium (LPS) lamps are the preferred illumination source throughout the County; their use is to be encouraged, when not required, for outdoor illumination whenever its use would not be detrimental to the use of the property.

- b. Day/Night Uses: Uses which can turn off their outdoor lighting during night hours are to be encouraged in Lighting Zone I; those which require all night illumination are to be discouraged.

4. General Requirements, all Zones.

- a. Upward-directed Floodlighting: Outdoor floodlighting by flood light projections above the horizontal plane is prohibited.
- b. The requirements for lamp source and shielding of light emissions for Outdoor Light Fixtures are as follows:

Use Code:

- i. A = allowed
- ii. F = fully shielded, allowed
- iii. X = prohibited

TABLE 4.3.1: LAMP TYPE AND SHIELDING STANDARDS

LAMP TYPE	ZONE I	ZONE II	ZONE III
Class 1 Lighting:			
Low-Pressure Sodium	F	F	F
Others above 2500 Lumens (1)	X	F	F
Others below 2500 Lumens (1)	F	F	A(1,2)
Class 2 Lighting:			
Low-Pressure Sodium	F	F	F
Others above 2500 Lumens (1)	X	X	X
Others below 2500 Lumens (1)	F	F	A(1,2)
Class 3 Lighting:			
Low-Pressure Sodium	F	F	F
Others above 2500 Lumens (1)	X	X	F
Others below 2500 Lumens (1)	F	A(1,2)	A(1,2)
Residential Lighting (all classes):			
All types over 1000 Lumens (1)	F	F	F
All types below 1000 Lumens (1)	F	A(1,3)	A(1,3)

Note 1. Lights shall be shielded whenever feasible to minimize light spilled into the night sky or adjacent properties.

Note 2. Unshielded lighting is limited to a total of 3,000 Lumens per Acre on non-residential and multi-family residential lands Uses; 2,000 Lumens per residence on single-family residential properties.

Note 3. For single-family residential Uses, unshielded fixtures up to 2,000 Lumens output per lamp and a total of 8,000 Lumens per residence are permitted if used in functioning motion-sensing fixtures that remain on for short periods only.

- c. Total Outdoor Light Output, excluding streetlights used to illuminate public Rights-of-Way, shall not exceed the following limits averaged over the entire project (values listed are total initial lamp Lumens per Acre and per residence):

TABLE 4.3.2: MAXIMUM TOTAL OUTDOOR LIGHT OUTPUT STANDARDS (VALUES LISTED ARE LUMENS PER ACRE AND LUMENS PER RESIDENCE)

Land Use	Lighting Zone		
	I	II	III
Commercial, Industrial, and Multifamily (Lumens per Acre)			
total (shielded + unshielded)	25,000	50,000	100,000
unshielded only	0	3,000	3,000
Non-LPS	2,500	50,000	100,000
Single-family Residential (Lumens per residence)			
total (shielded + unshielded)	10,000	30,000	30,000
unshielded only	0	2,000	2,000

Note 1. Fixtures installed such that all parts of the fixture are located underneath and at least five (5) feet from the nearest edge of a Building overhang, roof eave, or balcony are to be included in the Total Outdoor Light Output as though they produced only on-quarter of the lamp's rated Lumen output.

- d. Effective Shielding: All light fixtures which are required to be shielded shall be installed in such a manner that the shielding is effective as defined in Section 6 under Fully Shielded Fixture and Partially Shielded Fixture.
- e. Direct Lighting on Site: All fixtures, except streetlamps, shall be aimed or shielded so that the direct illumination shall be confined to the property boundaries of the source as much as is feasible.
- f. Direct lighting off Roadways: All fixtures, except streetlamps, shall be installed in such a manner that the direct illumination does not fall onto any public or private Street or Road as much as is feasible.
- g. Curfews: Class 1 and Class 3 lighting must be extinguished at the curfew times listed, or no later than 30 minutes after the business closes, whichever is later:

TABLE 4.3.3 LIGHTING CURFEWS (SPORTS, CLASS 1, CLASS 3, SIGNS)

Lighting Zone		
I	II	III
9:00pm	10:00pm	11:00pm

- h. High-Intensity Lights: Search lights, laser source lights, or any similar high-intensity light shall not be permitted, except in emergencies by police and fire personnel or at their direction.
- i. Mercury Vapor Sales: The installation, sale, offering for sale, lease or purchase of any mercury vapor light fixture or lamp for use as outdoor lighting is prohibited, except that until 1 January 2006, the provisions of this Subsection shall not apply to any replacement lamp.

5. Special Requirements, Outdoor Advertising Signs

- a. Externally Illuminated Sign Standards: External illumination for Signs shall conform to all provisions of this Ordinance. In particular, such lighting shall be treated as Class 1 lighting and shall conform to the lamp source, shielding restrictions and Lumen caps of Section 4.3. All upward-directed Sign lighting is prohibited.
- b. Internally Illuminated Sign and Neon Sign Standards: Illumination of Copy and Background; Colors: Outdoor internally-illuminated advertising Signs must be constructed as follows:
 - i. In Lighting Zone I: The Sign face(s) must be composed of illuminated text and symbols against an opaque (unilluminated) background. The colors of these elements are not restricted.
 - ii. In Lighting Zones II and III: the Sign face(s) must be either composed of illuminated text and symbols against an opaque background or with generally LIGHTER text and symbols against a colored (note white, off-white, light gray, cream or yellow) background.
- c. Exclusion of Lamp Outputs: Lamps used for internal illumination of Signs shall not be counted toward the Lumen cap in Section 4.3.
- d. Neon Signs: Neon Signs shall be treated as internally illuminated Signs for the purpose of this Code, and shall not have their luminous outputs counted toward the Lumen caps of Section 4.3. Neon lighting extending beyond the area considered to be the Sign area (as defined in Sign Code of this jurisdiction) shall conform to all provisions of this Code. In particular, such lighting shall be treated as Class 3

- (decorative) lighting and shall conform to the Lumen caps and shielding standards of Section 4.3.
- e. Non-Sign Lighting: Other internally-illuminated panels or decorations not considered to be signage according to the Sign code of this jurisdiction (such as illuminated canopy margins or Building faces), shall be considered decorative (Class 3) lighting, and shall be subject to the standards applicable for such lighting, including but not limited to the lamp source, shielding standards and Lumens per Acre caps of Section 4.3.C.
 - f. Curfews: Illumination for all advertising Signs, both externally and internally illuminated, shall be turned off no later than the curfew times listed in Table 4.3.3 or when the business closes, whichever is later. Signs subject to curfews are required to have functioning and properly adjusted automatic shut-off timers.
 - g. Curfews for Pre-Existing Signs: Light background (white, off-white, light gray, cream or yellow) internally illuminated Signs, installed legally before enactment of this code [December 18, 2001], may continue to be used and illuminated but must conform to the curfews of Section 4.3.C.4.g and Table 4.3.3.
6. Special Requirements, Special Uses
- a. Service Station Canopies:
 - i. Lighting Class: Lighting for service station canopies shall be considered Class 1 lighting.
 - ii. Shielding: All Luminaires mounted on or recessed into the lower surface of service station canopies shall be fully shielded and utilize flat lenses.
 - iii. Total Under-Canopy Output: The total light output used for illuminating service station canopies, defined as the sum of all under-canopy initial bare-lamp outputs in Lumens, shall not exceed sixty (60) Lumens per square foot of canopy in Lighting Zone II and III, and shall not exceed twenty (20) Lumens per square foot in Lighting Zone I (note: these values are not footcandle illuminances). All lighting mounted under the canopy, including but not limited to Luminaires mounted on the lower surface or recessed into the lower surface of the canopy and any lighting within signage or illuminated panels over the pumps, is to be included toward the total at full initial Lumen output.
 - iv. Inclusion Toward Total Outdoor Light Output: The Lumen output of lamps mounted on or within the lower surface of a canopy is also included toward the lumen caps in Table 4.3.2 as follows:
 - 1. Fixtures installed such that any part of the fixture is five (5) feet or less from the nearest edge of the canopy are to be included in the Total

Outdoor Light Output by simply adding the Lumen outputs of the lamps used;

2. Fixtures installed such that all parts of the fixture are located at least five (5) feet but less than ten (10) feet from the nearest edge of the canopy are to be included in the total outdoor light output as though they produced only one-quarter of the lamp's rated lumen output;
3. Fixtures installed such that all parts of the fixture are located ten (10) or more feet from the nearest edge of a canopy are to be included in the Total Outdoor Light Output as though they produced only one-tenth of the lamp's rated lumen output.

b. Outdoor Recreational Facilities:

1. Lighting Class: Lighting for Outdoor Recreational Facilities shall be considered Class 1.
2. Lumen Cap Exemption: Lighting for Outdoor Recreational Facilities areas only is not subject to the Lumens per Acre limit set in Subsection 4.3.C.d and Table 4.3.1.
3. Shielding: Fixtures used for field/track/arena Facilities areas must be fully shielded.
4. Curfew: No such facility shall be illuminated after the curfew times listed here except to conclude a scheduled recreational or sporting event in progress prior to the curfew, and prevented from concluding before the curfew by unforeseeable circumstances.

Section 4.3.D: Permits and Administration

1. Temporary Lighting Permits

- a. Findings: The Community Development Director may grant a permit for temporary lighting if he/she finds the following:
 1. The purpose for which the lighting is proposed is not intended to extend beyond thirty (30) days; and
 2. The proposed lighting is designed in such a manner as to minimize light pollution as much as is feasible; and
 3. The proposed lighting will comply with the general intent of this Ordinance; and
 4. The permit will be in the public interest.
- b. Application Contents: The application for the Temporary Lighting Permit shall include the following information:

1. Name and address of applicant and property owner;
 2. Location of proposed fixtures;
 3. Type, wattage and lumen output of lamp(s);
 4. Type, shielding and use of proposed fixtures;
 5. Intended use of the lighting;
 6. Duration of time for requested exemption;
 7. The nature of the exemption;
 8. Such other information as the Community Development Director may request.
- c. The Community Development Director shall endeavor to rule on the application within five (5) business days from the date of submission of the request and notify the applicant in writing of his/her decision. The Community Development Director may grant one (1) renewal of the permit for an additional thirty (30) days if he/she finds that, because of an unanticipated change in circumstances, a renewal would be in the public interest. The Community Development Director is not authorized to grant more than one temporary permit and one renewal for the same property within one calendar year. A denial by the Director may be appealed to the Planning and Zoning Commission within 30 days.
2. Nonconforming Uses
- a. Mercury Vapor: Mercury vapor lamps in use for outdoor lighting on the effective date of this Ordinance shall not be so used after 1 May 2006.
 - b. Bottom-mounted Sign Lighting: Bottom-mounted outdoor advertising Sign lighting shall not be used in Zones I, II and III after 1 May 1996.
 - c. Pre-existing Non-conforming Lighting: No Outdoor Lighting Fixture which was lawfully installed prior to the enactment of this Ordinance shall be required to be removed or modified except as expressly provided herein; however, no modification or replacement shall be made to a nonconforming fixture unless the fixture thereafter conforms to the provisions of this ordinance.
 - d. Conformance after Abandonment/Damage: In the event that an Outdoor Lighting Fixture is abandoned or is damaged to the point of requiring repairs for safe operation, the repaired or replacement fixtures shall comply with the provisions of this Ordinance.
3. Variances. Any person desiring to install an Outdoor Lighting Fixture in Violation of this Ordinance may apply to the Board of Adjustment for a Variance from the regulation in question per Section 5.8. Such Variances shall be allowed where a literal application or enforcement of the regulations would result in practical difficulty or unnecessary hardship and the relief granted would not be contrary to the public interest but do substantial justice

and be in accordance with the spirit of the regulations and this Ordinance. Provided, that any Variance may be allowed subject to any reasonable conditions that the Board may deem necessary to effectuate the purpose of this chapter.

4. Lighting Permit Requirements

a. Non-Single Family Residential Lighting:

1. Whenever a person plans to install outdoor lighting, Lighting Permit must be applied for and granted. The applicant shall, as a part of said application, submit sufficient information to enable the Community Development Director to determine whether the proposed lighting will comply with this Ordinance.
2. The following information shall be submitted when applying for a Lighting Permit in addition to the requirements of Section 5.1.A, Administrative Permits.
 - i. A description of each illuminating device, fixture, lamp, support and shield. This description may include, but is not limited to, manufacturer's catalog cuts and drawings (including sections where required), lamp types and lumen outputs. For existing lighting, photographs of the fixtures will be accepted if original manufacturer's information is not available.
 - ii. A separate Building Permit application shall be submitted for new lighting construction and electrical installation. Required Building Permits shall be obtained prior to the installation of lighting.

b. Single Family Residential Lighting:

When lighting on single family residential sites is a condition of approval the above permit process is to be applied and compliance with the Zoning Ordinance verified before issuance of the Certificate of Occupancy.

Section 4.4: Landscaping

Section 4.4.A: Purposes

The purpose of this Section is to establish Landscaping standards and guidelines in order to maintain and enhance the environmental qualities of the County; to mitigate the impacts of adjacent Uses; and to enhance the quality and appearance of new or existing development in the County. By requiring adequate and environmentally compatible Landscaping, the visual quality of the environment will be enhanced, and other environmental qualities will be improved by promoting conservation of water used for Landscaping, addressing wildfire safety concerns, providing erosion and storm water runoff control, providing control of Noxious Weeds and invasive plants, requiring native and/or drought tolerant plants, and encouraging the preservation of existing trees and vegetation.

Section 4.4.B: Applicability

Conflicting Regulations

In the event of conflict between the regulations set forth in this Section and any other regulations applicable to the same area, the more stringent requirement shall govern.

Section 4.4.C: Performance Standards

1. All Landscaped Areas shall be permanently maintained in a neat and orderly manner and all plants shall be maintained in a healthy, living condition. Dead plants, weeds, and non-plant materials must be removed and replaced as necessary.
2. All Landscaped Areas shall be provided with a permanent means of irrigation pursuant to Section 4.4.C.18.
3. In all areas of the County the preferred Landscaping materials are Native Plants as defined by the Native Plants for Northern Arizona Landscapes compiled by The Arboretum at Flagstaff. The use of specifically identified Invasive Species and Noxious Weeds is prohibited. Some non-native species, which meet the definition of Drought Tolerant, may be used.
4. All portions of a Site where existing vegetative cover is damaged or removed, or consists primarily of weeds, and are not otherwise covered with new improvements, must be successfully revegetated with a substantial mix of native and/or drought tolerant grasses and ground covers. The density of the re-established vegetation must be adequate to prevent soil erosion and invasion of weeds after one growing season.
5. All required Landscaping must be located on the property it serves. Elements such as plants, walls, fences, buffering and screening located on adjacent properties or public Rights-Of-Way shall not count toward the Landscaping requirements.

6. Additional Landscaping may be established in public Rights-Of-Way with the approval of the appropriate jurisdiction (i.e. ADOT or County Public Works).
7. Retention of existing native vegetation and natural features is encouraged. Special consideration may be given to developments which retain existing trees, vegetation, and natural features of the Site where possible and which are replaced and enhanced when necessary.
8. All landscape design shall take into consideration the need for Defensible Space.
9. Lighting used in the landscape plan must comply with the provisions of Section 4.3 of this Ordinance.

10. Preferred Materials

- a. All landscape plans must use native and/or Drought Tolerant plant materials appropriate for their location. Invasive Plants and Noxious Weeds are prohibited. Preferred Landscaping materials are native plants as defined by the *Native Plants for Northern Arizona Landscapes* compiled by The Arboretum at Flagstaff. A detailed plant list shall be included with all plans. The list shall include both the botanical and common names.
- b. If turf areas are included, they must use a sod or seed mix specifically cultivated to thrive in the conditions present at the particular Site. The use of non-native and/or high water consumptive turf such as Kentucky Blue Grass is discouraged. The applicant must provide information regarding the composition of a sod or seed mix as part of the detailed plant list as required.
- c. Rock material used in Landscaping shall be subordinate to and not a substitute for plant material. When used, rock material must be compatible and appropriate.
- d. The use of artificial trees, shrubs, turf, or plants shall not be permitted as Landscaping.

11. Design

- a. Plants should be grouped in strategic areas and not spread thinly around the site.
- b. Trees must be planted to allow for maximum growth in height and shape without the need for pruning in excess of that required to maintain the health of the plant.
- c. New vegetation shall be selected, planted, and maintained so that at maturity it will not interfere with utility lines, snow storage areas, vehicular parking, pedestrian circulation, traffic sight visibility at driveways and Street intersections, and will not cause damage and upheaval of sidewalks and pavement.
- d. All landscape designs shall take into consideration the need for Defensible Space.

- e. All Landscaped Areas shall incorporate a ground cover to tie the Landscaping together and to discourage weed growth.
- f. A mix of deciduous and evergreen plant materials shall be used to provide a year-round effect.
- g. A clear sight triangle shall be maintained at all Street intersections and driveway entrances. Such clear sight triangle shall be determined by measuring 25' along each property line at Street intersections, and along the property line and the driveway for driveway entrances. Landscape materials in this area shall have a clear trunk height of six (6) feet from grade level; mature shrubs, groundcover, or other materials shall not exceed three (3) feet in height from grade level.

12. Preservation of Existing Vegetation

- a. The preservation of healthy existing trees and shrubs shall be provided wherever possible. These trees and shrubs must be shown on the landscape plan and labeled as "existing." They must also be listed on the plant list with their current size shown.
- b. All landscape plans must identify methods for protecting existing vegetation that will remain. Construction materials and debris may not be stockpiled within 1 ½ times the drip line perimeter outside the drip line of all trees and shrubs being retained. This protection area must be clearly marked with temporary fencing or similar material.

13. Standard Plant Units

- a. All Landscaping requirements are stated in terms of the number of standard Plant Units required. This Section defines 3 alternative Plant Units. All Landscaping shall conform to one or more of the Plant Unit alternatives of this Section.
- b. The following table specifies Plant Unit alternatives. In general, the three alternative plant mixes are interchangeable. In some instances, the Director of Community Development may require the use of a specific Plant Unit to achieve a particular result.

Plant Unit Alternative	Quantity Required	Type and Size at Time of Installation
Alternative A	3	8' high evergreen trees
	10	2' high shrubs (or 5 gal min.)
Alternative B	2	6' high evergreen trees
	1	3" caliper deciduous tree (min 10-12' height)*
	4	2' high shrubs (or 5 gal min.)
Alternative C	1	3" caliper deciduous tree (min 8-10' height)
	2	1 ½" caliper deciduous trees (min 6'-8' height)
	14	2' high shrubs (or 5 gallon minimum)

- c. Clump or cluster planting which will achieve a total diameter of 4" may be considered in lieu of a 3" caliper tree.
- d. When applied through the Ordinance, and where the resulting number of required Plant Units is expressed in a fraction, the required number of Plant Units shall be rounded off to the nearest whole number (rounding is done at the end of calculations).

14. Parking Lot Landscaping

- a. Landscaping shall be proportionally distributed throughout parking and driveway areas, including the perimeter and interior of the parking area. Where islands are required or provided, they shall be landscaped.
- b. Parking lot Landscaping shall be provided according to the following table.

Parking Spaces	Minimum Landscaped Area Required	Minimum Plant Units
0-5	none	none
6-20	324 sq. ft.	1 unit
21-32	27 sq. ft./space	2 units
33-44	27 sq. ft./space	3 units
45+	40 sq. ft./space	3+units ¹

Table Note 1: The number of Plant Units required shall be pro-rated for parking lots over 44 spaces at the rate of one plant unit per 324 square feet of landscaped area.

- c. Where parking lots are adjacent to side or rear property lines, a minimum 5' wide perimeter strip of Landscaping shall be provided.
- d. All Landscaped Areas adjacent to vehicular parking and access shall be protected by 6" vertical concrete curbing, 6" bumper stops, or similar materials in order to control storm water flows and minimize damage by vehicular traffic.
- e. The curb or barrier around Landscaped Areas may be utilized as a wheel stop provided the area of vehicle overhang does not exceed 2 ½ feet and does not damage or interfere with the Landscaping. A minimum five (5) foot wide planter is required for a single vehicle overhang and an 8 foot wide planter for a double vehicle overhang.
- f. Parking, Buildings, and display or storage of equipment of vehicles is not permitted in required Landscaped Areas.
- g. To ensure that landscape materials do not constitute a driving hazard, trees used to landscape parking islands shall have a clear trunk height of six (6) feet from grade level; mature shrubs, groundcover, or other Landscaping material shall not exceed three (3) feet in height from grade level.

15. Buffer and Screen Landscaping

- a. All required front and street side Landscape Areas shall be fully landscaped in accordance with a minimum of 1 Plant Unit for every 100 lineal feet of frontage. In areas where greater buffer or screening is desirable additional Plant Units may be required by the Planning and Zoning Commission.
- b. Where detention basins and/or drainage ways are constructed partially or entirely within Setback areas or other high-visibility areas on Sites, they must be adequately landscaped. A minimum of two (2) Plant Units shall be required for every 100 feet of the perimeter of the basin, measured at the top of the basin. All detention basin surfaces shall be treated with a native groundcover seed mix or lawn mix as required, river rock or similar non-plant alternative may be allowed subject to the approval of the Director of Community Development.

15. Screening

- a. Where landscape screening is required by the Ordinance or through Commission or Board action, such Landscaping shall be in addition to the general Landscaping requirements.
- b. Required fences and walls adjacent to County roads or State Highways shall have a unifying theme and provide variation by using changes in height, different material combinations, offset angles, articulation, and/or plant materials.

16. Site Landscaping

In addition to the required buffer and screen Landscaping, and parking lot Landscaping, the Building site shall include Landscaping designed to visually integrate the Structure(s) with the Site.

1. The Site Landscaping shall include one Plant Unit for every 100 lineal feet of perimeter of the Building foot print, and located within 50 feet of, and adjacent to, the perimeter of the Building. In situations where the Use or Building design makes planting within 50 feet impractical, such as mini storage warehousing, it may be permitted to place some or all of their on-site Building Landscaping beyond the 50 foot limit, subject to the approval of the Director of Community Development.
2. If phasing is proposed, or if only a portion of the parcel is being developed, the undeveloped area shall be maintained in existing Native Plants. If the area has been disturbed or the existing vegetation consists primarily of weeds, the area must be successfully revegetated with a substantial mix of native and/or Drought Tolerant grasses and ground covers. The density of the re-established vegetation must be adequate to prevent soil erosion and invasion of weeds after one growing season.
3. For Manufactured Home Parks or Multi Family Developments, one Plant unit per single residential unit or Lot is required.

18. Installation and Maintenance

- a. Landscaping and irrigation devices shall be installed in accordance with the approved landscape plan prior to issuance of a Certificate of Occupancy or commencement of the use. If approved Landscaping and irrigation cannot be installed prior to occupancy or commencement of the Use, a temporary Certificate of Occupancy may be issued upon posting of an approved financial assurance based on a contractor's estimate for completing the work, plus 10% contingency. The work shall be completed prior to the end of the next planting season.
- b. It is the responsibility of the property and/or business owner to maintain the Site as approved and provide for replacement of plant materials that have died or otherwise been damaged or removed, and maintenance of all landscape materials including, but not limited to fencing, paving, rocks, and retaining walls.

19. Modification to Landscaping Standards

The Director of Community Development may grant minor modifications to the standards set forth in this Section if it is determined that:

1. The strict application of these standards is not possible due to existing physical conditions; and
2. The modification is consistent with the purpose of this Section; and
3. The modification is the minimum modification that would afford relief and would be the least modification of the applicable provisions of this Section.

Section 4.4.D: Permits and Administration

Landscape Plan Requirements

- a. Landscape Plan required: An approved landscape plan is required prior to any Site clearing for any Use other than single family residential. A landscape plan designed in accordance with this Section shall be provided for all new development and redevelopment, except for single family residential. The landscape plan shall be prepared by a landscape architect, a professional landscape designer, or a plant nursery, unless a waiver is approved by the Director of Community Development. Additions to an existing Building, or substantial improvements comprising 25% of the value of the Building prior to the improvements, as determined by the Chief Building Official, shall prompt compliance with these requirements for that portion of the Site affected by the improvements. Additions to an existing Building, or substantial improvements comprising over 50% of the value of the Building prior to the improvements, as determined by the Chief Building Official, shall prompt compliance with these requirements for the entire Site.
- b. The plan shall include the following:

1. A site plan drawn to scale providing sufficient detail to evaluate the features of Landscaping and irrigation required by this Section. The site plan shall show the location of property lines, proposed contours, drainage Structures, existing and proposed development including all Buildings, parking, pedestrian, and circulation areas. If phased development is proposed, the phasing plan shall be identified. The plan shall show the location of all proposed Landscaped Areas, and the dimensions and total area (in square feet) for each interior parking lot Landscaped Area.
2. The location, design and materials of all Landscape Areas including planting strips along all Streets, earth berms, retaining walls, fences, water features, retention areas, trash enclosures, lighting, and paved areas. Where fencing is used for required screening, a scaled elevation drawing of the fence must be included.
3. The location, size, and type of all proposed plant and non-plant materials, including any existing vegetation to be retained and existing trees over 6” caliper proposed to be removed.
4. A chart comparing the Landscaping requirements to the proposed materials and area covered, including, but not limited to, the following information:
 - i. Total parking lot and circulation areas, including interior drives and driveways (in square feet);
 - ii. Total number of parking stalls required and total provided;
 - iii. Total parking lot Landscaped Area required and total provided (in square feet);
 - iv. Total buffer and screen Landscaped Area required and total provided (in square feet);
 - v. Total site Landscaped Area required and total provided (in square feet);
 - vi. Total quantity and size of plant material required and the total provided;
 - vii. Size, type, and quantity of non-plant material to be provided;
 - viii. Any other information as the Community Development Director may determine is necessary to ensure compliance with this Ordinance.
5. All landscape plans must provide an irrigation plan. Irrigation systems shall be designed to maximize efficient water use and minimize the waste of water. An automatic irrigation system designed to provide efficient irrigation coverage is required.
 - i. The irrigation system should be designed to correlate to the organization of plants into zones with similar watering requirements.

- ii. The use of treated effluent, a collection system to capture runoff, and other alternatives for irrigation purposes are encouraged.
 - iii. A waiver from the automatic irrigation system requirement may be approved by the Director of Community Development. If an alternative means of watering is proposed a specific plan must be provided.
- c. If the Community Development Director determines that the proposed Landscaping does not comply with this Ordinance, the plan will not be approved.

Section 4.5: Projections into Required Yards

Section 4.5.A: Purpose

1. Yards are required to ensure that the use of a property does not infringe on the rights of neighbors, to allow room for light and sunshine in the home, to reduce the spread of fire from Structure to Structure, for space for recreation outside the home, and to serve as filtration areas for storm water run-off
2. Allowed projections are permitted in order to provide reasonable levels of flexibility for encroachment into required Yards while protecting the purpose of the yard.

Section 4.5.B: Applicability and Exemptions

The following performance standards apply in all zones unless otherwise specified. *(New to RC and all Special Purpose zones)*

Section 4.5.C: Performance Standards

1. Required separation distances between Structures on the same property may be reduced to five (5) feet if:
 - a. Structures which encroach into separations have a one (1) hour fire rating on wall(s) which encroach into required separations.
 - b. Have a Class A roof.
2. Portions of a Structure which are less than fifteen (15') feet in height and less than twenty (20%) percent of the length of the side of the Structure closest to said setback shall be permitted the following projections:
 - a. In any Residential Zones may project not more than six (6') feet into any required Front, Street Side or Rear Setback, nor into any required Side Setback more than one half (1/2) of said required Side Setback.

- b. In any Commercial Zone (RC), may not project more than four (4) feet into any required Setback. Greater projections may be permitted when it is demonstrated that such additional projections are needed for solar or alternate energy purposes, subject to the approval of the Director of Community Development.
 - c. In any Industrial Zone, may project not more than one-half (1/2) the width of the required Setback. Greater projections may be permitted when it is demonstrated that such additional projections are needed for solar or alternate energy purposes, subject to the approval of the Director of Community Development.
- 3. Uncovered paver/stone patios or slabs on grade may encroach into any Setback. Balconies, porches or decks shall not encroach or project into any required Setback.
 - 4. Swimming pools, including all Accessory or appurtenant Structures and equipment, shall be allowed to encroach so long as they maintain a minimum Setback of five (5') feet from all property lines and Buildings.
 - 5. A detached Accessory Structure in Residential Zones, regardless of the requirements for Building Permits, shall meet all Setback and separation requirements for the underlying zone except as provided herein:
 - a. A detached Structure shall meet the Setback requirements of the main Building for the Front and Street Side Setbacks.
 - b. A detached Accessory Structure which does not exceed fifteen (15') feet in height and 600 sq. ft. in area, may be located within an Interior Side or Rear Setback; provided, however, that such Structure shall not be located closer than five feet to an Interior Side or Rear Lot Line.
 - c. A detached Accessory Structure which exceeds fifteen (15') feet in height, or 600 square feet in area, shall maintain the same minimum Side and Rear Setbacks as required for the main Dwelling.
 - d. In the RS-6,000 and RS-10,000, RMH and MHP Zones on parcels of one-half (1/2) acre or smaller:
 - 1. Structures that are 120 square feet or less shall meet the Front and Street Side Setbacks but may be within six (6') feet of the main Dwelling and three (3') feet from any Interior Side or Rear Property Line.
 - 2. Structures that are sixty-four (64') square feet or less and eight (8') feet or less in height measured to the highest peak may have a zero (0') foot separation from the main Dwelling and a one (1') foot Interior Side or Rear Setback as long as the roof does not drain onto an adjacent property.
 - 3. If there is more than one (1) shed on a property, there must be at least a six (6') foot separation between sheds.

6. Canopies

- a. In any residential Zone on Lots smaller than 1 acre, Canopies, or roofs attached to the main Building or connecting the main Building with a detached Accessory Structure, may extend into a required Rear or Interior Side Setback provided that portions of such Structure extending into the Setback:
 1. Shall not exceed fifteen (15') feet in height nor project closer than five (5') feet to an Interior Side or Rear Lot Line;
 2. Shall be entirely open on at least three (3) sides except for necessary supporting columns; except that a roof connecting a main Building and an Accessory Structure shall be open on at least two (2) sides.
- b. In any non-Residential Zone, detached canopies shall be considered Accessory Structures and shall meet all of the Setback requirements for main Buildings. No portion of the canopy shall extend into the Setback. Canopies may be located in front of the main Building outside the required Front and Street Side Setback

7. Administrative Adjustments

- a. Additional projections into required Yards may be permitted per the standards of Section

Section 4.5.D: Permits and Administration

1. Applicable Building, Environmental Quality and Engineering Permits apply. Planning and Zoning review shall be conducted through the issuance of such permits
2. Adjustments shall require issuance of an Administrative Permit subject to the provisions of Section 5.1.A.
 - a. Findings
 1. In granting an Administrative Adjustment, the Director of Community Development shall make findings of fact that establish that the circumstances necessary for granting a variance by the Board of Adjustment, as prescribed in Section 5.8.B.4 (Findings) do apply.
 2. Site Area: Additional Findings

In order to grant approval of an Administrative Adjustment allowing a reduction in minimum site area the Director must make the following additional finding:

That the property cannot otherwise meet the minimum site area requirement of its current zoning classification.
 - b. Decision of Director

If the Director of Community Development denies an application for an Administrative Adjustment, or, if the applicant disagrees with the conditions imposed on the granting of an Administrative Adjustment, if any, the applicant may file for a Variance in accordance with Section 5.8, Variances.

Section 5.1: Permit Application Requirements and Timeframes

Section 5.1.A: Administrative Permits

1. The following information shall be submitted when applying for an Administrative Permit. The Director of Community Development may require additional information or plans, if they are necessary to enable a determination as to whether the circumstances prescribed for the granting of the Permit exist. The Director of Community Development may authorize omission of any or all of the plans and drawings required by this Section if they are not necessary.
- a. A completed application form including name and signature of the applicant, mailing address, contact person, phone number, fax number and email address for contact person, Assessor’s Parcel Number, Subdivision, unit/lot number, site address/location, zoning, existing land use, lot size, description of the request, property owner’s authorization by their signature and permit fee.
 - b. Two copies of a Site plan drawn to scale using accurate dimensions showing all property lines, improvements, uses, landscaped areas, location of all streets or right-of-ways providing access to the Site, Easements, traffic flow and parking areas.
 - c. A copy of all recorded Easement applicable to the request shall be provided.
 - d. A separate Building Permit application shall be submitted for all new construction and electrical installation. Required Building Permits shall be obtained prior the initiation of construction.
 - e. A separate Lighting Permit application shall be submitted for any new exterior lighting as required by Section 4.3: Lighting.
 - f. A separate Sign Permit application shall be submitted for any new signage as required by Section 4.2: Signs.
 - g. Prior to the issuance of a Permit a bond may be required. This deposit shall be used to defray the costs of cleanup of the property by the County in the event the permittee fails to do same.
 - h. All open zoning Violations shall be addressed prior to acceptance of a permit application.

- i. All other required permits and licensing as necessary (i.e. approvals from the Sheriff's Office, Public Works or the Public Health District, Design Review Overlay, Conditional Use Permit, Variance, etc.) shall be obtained prior to the acceptance of a complete application.
2. Administrative Permit timeframes pursuant to ARS § 11-1605 are as follows:
 - a. Administrative completeness shall be determined within 30 calendar days of the submittal of a application. Applicants will be notified in writing of an incomplete application with a list of deficiencies. Notice in writing of application deficiencies shall suspend the administrative completeness timeframe until such time as all deficiencies have been addressed.
 - b. Substantive review of all Permit applications shall be completed within 30 calendar days from the determination that the Permit application is administratively complete. One written request for additional information may be made to the applicant during this review process.
 - c. The total time frame for the granting or denying of an administrative Permit is 60 days.
 - d. Timeframes are tolled and may be waived in accordance with A.R.S. §11-1601 et seq.
 3. Issuance of Administrative Permits shall comply with the following:
 - a. The proposed use will not be detrimental to health, safety, or general welfare of persons living or working in the vicinity, to adjacent property, to the neighborhood, or to the public in general;
 - b. The proposed use conforms with the purposes, intent, and policies of the Comprehensive Plan and any applicable area, neighborhood, or other plan adopted by the Board of Supervisors;
 - c. The proposed use conforms with the conditions, requirements, or standards of this Ordinance and any other applicable local, state, or federal requirements;
 - d. The proposed use, as conditioned, would not unreasonably interfere with the use and enjoyment of nearby properties.
 - e. Permits shall be issued when compliance with this Ordinance is verified. If the Community Development Director determines that the proposed use does not comply with this Ordinance, the permit shall be denied.
 - f. All open zoning Violations shall be addressed prior to the acceptance of a complete Permit application.

- g. No Permit shall be issued if the property is in Violation of other laws or impairs property rights. The Director of Community Development will determine if the Violation or impairment exists with appeal to Superior Court.

4. Revocation

If a zoning permit or Conditional Use Permit is revoked, a new permit for the same owner and location may not be issued for a period of at least one year from the date of revocation.

5. Validity Limit

The Administrative Use Permit shall be valid for the use for which the permit was granted for the length of time indicated on the permit as long as the use is in compliance with the conditions of approval and other applicable ordinances.

Section 5.1.B: Permits Requiring Hearing

1. The following information shall be submitted when applying for a Permit requiring public hearing. The Director of Community Development may require additional information or plans, if they are necessary to enable a determination as to whether the circumstances prescribed for the granting of a Permit exist. The Director of Community Development may authorize omission of any or all of the plans and drawings required by this Section if they are not necessary. 15 copies shall be provided for hearing by the Planning and Zoning Commission and 7 copies shall be provided for a hearing of the Board of Adjustment.
 - a. A completed Coconino County Permit application form including, name and address of the applicant, name of contact person, phone number, fax number and email address, Assessor's Parcel Number, subdivision/unit/lot, site address/ location, existing zoning, existing land use, lot size, permit request description, pre-application meeting, and property owner's authorization by their signature.
 - b. A completed citizen participation plan in accordance with Section 5.3.
 - c. A typewritten narrative describing the request and the precise manner of compliance with each of the applicable provisions of this Section, together with any other data pertinent to the findings prerequisite to the granting of a the Permit.
 - d. Documentation shall be provided in a written description as well with supplemental data to show compliance with the Coconino County Comprehensive Plan.
 - e. A list of all owners of property located within three hundred feet (300') of the exterior boundaries of the subject property; the list shall be keyed to a map showing the location of these properties.
 - f. A site plan drawn to scale using accurate dimensions showing property boundaries; existing and proposed improvements and Uses; locations of driveways, pedestrian walks,

landscaped areas, fences, walls, off-street parking areas including ingress and egress, traffic flow, and Easements.

- g. A copy of all recorded Easements applicable to the request.
- h. A landscape plan detailing the locations of existing vegetation (both to be retained and to be removed), the location and design of landscaped areas, the number, varieties and sizes of proposed plant materials and other landscape features including sprinkler and irrigation systems as required by Section 4.4: Landscaping.
- i. Architectural drawings including floor plans in sufficient detail to determine setback and parking requirements and elevations of all proposed structures as they will appear upon completion. All exterior surfacing materials and colors shall be specified. Color renderings or paint and material samples are required.
- j. Signage plan detailing all existing and proposed Signs, including their location, size, materials, color and method of illumination as required by Section 4.2: Signs.
- k. Lighting plan including location of all outdoor lighting fixtures and description of each (i.e. Lamp Type, Lumen output, Shielding) as required by Section 4.3: Lighting.
- l. Plans and/or a preliminary report describing the proposed provisions for storm drainage, sewage disposal and such other public improvements and utilities as the Director may require in order to give a full evaluation of the project.
- m. The application shall be accompanied by a fee established by resolution of the Board of Supervisors to cover to cost of handling the application as prescribed in this Section.

Timeframes for Permits requiring Hearings pursuant to ARS § 11-1605 are as follows:

- a. Administrative completeness pursuant to A.R.S. § 11-1605 shall be determined within 60 calendar days of the submittal of an application. Applicants will be notified in writing of an incomplete application with a list of deficiencies. Notice in writing of application deficiencies shall suspend the administrative completeness timeframe until such time as all deficiencies have been addressed.
- b. Substantive review of applications shall be completed within 120 calendar days from the determination that the application is administratively complete. One written request for additional information may be made to the applicant during this review process. To accommodate changing conditions or plans, the applicant may agree to respond to additional requests for information. The substantive review includes investigation and report on the case. The substantive review timeframe is suspended during the public hearing process. The public hearing process begins at the posting of the case and is complete upon mailing of the e permit resolution per A.R.S § 11-1605 (c)(8)(c).
- c. The total time for the granting or denying of the Permit approval is 180 days.

- d. Timeframes are tolled and may be extended in accordance with A.R.S. §11-1601 et seq

Section 5.2: Pre-Application Review

Section 5.2.A: Purposes

The purpose of a pre-application review is to determine application requirements and familiarize the applicants with the review process and procedures, identify land use and development policies which may affect the development proposal and address potential problems as early in the process as possible.

Section 5.2.B: Administration

1. Pre-Application Review Requirements

Pre-application reviews must occur within 6 months prior to the submittal of an application. The following applications are required to have a pre-application review prior to the submittal of an application, Conditional Use Permits, Zone Changes, Subdivisions, Design Review Overlay approval, Amendments, Medical Marijuana Facilities, Variances and Abandonments.

2. Request for Pre-Application Review

Applicants shall request a pre-application review unless waived by the Director. No formal applications are required. Applicants are strongly encouraged to develop a preliminary Site plan depicting property lines, locations of existing and proposed Structures, parking and landscaped areas, property constraints including significant topographic features or flood hazard areas to be utilized during review. A narrative report is also recommended detailing the specific request and potential operation.

3. Pre-Application Review Meeting

The Director shall maintain a pre-application meeting schedule. The pre-application meeting includes, but is not limited to, representatives planning, zoning, building, flood control, engineering, hydrology, and environmental services. Staff shall provide applicants with information on process requirements including, but not limited to, application submittal requirements, citizen participation plan and notification requirements, and background information or additional studies necessary to adequately assess a project. Whether or not a development proposal meets relevant ordinances and plan policies may be discussed, but final staff recommendation will not be made until a formal application is evaluated.

4. Pre-Application Review Waiver

The Director may waive the requirement for pre-application review upon formal request by the applicant.

Section 5.3: Citizen Participation

Section 5.3.A: Purposes

In order to maximize the opportunity for citizen involvement in the rezoning and conditional use permit processes that are described in the following sections, and to resolve any neighborhood issues at an early stage in the process, the following requirements shall be included in the citizen participation process.

Section 5.3.B: Administration

1. Citizen Participation Plan

- a. Every zone change and conditional Use permit application shall include a citizen participation plan that must be completed prior to the submittal of an application.
- b. The purpose of the citizen participation plan is to achieve the following:
 1. Ensure that applicants pursue early and effective citizen participation in conjunction with their applications, giving them the opportunity to understand and try to mitigate any real or perceived impacts their application may have on the community or on the neighborhood;
 2. Ensure that the citizens and property owners of Coconino County have an adequate opportunity to learn about applications that may affect them and to work with applicants to resolve concerns at an early stage of the process; and
 3. Facilitate ongoing communication between the applicant, interested citizens and property owners, County staff, and elected officials throughout the application review process.
- c. The citizen participation plan is not intended to produce complete consensus on all applications, but to encourage applicants to be good neighbors and to allow for informed decision making.
- d. At a minimum, the citizen participation plan shall include the following:
 1. Which residents, property owners, interested parties and public and private agencies may be affected by the application;
 2. How those interested in and potentially affected by an application will be notified that an application has been made;
 3. How those interested and potentially affected parties will be informed of the substance of the zone change, amendment, or development proposed by the application;

4. How those interested and affected parties will be provided an opportunity to discuss the applicant's proposal with the applicant and express any concerns, issues, or problems they may have with the proposal in advance of the public hearing;
 5. The applicant's schedule for completion of the citizen participation plan; and
 6. How the applicant will keep the County Community Development Department informed on the status of citizen participation efforts.
- e. Within six (6) months of submitting an application for a zone change or a conditional Use permit applicants must conduct a neighborhood community meeting.
1. The meeting must be conducted in the general vicinity of the property involved in the application, subject to the approval of the Director. The meeting serves as a forum for information exchange between applicants and affected members of the public.
 2. Affected members of the public shall be noticed in writing of a neighborhood community meeting not less than 10 days or more than 21 days prior to the meeting.
 3. An applicant may make a written request and receive a written determination whether; due to impractical circumstances, such as a site surrounded by federal lands, the requirement for a community meeting may be waived by the Director. At a minimum the request must explain why the applicant's citizen participation plan provides other adequate, alternative opportunities for citizens to express any concerns, problems or issues they may have with the proposal in advance of the public hearing. The Director shall make their determination a part of the written record in the case.
- f. The level of citizen interest and area of involvement will vary depending on the nature of the application and the location of the Site. The target area for notification will be determined after consultation with Department of Community Development staff. At a minimum, the target area shall include the following, and when applicable, notice shall conform to requirements set forth in A.R.S. § 11-813 and A.R.S. §11-814:
1. Property owners within the 300 foot public hearing notice area required or further as required by other sections of this Ordinance;
 2. The head of any property owners' association within the notice area required by other sections of this Ordinance; and
 3. Other potentially affected property owners outside of the legal notice area as determined by Community Development Department staff; and
 4. Other interested parties who have requested that they be placed on a list of interested parties maintained by the Community Development Department.

- g. These requirements apply in addition to any notice provisions required elsewhere in this Ordinance.
- h. The applicant may not submit a citizen participation plan until after a pre-application review meeting and consultation with Community Development Department staff.

2. Citizen Participation Report

- a. This section applies only when a citizen participation plan is required by this Ordinance.
- b. The applicant shall provide a written report on the results of their citizen participation effort prior to the notice of public hearing. This report shall be attached to the staff report submitted to the Planning and Zoning Commission.
- c. At a minimum, the citizen participation report shall include the following information:
 - 1. Details of the techniques the applicant used to involve the public, including:
 - i. Dates and locations of all meetings where citizens were invited to discuss the applicant's proposal;
 - ii. Content, dates mailed, and numbers of mailings, including letters, meeting notices, newsletters and other publications;
 - iii. Where residents, property owners, and interested parties receiving notices, newsletters, or other written materials are located; and
 - iv. The number of people that participated in the process the percentage of those notified that participated in the process.
 - 2. A summary of concerns, issues, and problems expressed during the process, including:
 - i. The substance of the concerns, issues, and problems;
 - ii. How the applicant has addressed or intends to address concerns, issues and problems expressed during the process; and
 - iii. Concerns, issues and problems the applicant is unwilling or unable to address and why.

Section 5.4: Public Hearing Time and Notice

Section 5.4.A: Duties of the Director

The Director of Community Development shall set the time and place of public hearings required by this Ordinance to be held by the Planning and Zoning Commission or Board of Adjustment, provided that the Commission or Board may change the time or place of a hearing with 24 hours advance notice. However, the Planning and Zoning Commission or Board of Adjustment shall hold a public hearing within seventy-five (75) days after a complete application has been filed unless extended at the request of the applicant.

Section 5.4.B: Duties of the Clerk of the Board

The Clerk of the Board shall set the time and place of public hearings required by this Ordinance to be held by the Board of Supervisors, provided that the Board may change the time or place of a hearing with 24 hours advance notice. The Board of Supervisors shall hold a public hearing on a rezoning request, or an amendment approved by the Commission not less than sixty (60) days after notice of such decision or appeal has been filed with the Clerk of the Board unless the applicant or appellant shall consent to an extension of time. In accordance with A.R.S. § 11-813, notice of a public hearing for a Zoning Ordinance Amendment shall be given not less than 15 days nor more than 30 days prior to the date of the hearing by publication in a newspaper of general circulation. In accordance with A.R.S. § 11-814, when the public hearing concerns a rezoning matter the property shall be posted at least fifteen (15) days prior to the hearing and notice of a public hearing shall be given not less than fifteen (15) days prior to the date of the hearing by publication in a newspaper of general circulation. Notices of public hearings before the Planning and Zoning Commission, Board of Adjustment, or Board of Supervisors shall be mailed to all persons whose names appear on the latest adopted tax roll of Coconino County as owning property within 300 feet of the exterior boundaries of the property that is the subject of the hearing.

Section 5.5: Appeals: Board Review

Section 5.5.A: Appeal of Decision of Planning and Zoning Commission

Where this Ordinance provides for appeal to the Board of Supervisors of an administrative decision of the Planning and Zoning Commission, the appeal shall be made within fifteen (15) days of the date of the decision by filing a letter of appeal with the Director of Community Development. The appeal shall state in writing the grounds for the appeal including specific conditions of concern if applicable.

Section 5.5.B: Board Action on Appeal

The Board of Supervisors shall hold at least one public hearing on a decision of the Director or Planning and Zoning Commission which has been appealed. The hearing shall be held within ninety (90) days from the filing of the appeal unless an extension is requested by the applicant; the time and place of the hearing shall be set by notice given as prescribed in Section 5.4. The Board shall render a decision on an appeal within forty (40) days following the closing of the public hearing on the appeal unless an extension is requested by the applicant. Failure of the Board to act within the time period prescribed by this Section shall be deemed approval of the Planning and Zoning Commission action. The Board shall review appeals de novo. The Board may affirm, reverse or modify a decision of the Planning and Zoning Commission. The decision of the Board of Supervisors shall be final.

Section 5.6: Administrative Adjustments

Section 5.6.A: Purpose

The purpose of this Section is to grant authority to the Director of Community Development to take action on requests for minor modifications or adjustments to certain requirements of this Ordinance when such requests constitute a reasonable use of property not permissible under a strict, literal interpretation of the regulations.

Section 5.6.B: Administration

For the purpose of administering this Section, an Administrative Adjustment is any modification of the terms or requirements of this Ordinance, which, if granted, would allow the following:

- a. A decrease of not more than 10% of the required building site area, width or depth.
- b. A decrease of not more than 20% of the required width of a side yard or the yard between buildings.
- c. A decrease of not more than 20% of the required front or rear yard.
- d. An increase of not more than 20% in the permitted height of a fence or wall.
- e. An increase of not more than 10% of the permitted projection of steps, stairways, landings, eaves, overhangs, masonry chimneys, and fireplaces into any required front, rear, side or yard between buildings.
- f. An increase of not more than 10% of the permitted height or areas of signs.
- g. A decrease in the number of required parking spaces of not more than 10% or a decrease of one space if the total number of spaces is less than 10.

- h. An increase of not more than 10% in the maximum allowable lot coverage.
- i. An increase of not more than 10% in the permitted height of buildings.

Section 5.7: Conditional Use Permits

Section 5.7.A: Purposes

In order to give the Use regulations the flexibility necessary to achieve the objectives of this Section, in certain zones conditional Uses are permitted, subject to the granting of a Conditional Use Permit. Because of their unusual characteristics, conditional Uses require special consideration so that they may be located properly with respect to the objectives of the zoning regulations and their effects on surrounding properties. In order to achieve these purposes, the Planning and Zoning Commission is empowered to grant and to deny applications for Use permits for such Conditional Uses in such zones as are prescribed in the zone regulations and to impose reasonable conditions upon the granting of conditional use permits, subject to the right of appeal to the Board of Supervisors.

Section 5.7.B: Administration

1. Conditional Use Permits shall be subject to the provisions of Section 5.1.B.
2. Investigation and Report

The Director of Community Development shall make an investigation of the application and shall prepare a report thereon which shall be submitted to the Planning and Zoning Commission and made available to the applicant prior to the public hearing.

3. Public Hearing

The Planning and Zoning Commission shall hold at least one public hearing on each application for a conditional use permit. The hearing shall be set and notice given as prescribed in Section 5.4 (Public Hearing Time and Notice). At the public hearing, the Commission shall review the application and drawings submitted therewith and shall receive pertinent evidence concerning the proposed Use and the proposed conditions under which Use would be operated or maintained, particularly with respect to the findings prescribed in Section 5.7.B.5.

4. Action of the Planning and Zoning Commission

Within forty (40) days following the closing of the public hearing on a Conditional Use Permit application, the Planning and Zoning Commission shall act on the application. The Commission may grant, by resolution, a Conditional Use Permit as the permit was applied for or in modified form, or the application may be denied. A Conditional Use Permit may be revocable, may be granted for a limited time period, or may be granted subject to such

conditions as the Commission may prescribe. Conditions may include, but shall not be limited to, drainage, sewage, water and other utility requirements, requiring special yards, open spaces, buffers, fences and walls; requiring installation and maintenance of landscaping; requiring street dedications and improvements; regulation of points of vehicular ingress and egress; regulation of traffic circulation; regulation of signs; regulation of hours of operation and methods of operating; control of potential nuisances; prescribing standards for maintenance of buildings and grounds; prescription of development schedules and development standards; and such other conditions as the Commission may deem necessary to insure compatibility of the Use with surrounding developments and Uses and to preserve the public health, safety and welfare. The Commission may grant waivers from the Zoning Ordinance in conjunction with the approval of a Conditional Use Permit for such property development standards and performance standards as: fences, walls, screening and landscaping; site area; width and depth; front, rear and side setbacks; lot coverage; height of structures; distance between Structures; usable open space; signs; off-street parking facilities or parking lot standards; or frontage on a public street.

5. Findings

The Planning and Zoning Commission shall make the following findings before granting a Conditional Use Permit:

1. That the proposed location of the Conditional Use is in accord with the objectives of this Ordinance and the purpose of the Zone in which the site is located.
2. That the proposed location of the Conditional Use and the conditions under which it would be operated or maintained will not be detrimental to the public health, safety, or welfare, or materially injurious to properties or improvements in the vicinity.
3. That the proposed Conditional Use will comply with each of the applicable provisions of this Ordinance, except for approved variances.
4. That the proposed Conditional Use is consistent with and conforms to the goals, objectives and policies of the Comprehensive Plan or Specific Plan for the area.

6. Effective Date of the Use Permit

The decision of the Planning and Zoning Commission shall be effective fifteen (15) days at the close of business from the date of the decision and upon receipt by the Department of Community Development of a signed agreement to the conditions of approval, unless prior to the expiration of said fifteen (15) day period an appeal has been filed with the Board of Supervisors.

7. Appeal to Board of Supervisors

A decision of the Planning and Zoning Commission may be appealed within fifteen (15) days to the Board of Supervisors by the applicant or any other person as prescribed in Section 5.5 (Appeals: Board Review); or by appeal of an individual member of the Board without fee.

8. Determination by the Board of Supervisors

The Board of Supervisors shall hold a public hearing on a Conditional Use Permit as prescribed in Section 5.5.B if an appeal has been filed within the prescribed fifteen day appeal period. The decision of the Board shall be final.

9. Lapse of Conditional Use Permit

A Conditional Use Permit associated with construction shall lapse and shall become void one year following the date on which the Conditional Use Permit became effective, unless prior to the expiration of one year, a building permit is issued and construction is commenced and diligently pursued toward completion on the site which was the subject of the use permit application, or a Certificate of Occupancy is issued for the structure which was the subject of the Use permit application, or the site is occupied if no building permit or Certificate of Occupancy is required, unless a longer time frame is approved by the Planning and Zoning Commission. A request for extension may be submitted to the Planning & Zoning Commission which will be evaluated based on current circumstances including, but not limited to, percentage of project completed, estimated completion date, surrounding land use and citizen input.

1. A Conditional Use Permit shall also lapse if the use for which the permit is approved is terminated for a period of two (2) years. Recommencement of the Use after the two (2) year period of inactivity shall require filing a new application following the requirements and processes specified in Section 5.7.

10. Renewal of Conditional Uses

- a. A Conditional Use Permit subject to expiration may be renewed, provided that prior to the expiration date, an application for renewal of the use permit is filed with the Department of Community Development.
- b. Upon application for renewal, a case review and site inspection shall be made to determine compliance with conditions of approval. Legal notice of application for renewal shall be posted on the property within public view, mailed to property owners within a minimum of 300 feet radius and advertised in a newspaper for a minimum of fifteen (15) days prior to determination of approval for renewal.
 1. A Conditional Use Permit may be renewed administratively where:
 - i. The current Conditional Use Permit remains valid and in full force; and
 - ii. There have not been any complaints; and
 - iii. The Use of the property remains the same as the approved Use; and
 - iv. The use is in compliance with conditions of approval; and

- v. There are no active violations of the zoning code at the time of renewal; and
 - vi. No modifications to the Use or conditions of approval are requested by the applicant or staff
2. Where the Conditional Use Permit is approved administratively, all prior conditions of approval shall remain in full force and effect.
- i. A Conditional Use Permit must be renewed upon a hearing before the Planning and Zoning Commission where:
 - ii. Any complaint is lodged with the Department during the current term of the Conditional Use Permit or during the notice period for the application of renewal; or
 - iii. Any conditions of approval are not met to the satisfaction of the Department; or
 - iv. A change in the described Use of the property has occurred; or
 - v. A change in the predicted impacts of the use has occurred; or
 - vi. There is a violation of the zoning code or any other applicable law, or
 - vii. A request to modify the Use or conditions of approval is made

Additional fees may apply to Conditional Use Permits renewed by the Planning and Zoning Commission.

- c. An application for renewal of a Conditional Use Permit not eligible for renewal pursuant to Section 5.7.B10 above may be granted or denied by the Planning and Zoning Commission subject to the modification of existing conditions of approval and/or the addition of new conditions of approval. A primary consideration of renewal is compliance with the original conditions of approval. Such applications shall be subject to the provisions of Section 5.7.

11. Modification of Conditional Use

- a. Sections 5.1.B and 5.7.B.1 through 5.7.B.10 shall apply to an application for modification, expansion, or other change in a conditional use.
- b. Revocation. Failure to comply with any of the conditions of approval is a violation of the Zoning Ordinance and may result in the revocation of a Conditional Use Permit. Revocation shall require a public hearing before the Planning & Zoning Commission in accordance with public notice criteria. The Planning and Zoning Commission shall hold a public hearing within ninety (90) days of sending notice to both applicant and property owner, in accordance with the procedure prescribed in Section 5.7.B.3 (Public Hearing) and 5.7.B.4. If not satisfied that the regulation, general provisions, or conditions are being

complied with, the Commission may revoke the Conditional Use Permit or take such action as may be necessary to ensure compliance with the regulation, general provisions, or conditions. The decision may include time frames for ensuring compliance or decommissioning the project unless an appeal has been filed within the prescribed fifteen (15) day appeal period, in which case Section 5.5.B (Board Action on Appeal) shall apply.

12. New Applications

Following the denial of a Conditional Use Permit application or the revocation of a Conditional Use Permit, no application for a Conditional Use Permit for the same or substantially the same Conditional Use on the site shall be filed within one (1) year from the date of denial or revocation of the Conditional Use Permit.

13. Conditional Use Permit to Run with the Land

A Conditional Use Permit granted pursuant to the provisions of this Section shall run with the land and shall continue to be valid upon a change in ownership of the site or structure which was the subject of the use permit application.

14. Use Permit and Change of Zone Filed Concurrently

Application for a Conditional Use Permit may be made at the same time as an application for a change in zone boundaries including the same property, in which case the Planning and Zoning Commission shall hold the public hearing on the zoning reclassification and the Conditional Use Permit at the same meeting and may combine the required hearings. For the purposes of this Section, the date of the Commission decision on the Conditional Use Permit application shall be deemed to be the same as the date of enactment by the Board of Supervisors of an ordinance changing the zone boundaries, provided that if the Board modifies a recommendation of the Commission on a zoning reclassification, the Conditional Use Permit application shall be reconsidered by the Commission in the same manner as a new application.

Section 5.8: Variances

Section 5.8.A: Purposes and Authorization

- a. Variances from the terms of the Zoning Ordinance shall be granted only when, because of special circumstances applicable to the property, including size, shape, topography, location or surroundings, the strict application of the Zoning Ordinance deprives such property of privileges enjoyed by other property in the vicinity and under identical zoning classification. Any Variance granted shall be subject to such conditions as will assure that the adjustment thereby authorized shall not constitute a grant of special privileges inconsistent with the limitations upon other properties in the vicinity and zone in which such property is situated.

- b. The power to grant Variances does not extend to Use regulations. Flexibility to the zoning regulations is provided in the Conditional Use provisions of this Ordinance.
- c. The Board of Adjustment may grant Variances to the regulations prescribed by this Section, in accord with the procedure prescribed in this Section, with respect to fences, walls, hedges, screening, and landscaping; site area, width, and depth; front, rear, and side yards; coverage, height of structures; distances between structures; usable open space; signs, off-street parking facilities, or frontage on a public street.

Section 5.8.B: Administration

1. Investigation and Report

The Director of Community Development shall make an investigation of each application that is the subject of a public hearing and shall prepare a report thereon which shall be submitted to the Board of Adjustment and made available to the applicant prior to the public hearing.

2. Public Hearing

The Board of Adjustment shall hold a public hearing on an application for a Variance. The hearing shall be set and notice given as prescribed in Section 5.4 (Public Hearing Time and Notice). At a public hearing, the Board shall review the application, statements, and drawings submitted therewith and shall receive pertinent evidence concerning the Variance, particularly with respect to the findings prescribed in Section 5.8.B.4 (Findings).

3. Action by the Board of Adjustment

Within forty (40) days following the close of the public hearing on a Variance application, the Board of Adjustment shall act on the application. The Board may grant, by resolution, a Variance as the Variance was applied for or in modified form, or the application may be denied. A Variance may be revocable, may be granted for a limited time period, or may be granted subject to conditions as the Board may prescribe. Upon failure to act within the prescribed forty (40) day period, an appeal may be taken to the Superior Court as prescribed in ARS §11-807.

4. Findings

The Board of Adjustment may grant a Variance to a regulation prescribed by this Ordinance with respect to fences, walls, hedges, screening, or landscaping; site area, width, or depth; front, rear, or side yards; coverage, height of structures, distances between structures, usable open space, or frontage on a public street, as the Variance was applied for or in modified form, if, on the basis of the application and the evidence submitted, the Board of Adjustment makes findings of fact that establish that the circumstances prescribed in paragraphs A, B, or C and in paragraphs D and E do apply.

1. That the strict or literal interpretation and enforcement of the specified regulation would result in practical difficulty or unnecessary physical hardship inconsistent with the objectives of this Ordinance.
2. That there are exceptional or extraordinary circumstances or conditions applicable to the property involved which do not apply generally to other properties in the same zone.
3. That strict or literal interpretation and enforcement of the specified regulation would deprive the applicant of privileges enjoyed by the owners of other properties in the same zone.
4. That the granting of the Variance as conditioned will not constitute the granting of a special privilege inconsistent with the limitations on other properties in the same zone.
5. That the granting of the Variance will not be detrimental to the public health, safety, or welfare, or materially injurious to properties or improvements in the vicinity.

a. Signs: Additional Findings

The Board of Adjustment may grant a Variance to a regulation prescribed in this Ordinance with respect to signs as the Variance was applied for or in modified form, if, on the basis of the application and the evidence submitted, the Board of Adjustment makes findings of fact that establish that the circumstances prescribed in Section 5.8.B.4 (Findings) apply and the following circumstances also apply.

- i. That the granting of the Variance will not detract from the attractiveness or orderliness of the surrounding neighborhood or infringe on the similar rights of others.
- ii. That the granting of the Variance will not create a hazard to public safety.

b. Parking: Additional Findings

The Board of Adjustment may grant a Variance to a regulation prescribed by this Ordinance with respect to off-street parking facilities as the Variance was applied for or in modified form, if, on the basis of the application and the evidence submitted, the Board of Adjustment makes findings of fact that establish that the circumstances prescribed in Section 5.8.B.4 apply and the following circumstances apply.

- i. That neither present nor anticipated future traffic volumes generated by the use of the site or the uses of sites in the vicinity reasonably require strict or literal interpretation and enforcement of the specified regulation.

- ii. That the granting of the Variance will not result in the parking or loading of vehicles on public streets in such a manner as to interfere with the free flow of traffic on the streets.
- iii. That the granting of the Variance will not create a safety hazard or any other condition inconsistent with the objectives of this Ordinance.

5. Appeals to Superior Court

A decision of the Board of Adjustment on a Variance may be appealed within thirty (30) days to the Superior Court by the applicant or any other aggrieved person as prescribed in ARS 11-807.

6. Effective Date of Variance

A decision of the Board of Adjustment on a Variance shall be final thirty (30) days after the date of the decision and upon receipt by the Department of Community Development of a signed agreement to the conditions of approval, unless an appeal has been filed.

7. Lapse of Variance

- a. A Variance shall lapse and shall become void one year following the date on which the Variance became effective unless prior to the expiration of one year, a building permit is issued and construction is commenced and diligently pursued toward completion on the site which was the subject of the variance application, or a permit is issued authorizing occupancy of the site or structure which was the subject of the variance application, or the site is occupied if no building permit or Certificate of Occupancy is required.
 - b. A Variance may be renewed for an additional period of one year provided that prior to the expiration of one year from the date when the Variance or the renewal became effective, an application for renewal of the Variance is filed with the Director of Community Development.
 - c. A Variance shall also lapse if the use for which the Variance is approved is terminated for a period of one year. Recommencement of the use after the one year period of inactivity shall require filing a new Variance application according to the process and requirements listed in Sections 5.8.A through 5.8.B.10.
8. A Variance subject to expiration may be renewed, provided that prior to the expiration date, an application for renewal of the Variance is filed with the Board of Adjustment.

The Board of Adjustment may grant or deny an application for renewal of a Variance subject to the modification of existing conditions of approval and/or the addition of new conditions of approval. A primary consideration of renewal is compliance with conditions of approval.

9. Revocation

Failure to comply with any of the conditions of approval is a violation of the Zoning Ordinance and may result in the revocation of a Variance. Revocation shall require a public hearing before the Board of Adjustment Commission in accordance with public notice criteria. The Board of Adjustment shall hold a public hearing within ninety (90) days of sending notice to both applicant and property owner, in accordance with the procedure prescribed in Section 5.8.B.2 (Public Hearing). If not satisfied that the regulation, general provisions, or conditions are being complied with, the Board may revoke the Variance or take such action as may be necessary to ensure compliance with the regulation, general provisions, or conditions. The decision may include time frames for ensuring compliance or decommissioning the project.

10. New Application

Following the denial or revocation of a Variance application, no application for the same or substantially the same Variance on the site or substantially the same site shall be filed within one year from the date of denial or revocation of the Variance.

11. Variance Related to Plans Submitted

Unless otherwise specified at the time a Variance is granted, it shall apply only to the plans and drawings submitted as part of the application.

Section 5.9: Determination as to Uses Not Listed

Section 5.9.A: Purposes

In order to ensure that the zoning regulations will permit all similar Uses in each zone, the Director of Community Development, upon his/her own initiative or upon written request shall determine whether a Use not specifically listed as a permitted or conditional Use in any zone shall be deemed a permitted Use or a conditional Use in any one or more zones on the basis of similarity to Uses specifically listed. The determination of the Community Development Director shall be adopted through the Planning and Zoning Commission consent agenda. The Director of Community Development may request the determination be made directly by the Planning and Zoning Commission. The procedures of this Section shall not be substituted for the amendment procedure as a means of adding new Uses to the list of permitted or conditional uses.

Section 5.9.B: Administration

1. Request for Determination

Requests for determination of similar Uses shall be made in writing to the Director of Community Development and shall include a detailed description of the proposed Use and such other information as may be required by the Director to facilitate the determination.

2. Investigation and Report

The Director of Community Development shall make such investigations of the request as necessary to compare the nature and characteristics of the proposed Use with those Uses specifically listed and shall make a report of his findings to the Planning and Zoning Commission.

3. Determination

The determination of the Director of Community Development and/or the Planning and Zoning Commission shall be effective fifteen (15) days from the date of the decision unless an appeal is filed.

4. Appeal to Board of Supervisors

A decision of the Planning and Zoning Commission may be appealed within fifteen (15) days to the Board of Supervisors by the applicant or any other person, as prescribed in Section 5.5 (Appeals: Board Review), or by any member of the Board of Supervisors without fee.

5. Determination by Board of Supervisors

The Board of Supervisors shall make a determination as prescribed in Section 5.5.B (Board Action on Appeal) if an appeal has been filed within the prescribed fifteen (15) day appeal period or upon the initiative of the Community Development staff. The decision of the Board shall be adopted as a resolution and shall be final.

Section 5.10: Interpretations

Section 5.10.A: Purposes and Authorizations

The Board of Adjustment may interpret the Zoning Ordinance if the meaning of any word, phrase or section is in doubt, if there is a dispute over a staff interpretation or if the location of a district boundary is in doubt. Appeals to the Board of Adjustment may be taken by any person who feels that there is an error or doubt in the interpretation of the ordinance pursuant to ARS § 11-816.

Section 5.10.B: Request for Interpretation

All requests for interpretation shall be made in writing to the Director of Community Development. Interpretations shall be submitted to the Board of Adjustment for review based on their next available calendared meeting.

Section 5.11: Substantive Policy Statement

Section 5.11.A: Purpose and Authority

Substantive policy statements are written expressions intended to inform the general public of the department's current approach to, or opinion of, the requirements of the federal or state constitution, federal or state statute, administrative rule or regulation, or final judgment of a court of competent jurisdiction, including, where appropriate, the agency's current practice, procedure or method of action based upon that approach or opinion. A substantive policy statement is advisory only and does not include internal procedural documents which only affect the internal procedures of the agency and does not impose additional requirements or penalties on regulated parties, confidential information or rules made in accordance with this Ordinance.

Section 5.11.B: Administration

1. Adoption

Substantive policy statements are adopted at the discretion of the Community Development Director. All substantive policy statements are reviewed on an annual basis and updated as required.

2. Access

Substantive policy statements are available for inspection at the Community Development office or on the Coconino County website.

3. Format

All substantive policy statements shall include the effective date, policy number, title, purpose, background, policy statement, and information pertaining to the approval of the substantive policy statement and any previous substantive policy statements affected or revised by the new substantive policy statement.

Section 5.12: Amendments

Section 5.12.A: Purpose

The zoning map and zoning regulations may be amended by changing the boundaries of any zone or by changing any zone regulation or any other provision of this Ordinance in accord with the procedure prescribed in this Section.

Section 5.12.B: Administration

2. Initiation

- a. A change in the boundaries of any zone may be initiated by a property owner or authorized agent of a property owner by filing an application for a change in zone boundaries as prescribed in this Section.
- b. A change in the boundaries of any zone or change in the regulations may be initiated by the Planning and Zoning Commission or the Board of Supervisors.

3. Conformity with Comprehensive Plan

An application for a change in zone classification which does not conform to the land use designation as identified in the Comprehensive Plan shall not be processed until an amendment to the Comprehensive Plan has been filed, as prescribed in Section 5.13.C.1 (Amendments to Comprehensive Plan).

4. Investigation and Report

The Director of Community Development shall make an investigation of the application or proposal and shall prepare a report thereon which shall be submitted to the Planning and Zoning Commission and to the applicant prior to the public hearing.

5. Public Hearing

The Planning and Zoning Commission shall hold at least one public hearing on each application for a change in zone boundaries or for a change of the zoning regulations. The hearing shall be set and notice given as prescribed in Section 5.4 (Public Hearing Time and Notice).

6. Public Hearing Procedure

At the public hearing, the Planning and Zoning Commission shall review the application or the proposal and may receive pertinent evidence as to why or how the proposed change is consistent with the objectives of this Ordinance, the Comprehensive Plan and the development policies of the County.

7. Action by the Planning and Zoning Commission

- a. Within forty (40) days following the closing of the public hearing, the Planning and Zoning Commission shall make a decision based on the following findings:
 1. That the change is consistent with the goals, objectives and policies of the Comprehensive Plan and this Ordinance.
 2. That the change is in the interest of or will further the public health, safety, comfort, convenience and welfare.
 3. That the change will not adversely affect the established character of the surrounding neighborhood nor be detrimental to adjacent properties.

- b. Based on these findings, the Commission shall recommend that the application be approved, approved in modified form, or denied.. Said recommendation shall be transmitted to the Board of Supervisors for final hearing and disposition.

8. Action by the Board of Supervisors

- a. If the Planning & Zoning Commission has held a public hearing, the Board of Supervisors may adopt the recommendations of the commission through use of a consent calendar without holding a second public hearing if there is no objection, request for public hearing or other protest. If there is an objection the Board of Supervisors shall hold at least one public hearing on an application or a proposal within ninety (90) days after the Planning and Zoning Commission hearing. The hearing shall be set and notice given as prescribed in Section 5.4 (Public Hearing Time and Notice). Within forty (40) days following the closing of a public hearing, the Board shall make a decision based on the findings required by Section 5.12.B.7.a.
 - 1. If the Board finds that the change is consistent with the findings required by Section 5.12.B.7.a, it shall approve an ordinance amending the zoning map or zoning regulations, whichever is appropriate.
 - 2. The Board may modify a decision of the Planning and Zoning Commission recommending the granting of an application or adoption of a proposal. However, prior to making a final decision on the amendment or proposal, the Board may, but shall not be required to, submit any or all modifications to the Commission for reconsideration at a public meeting. The Commission may, but is not required to, provide supplemental comments on the modifications to the Board. The Board may consider any supplemental comments from the Commission before making the findings required by Section 5.12.B.7.a and rendering a final decision. Failure of the Commission to report within 30 days after receipt of the Board request shall be deemed concurrency.
 - 3. If the Board finds that the change is not consistent with the findings required by Section 5.12.B.7.a, it shall deny the application or reject the proposal.
- b. In accordance with A.R.S. § 11-814, if twenty percent (20%) of the owners of property by area and number within the zoning area (for the purpose of this Section “zoning area” means the area within three hundred feet of the proposed amendment or change) file a protest to the proposed change, the change shall not be made except by a three-fourths vote of all members of the Board. If any members of the Board are unable to vote on the question because of a conflict of interest, the required number of votes for the passage of the question is three-fourths of the remaining membership of the Board, except that the required number of votes in no event shall be less than a majority of the full membership of the Board. In calculating the owners by area, only that portion of a lot or parcel of record situated within three hundred feet of the property to be rezoned shall be included. In calculating the owners by number or area, County property and public Rights-of-Way shall not be included.

9. New Application

Following the denial of an application for change in zone boundaries or a change in the zoning regulations, an application or request for the same or substantially the same change on the same or substantially same property shall not be filed within one year of the date of denial.

10. Conditional Zoning

The Board may approve a change of zone conditioned on a schedule for development of the specific Use or Uses for which the rezoning is requested. If at the expiration of this period the property has not been improved for the Use for which it was conditionally approved, the Board after notification by registered mail to the owner and applicant who requested the rezoning, shall schedule a public hearing to grant an extension, determine compliance with the schedule for development, or cause the property to revert to its former zoning classification.

11. Change of Zone Accompanied by a Subdivision Plat

When a zone change request is accompanied by a preliminary subdivision plat, the change of zoning shall not vest or become effective until recordation of a final plat.

Section 5.13: Comprehensive Plan

Section 5.13.A: Applicability of State Law

Except as otherwise specifically provided herein, the provisions of the Arizona Revised Statutes, Title 11 relating to the adoption, amendment, effect and all other aspects of comprehensive plans shall apply to Coconino County.

Section 5.13.B: Purposes

Section 5.13.C: Administration

1. Amendments to Comprehensive Plan or ~~Specific~~ Area Plans

- a. The Comprehensive Plan of Coconino County or any part or element thereof or any Specific Plan for individual communities may be amended as frequently in any calendar year as may be determined by the Board of Supervisors to be in the public interest.
- b. An amendment to the Comprehensive Plan or any part or element thereof or any Specific Plan may be initiated by:
 1. The Board of Supervisors;

2. The Planning and Zoning Commission;
 3. The owner of the property in question.
- c. However, any amendment initiated by the property owner shall be made by application. The following information shall be submitted when applying for an Amendment to change any Zoning Ordinance regulation:
1. A completed Coconino County Plan/Ordinance Amendment application form including name and address of the applicant, name of contact person, phone number, fax number and email address, description of the request, and pre-application meeting date.
 2. A typewritten narrative describing the request and the precise manner of compliance with each of the applicable provisions of this Section, together with any other data pertinent to the findings prerequisite to the granting of an amendment.
 3. Documentation shall be provided in a written description as well with supplemental data to show overall compliance with the Coconino County Comprehensive Plan.
 4. A citation of the specific section(s) of the applicable Plan to be amended and specific language proposed.
 5. The application shall be accompanied by a fee established by resolution of the Board of Supervisors to cover the cost of processing the application as prescribed in this Section.
- d. Any hearing held in conjunction with an amendment to the Zoning Ordinance for the purpose of bringing zoning into consistency with the Comprehensive Plan or a Specific Plan may be held at any time after the date on which an amendment to the Comprehensive Plan or any part or element thereof or any Specific Plan has been recommended for adoption by the Planning and Zoning Commission; provided, however, that no such amendment to the Zoning Ordinance shall be adopted by the Board of Supervisors until the Board has first adopted the appropriate amendment to the Comprehensive Plan or applicable Specific Plan.
2. Amendment Review Timeframes
- a. Administrative completeness pursuant to ARS § 11-605 shall be determined within 60 calendar days of the submittal of an amendment application. Applicants will be notified in writing of an incomplete application with a list of deficiencies. Notice in writing of application deficiencies shall suspend the administrative completeness timeframe until such time as all deficiencies have been addressed.
 - b. Substantive review of all amendment applications shall be completed within 250 calendar days from the determination that the amendment application is administratively complete. One written request for additional information may be made to the applicant during this

review process. The substantive review includes investigation and report on the case, public hearing, action of the Planning & Zoning Commission, and action by the Board of Supervisors. The applicant may waive the timeframe constraints of this review.

3. Investigation and Report

The Director of Community Development shall make an investigation of the application or proposal and shall prepare a report thereon which shall be submitted to the Planning and Zoning Commission and to the applicant prior to the public hearing.

4. Public Hearing

The Planning and Zoning Commission shall hold at least one public hearing on each application for a change in zone boundaries or for a change of the zoning regulations. The hearing shall be set and notice given as prescribed in Section 5.4 (Public Hearing Time and Notice).

5. Public Hearing Procedure

At the public hearing, the Planning and Zoning Commission shall review the application or the proposal and may receive pertinent evidence as to why or how the proposed change is consistent with the objectives of this Ordinance, the Comprehensive Plan and the development policies of the County.

6. Action by the Board of Supervisors

If the Planning & Zoning Commission has held a public hearing, the Board of Supervisors may adopt the recommendations of the commission through use of a consent calendar without holding a second public hearing if there is no objection, request for public hearing or other protest. If there is an objection the Board of Supervisors shall hold at least one public hearing on an application or a proposal within ninety (90) days after the Planning and Zoning Commission hearing. The hearing shall be set and notice given as prescribed in Section 5.4 (Public Hearing Time and Notice). Within forty (40) days following the closing of a public hearing, the Board shall make a decision on the amendment.

ENFORCEMENT

Section 5.14: Enforcement

Section 5.14.A: Purpose & Scope

This section identifies what constitutes a violation of this Ordinance, establishes penalties and remedies, and authorizes enforcement procedures.

Section 5.14.B: Violation

Pursuant to A.R.S. § 11-815:

- a. It shall be a violation of this Ordinance to erect, construct, reconstruct, alter or use a building or any other structure without first obtaining a building permit.
- b. It shall be a violation of this Ordinance, and considered a public nuisance per se to make any Use of any Lot, parcel, or piece of property in such a way as to conflict with the provisions of this Ordinance.
- c. Each day during which an illegal erection, construction, reconstruction, alteration, maintenance, or Use continues is a separate offense.

Section 5.14.C: Enforcement

1. Zoning Inspection and Investigation

- a. The Board of Supervisors, Director of Community Development, County Attorney, County Sheriff, Zoning Inspector, and all officers of Coconino County otherwise charged with the enforcement of the law are responsible for the enforcement of the provisions of this Ordinance
- b. Zoning Inspector
 1. The Zoning Inspector, also known as the Compliance Manager, shall administer and enforce this Ordinance. The Zoning Inspector shall:
 2. Receive and investigate allegations of violations of this Ordinance.
 - i. Make necessary inspections to secure compliance with the provisions of this Ordinance.
 - ii. Make investigations in connection with any matter referred to in this Ordinance and render written reports thereof when requested by the Board of Supervisors, or when the interests of Coconino County so require.
 - iii. Issue such notices or orders as may be necessary for the purpose of enforcing compliance with the provisions of this Ordinance.

- iv. Keep careful and comprehensive records of all alleged violations of this Ordinance, including comprehensive notes as to the condition and existing Uses of the subject property, location, property owner and address, and specific section(s) of the Ordinance corresponding to the alleged violation. The Zoning Inspector shall further retain on file, copies of all papers for such time as may be required by law.
- c. Deputy Zoning Inspector
- 1. Deputy Zoning Inspectors, also identified as Code Enforcement Officers, shall be appointed by the Coconino County Board of Supervisors as needed to assist the Zoning Inspector. The Deputy Zoning Inspector shall:
 - i. Investigate and report on all allegations of zoning violations as assigned by the Zoning Inspector.
 - ii. Determine whether a condition or existing Use constitutes a violation of this Ordinance.
 - iii. When the Deputy Zoning Inspector confirms that a condition or existing Use constitutes a violation of this Ordinance, the Deputy Zoning Inspector may:
 - a. Serve notice of the violation to the Alleged Violator. The notice shall cite:
 - 1. The nature of the violation,
 - 2. The section of the Ordinance violated,
 - 3. Information of possible penalties if violation is not ceased,
 - 4. Steps necessary to bring the subject property into compliance with this Ordinance, and
 - 5. A reasonable timeframe in which all necessary actions should be completed to correct the noticed violation.
 - b. Re-inspect the subject property upon the expiration of the reasonable timeframe provided in accordance with Section 5.14.C.1.c.1.iii.a.5.
 - c. Provide, for those violations not remedied within the timeframe provided in e of violation setting a final deadline for compliance.
 - 1. The final deadline for compliance shall not exceed four (4) weeks.
 - 2. Extend the final deadline for compliance, where the property owner demonstrates, with reasonable documentation, an effort to correct the existing violation(s)

- d. Issue citations for violations of this Ordinance not corrected by the final deadline provided in accordance with Section 5.14.C.1.c.1.iii.c.1. The citation shall include:
 - 1. The nature of the violation.
 - 2. The section(s) of this Ordinance which has/have been violated.
 - 3. Possible penalties that can be assessed by the Hearing Officer.
- e. Serve, together with the citation, a notice to appear before the Hearing Officer, in accordance with A.R.S. § 11-815(E). The notice to appear shall:
 - 1. Include the specific date and time at which the alleged violator must appear at the Zoning Violation Hearing.
 - 2. Include information regarding the right to be represented by counsel or other designated representative and that failure to provide timely written notification of an election to be represented by counsel or other designated representative constitutes a waiver of that right.
 - 3. If the Deputy Zoning Inspector is unable to personally serve the notice, the notice may be served by any form of mail requiring a signed and returned receipt, or in the same manner prescribed for alternative methods of service by the Arizona Rules of Civil Procedure, provided that a notice by means other than personal service must be affected at least thirty (30) days before the hearing.
- f. Present evidence showing the existence of a violation, or testimony showing the existence of a violation when the County Attorney presents evidence on behalf of the Zoning Inspector, in accordance with A.R.S. § 11-815(F).

2. Hearings

a. Hearing Officer

The Hearing Officer is appointed by the Coconino County Board of Supervisors to hear and decide all civil proceedings established by this Ordinance.

b. The Hearing Officer shall:

- 1. Preside over Zoning Violation Hearings
- 2. Decide all objections as to the relevance of evidence or testimony presented during a Zoning Violation Hearing.

3. Determine responsibility for alleged zoning violations.
 4. Impose civil penalties for zoning violations, pursuant to Section 5.14.C.2.d.2.i.b or with Section 5.14.C.4.a.3.i.
 5. Include in all findings of responsibility, pursuant to Section 5.14.C.2.d.2.i.b or Section 5.14.C.2.d.8.ix, a non-compliance and daily penalty schedule to accrue should the violation(s) not be abated by the compliance date specified by the Hearing Officer.
- c. The Hearing Officer may:
1. Continue Zoning Violation Hearings at the request of either party for good cause shown.
 - i. The Hearing Officer shall not continue a hearing without first giving notice to both parties.
 - ii. The Hearing Officer shall notify both parties in writing of the new hearing date.
 2. Question witnesses or representatives of either party during a Zoning Violation Hearing.
 3. Attach a recurrence penalty to a parcel for a maximum of two (2) years from the hearing date. Said penalty shall be levied according to the recall procedure in Section 5.14.C.2.e if a violation of the same section of this Ordinance, as addressed in the Hearing Officer's findings, occurs within the specified time period.
- d. Zoning Violation Hearings
1. Every action or proceeding brought before the Hearing Officer for a violation of this Ordinance shall be commenced by the filing of a copy of the notice to appear, as provided by Section 5.14.C.1.c.1.iii.e, and a copy of the citation, as provided by 5.14.C.1.c.1.iii.d, with the Hearing Clerk.
 2. The alleged violator shall, no later than 15 days after service of citation, submit an admission or denial of responsibility.
 - i. When an alleged violator submits an admission of responsibility:
 - a. The Hearing Officer shall waive the initial fee of \$100.
 - b. The Hearing Officer shall enter a finding of responsibility against the alleged violator providing 30 days to remedy the violation(s), unless extraordinary circumstances warrant an extension.
 - c. The Hearing Officer shall vacate the Zoning Violation Hearing.

- ii. When an alleged violator submits a denial of responsibility:
 - a. The Hearing Officer shall promptly notify the alleged violator of the right to be represented by counsel.
 - b. The alleged violator must then notify the Hearing Officer in writing at least ten (10) days prior to the hearing date of his or her choice to be represented by counsel.
3. Failure to respond with either an admission or denial of responsibility is deemed admission by default.
4. If the alleged violator submits a denial of responsibility, the alleged violator, or his or her representative or attorney must appear at the Zoning Violation Hearing.
5. If the alleged violator, or his or her representative or attorney, fails to appear at the Zoning Violation Hearing, the violation(s) alleged in the citation shall be deemed admitted and the Hearing Officer shall enter a finding of responsibility against the alleged violator and impose a penalty pursuant to Section 5.14.C.4.a.2 of this Ordinance.
6. The County need not be represented by counsel at the Zoning Violation Hearing. Should the County elect to secure counsel, the County must, in writing, notify the Hearing Officer and the alleged violator at least fifteen (15) days prior to the hearing.
7. No later than ten (10) days prior to the hearing, both parties shall disclose a list of witnesses and prepared exhibits to the opposing party and shall place prepared exhibits on file with the Hearing Clerk.
8. At the Hearing Officer's discretion, a failure to comply with Section 5.14.2.d.7 may result in either the granting of a continuance to permit inspection, or the Hearing Officer shall deny the admission of the evidence.

ENCROACHMENT, FLOODPLAIN means the advance or infringement of Uses, plant growth, fill, excavation, Buildings, permanent Structures or development into a Floodplain which may impede or alter the flow capacity of a Floodplain.

EXISTING MANUFACTURED HOME PARK or SUBDIVISION means a Manufactured Home Park or Subdivision for which the construction of facilities for servicing the Lots on which the Manufactured Homes are to be affixed (including, at a minimum, the installation of utilities, the construction of Streets, and either final site grading or the pouring of concrete slabs) is completed before the effective date of the Floodplain management regulations adopted by the Community.

FINANCIAL ASSISTANCE means any form of loan, grant, guaranty, insurance, payment, re-bate, subsidy, disaster assistance loan or grant, or any other form of direct or indirect federal assistance, other than general or special revenue sharing or formula grants made to States.

FLOOD or FLOODING means a general and temporary condition of partial or complete inundation of normally dry land areas from (1) the overflow of Flood waters, (2) the unusual and rapid accumulation or runoff of surface waters from any source, and/or (3) the collapse or subsidence of land along the shore of a lake or other body of water as a result of Erosion or undermining caused by waves or currents of water exceeding

anticipated cyclical levels or suddenly caused by an unusually high water level in a natural body of water, accompanied by a severe storm, or by an unanticipated force of nature, such as flash Flood or an abnormal tidal surge, or by some similarly unusual and unforeseeable event which results in Flooding as defined in this definition.

FLOOD INSURANCE RATE MAP (FIRM) means the official map on which the Federal Emergency Management Agency or Federal Insurance Administration has delineated both the Special Flood Hazard Areas and the risk premium zones applicable to the Community.

FLOOD INSURANCE STUDY means the official report provided by the Federal Insurance Administration that includes Flood profiles, the FIRM, the Flood Boundary and Floodway Map, and the water surface elevation of the base Flood.

FLOODPLAIN or FLOOD-PRONE AREA means any land area susceptible to being inundated by water from any source (see definition of “Flood”).

FLOODPLAIN ADMINISTRATOR means the Director of Community Development who is hereby authorized by the Floodplain Board to administer and enforce the provisions of this Ordinance.

FLOODPLAIN BOARD means the Board of Directors of the Flood Control District of Coconino County at such times as they are engaged in the enforcement of this Ordinance.

FLOODPLAIN MANAGEMENT means the operation of an overall program of corrective and preventive measures for reducing Flood damage and preserving and enhancing, where possible, natural resources in Floodplains, including but not limited to emergency preparedness plans, Flood control works and Floodplain Management Regulations.

FLOOD PLAIN MANAGEMENT REGULATIONS means this Ordinance and other Zoning ordinances, Subdivision regulations, Building codes, health regulations, special purpose ordinances (such as Floodplain ordinance, grading ordinance and Erosion control ordinance) and other applications or police power which control development in Flood-prone areas. This term describes federal, state or local regulations in any combination thereof, which provide standards for preventing and reducing Flood loss and damage.

FLOOD PROTECTION SYSTEM means those physical structural works for which funds have been authorized, appropriated, and expended and which have been constructed specifically to modify Flooding in order to reduce the extent of the area within a community subject to “Special Flood Hazard” and the extent of the depths of associated Flooding. Such a system typically includes dams, reservoirs, levees or dikes. These specialized Flood modifying works are those constructed in conformance with sound engineering standards.

FLOOD PROOFING means any combination of structural and non-structural additions, changes, or adjustments to Structures which reduce or eliminate Flood damage to real estate or improved real property, water and sanitary facilities, Structures and their contents.

FLOOD-RELATED EROSION means the collapse or subsidence of land along the shore of a lake or other body of water as a result of undermining caused by waves or currents of water exceeding anticipated cyclical levels or suddenly caused by an unusually high water level in a natural body of water, accompanied by a severe storm, or by an unanticipated force of nature, such as flash flood or an abnormal tidal surge, or by some similarly unusual and unforeseeable event which results in Flooding.

FLOOD-RELATED EROSION AREA MANAGEMENT means the operation of an overall program of corrective and preventive measures for reducing Flood-related Erosion damage, including, but not limited to, emergency preparedness plans, Flood-related Erosion control works, and Floodplain Management Regulations.

FLOODWAY means the channel of a river or other Watercourse and the adjacent land areas that must be reserved in order to discharge the Base Flood without cumulatively increasing the water surface elevation more than a designated height. Also referred to as “Regulatory Floodway”

FLOODWAY FRINGE is that area of the Floodplain on either side of the “Regulatory Floodway” where encroachment may be permitted.

FREEBOARD means a factor of safety usually expressed in feet above a Flood level for purposes of Floodplain Management. “Freeboard” tends to compensate for the many unknown factors that could contribute to Flood heights greater than the height calculated for a selected size Flood and Floodway conditions, such as wave action, bridge openings, and the hydrological effect of urbanization of the watershed.

FUNCTIONALLY DEPENDENT USE means a Use which cannot perform its intended purpose unless it is located or carried out in close proximity to water. The term includes only docking facilities, port facilities that are necessary for the loading and unloading of cargo or passengers, and ship Building and ship repair facilities, but does not include long-term storage or related manufacturing facilities.

HARDSHIP as related to Section 2.15.B, Variances, of this Ordinance means the exceptional hardship that would result from a failure to grant the requested Variance. The governing body requires that the hardship be exceptional, unusual, and peculiar to the property involved. Mere economic or financial hardship alone is not exceptional. Inconvenience, aesthetic considerations, physical handicaps, personal preferences, or the disapproval of one’s neighbors likewise cannot, as a rule, qualify as an exceptional hardship. All of these problems can be resolved through other means without granting a variance, even if the alternative is more expensive, or requires the property owner to build elsewhere or put the parcel to a different use than originally intended.

HIGHEST ADJACENT GRADE means the highest natural elevation of the ground surface prior to construction next to the proposed walls of a Structure.

LEVEE means a human-made Structure, usually an earthen embankment, designed and constructed in accordance with sound engineering practices to contain, control, or divert the flow of water so as to provide protection from temporary Flooding.

LEEVE SYSTEM means a Flood Protection System which consists of a Levee, or Levees, and associated Structures, such as closure and drainage devices, which are constructed and operated in accordance with sound engineering practices.

LOWEST FLOOR means the lowest floor of the lowest enclosed area (including Basement). An unfinished or Flood resistant enclosure, usable solely for parking of vehicles, Building Access or storage in an area other than a Basement area is not considered a Building's lowest floor; provided, that such enclosure is not built so as to render the Structure in violation of the applicable non-elevation design requirements of this Ordinance.

MANUFACTURED HOME, FLOODPLAIN means a Structure, transportable in one or more sections, which is built on a permanent chassis and is designed for use with or without a permanent foundation when connected to the required utilities. The term "Manufactured Home" does not include a "Recreational Vehicle".

MANUFACTURED HOME PARK OR SUBDIVISION, FLOODPLAIN means a parcel (or contiguous parcels) of land divided into two or more Manufactured Home Lots for sale or rent.

MARKET VALUE shall be determined by estimating the cost to replace the Structure in new condition and adjusting that cost figure by the amount of depreciation which has accrued since the Structure was constructed. The cost of replacement of the Structure shall be based on a square foot cost factor determined by reference to a Building cost estimating guide recognized by the Building construction industry. The amount of depreciation shall be determined by taking into account the age and physical deterioration of the structure and functional obsolescence as approved by the Floodplain Administrator, but shall not include economic or other forms of external obsolescence. Use of replacement costs or accrued depreciation factors different from those contained in recognized Building cost estimating guides may be considered only if such factors are included in a report prepared by an independent professional appraiser and supported by a written explanation of the differences.

MEAN SEA LEVEL means, for purposes of the National Flood Insurance Program, the National Geodetic Vertical Datum (NGVD) of 1929, North American Vertical Datum (NAVD) of 1988, or other datum, to which Base Flood Elevations shown on a community's Flood Insurance Rate Map are referenced.

MUDSLIDE (i.e., mudflow) describes a condition where there is a river, flow or inundation of liquid mud down a hillside usually as a result of a dual condition of loss of brush cover, and the subsequent accumulation of water on the ground preceded by a period of unusually heavy or sustained rain. A Mudslide (i.e., mudflow) may occur as a distinct phenomenon while a landslide is in progress, and will be recognized as such by the Administrator only if the mudflow, and not the landslide, is the proximate cause of damage that occurs.

MUDSLIDE (i.e., MUDFLOW) AREA MANAGEMENT means the operation of an overall program of corrective and preventive measures for reducing Mudslide (i.e.,

mudflow) damage, including, but not limited to, emergency preparedness plans, mudslide control works, and Floodplain Management Regulations.

MUDSLIDE (i.e., MUDFLOW) PRONE AREA means an area with land surfaces and slopes of unconsolidated material where the history, geology and climate indicate a potential for mudflow.

NEW CONSTRUCTION, FLOODPLAIN means, for the purposes of determining insurance rates, Structures for which the “start of construction” commenced on or after the effective date of an initial FIRM or after December 31, 1974, whichever is later, and includes any subsequent improvements to such Structures. For Floodplain Management purposes, “New Construction” means Structures for which the “start of construction” commenced on or after the effective date of a Floodplain Management Regulation adopted by the Flood Control District and includes any subsequent improvements to such Structures

NEW MANUFACTURED HOME PARK or SUBDIVISION means a Manufactured Home Park or subdivision for which the construction of facilities for servicing the Lots on which the Manufactured Homes are to be affixed (including at a minimum, the installation of utilities, the construction of Streets, and either final site grading or the pouring of concrete pads) is completed on or after the effective date of Floodplain Management Regulations adopted by the community

OBSTRUCTION includes, but is not limited to, any dam, wall, wharf, embankment, levee, dike, pile, abutment, protection, excavation, channelization, bridge, conduit, culvert, Building, wire, fence, rock, gravel, refuse, fill, Structure, vegetation, or other material in, along, across, or projecting into any Watercourse which may alter, impede, retard or change the direction and/or velocity of the flow of water, or due to its location, its propensity to snare or collect debris carried by the flow of water, or its likelihood of being carried downstream.

ONE HUNDRED YEAR FLOOD means the Flood having a one percent chance of being equaled or exceeded in any given year (see “BASE FLOOD”).

PERSON, FLOODPLAIN means an individual or his agent, firm, partnership, association or corporation, or agent of the aforementioned groups, or this state or its agencies or political subdivisions.

PROGRAM, FLOODPLAIN means the National Flood Insurance Program authorized by 42 U.S.C. 4001-4128.

PROGRAM DEFICIENCY means a defect in a community’s Floodplain Management Regulations or administrative procedures that impairs effective implementation of those Floodplain Management Regulations or of the NFIP standards.

RECREATIONAL VEHICLE, FLOODPLAIN means a vehicle which is: built on a single chassis; 400 square feet or less when measured at the largest horizontal projection; designed to be self-propelled or permanently towable by a light duty truck; and designed primarily not for use as a permanent dwelling but as a temporary living quarters for recreational, camping, travel or seasonal use.

REGULATORY FLOOD ELEVATION means an elevation one foot above the Base Flood Elevation for a Watercourse for which the Base Flood Elevation has been determined and shall be as determined by the criteria developed by the director of water resources for all other Watercourses.

REGULATORY FLOODWAY means the channel of a river or other Watercourse and the adjacent land areas that must be reserved in order to discharge the Base Flood without cumulatively increasing the water surface elevation more than a designated height.

REMEDY A VIOLATION means to bring the Structure or other development into compliance with State or local Floodplain Management Regulations, or, if this is not possible, to reduce the impacts of its noncompliance. Ways that impacts may be reduced include protecting the Structure or other affected development from Flood damages, implementing the enforcement provision of this Ordinance or otherwise deterring future similar violations, or reducing federal financial exposure with regard to the Structure or other development.

REPETITIVE LOSS STRUCTURE means a Structure, covered by a contract for flood insurance issued pursuant to the National Flood Insurance Act, that has incurred Flood-related damage on two occasions during any 10-year period ending on the date of the event for which a second claim is made, in which the cost of repairing the Flood damage, on average, equaled or exceeded 25% of the market value of the Structure at the time of each such Flood event.

RIVERINE means relating to, formed by, or resembling a river (including tributaries), stream, brook, etc.

SHEET FLOW AREA (see “AREA OF SHALLOW FLOODING”).

SPECIAL FLOOD HAZARD AREA means an area in the Floodplain subject to a 1 percent or greater chance of Flooding in any given year. It is shown a Flood Insurance Rate Map as Zone A, AO, A1-30, AE, A99, or AH.

START OF CONSTRUCTION, FLOODPLAIN includes substantial improvement and other proposed development, and means the date the Building Permit was issued, provided the actual start of construction, repair, reconstruction, rehabilitation, addition, placement, or other improvement was within 180 days of the permit date. The actual start means either the first placement of permanent construction of a Structure on a site, such as the pouring of slab or footings, the installation of piles, the construction of columns, or any work beyond the stage of excavation; or the placement of a Manufactured Home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of Streets and/or walkways; nor does it include excavation for a Basement, footings, piers, or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory Buildings, such as Garages or sheds not occupied as Dwelling Units or not part of the main Structure. For a substantial improvement, the actual start of construction means the first alteration of any wall, ceiling, floor or other structural part of a Building, whether or not that alteration affects the external dimensions of the Building.

STRUCTURE, FLOODPLAIN means a walled and roofed building that is partially above ground, including a gas or liquid storage tank that is principally above ground, as well as a Manufactured Home.

SUBSTANTIAL DAMAGE means damage of any origin sustained by a Structure whereby the cost of restoring the Structure to its before damaged condition would equal or exceed 50 percent of the market value of the Structure before the damage occurred.

SUBSTANTIAL IMPROVEMENT means any reconstruction, rehabilitation, addition or other improvement of a Structure, the cost of which equals or exceeds 50 percent of the market value of the Structure before the “start of construction” of the improvement. This term includes Structures which have incurred “Substantial Damage”, regardless of the actual repair work performed. The term does not, however, include either (1) any project for improvement of a Structure to correct existing violations of state or local health, sanitary, or safety code specifications which have been identified by the local code enforcement official and which are the minimum necessary to assure safe living conditions or (2) any alteration of a “Historic Structure”, provided that the alteration will not preclude the Structure’s continued designation as a “Historic Structure.”

VARIANCE shall mean a grant of relief from certain requirements of this Ordinance which permits development in a manner that would otherwise be restricted by this Ordinance.

VIOLATION means the failure of a Structure or other development to be fully compliant with the community’s Floodplain Management Regulations. A Structure or other development without the elevation certificate, other certifications, or other evidence of compliance required in this Ordinance is presumed to be in violation until such time as that documentation is provide

WATER SURFACE ELEVATION means the height, in relation to the National Geodetic Vertical Datum (NGVD) of 1929, North American Vertical Datum (NAVD) of 1988, (or other datum, where specified) of Floods of various magnitudes and frequencies in the Floodplains of Riverine areas.

WATERCOURSE shall mean any lake, river, creek, stream, wash, arroyo, channel, or other topographic feature on or over which waters flow at least periodically. The term may include specifically designated areas in which substantial flood damage may occur.

WATERCOURSE MASTER PLAN means a hydraulic plan for a Watercourse that examines the cumulative impacts of existing development and future encroachment in the Floodplain and future development in the watershed on potential Flood damages, and establishes technical criteria for subsequent development so as to minimize potential Flood damages for all Flood events up to and including the One Hundred-Year Flood.

FLOOR AREA shall mean the total area of a Building measured by taking the outside dimensions of the Building at each floor level intended for occupancy or storage, but excluding courts, Carports, and Garages used for the parking of motor vehicles.

FLYWAY BARRIER: A solid wall, fence, dense vegetation, or combination of these materials at least six feet high that extends at least 10 feet beyond the hives on each end of a bee colony.

FOREST MATERIALS STORAGE AND VALUE-ADDED PRODUCTION shall mean any storage, processing or reuse of forest materials including but not limited to wood chips, poles, compost, mulch and bio-fuels.

FRONTAGE shall mean that side of a Lot abutting a Street.

GARAGE, PRIVATE shall mean a detached Accessory Building or a portion of a main Building on the same Lot for the parking and temporary storage of vehicles of the occupants of the premises.

GARDENING shall mean areas where residents and neighbors have the opportunity to contribute and manage the cultivation of plants, vegetables, and fruits.

GOVERNING BODY is the local governing unit, i.e. county or municipality, that is empowered to adopt and implement regulations to provide for the public health, safety and general welfare of its citizenry

GRAZING shall mean the feeding of domestic Livestock on an open range or fenced pasture for commercial purposes and uses customarily incidental thereto, but not including slaughterhouses, Feedlots, stockyards, packing houses, bone yards, or plants for the reduction of animal matter.

GROSS AREA shall mean the total horizontal area within the Lot lines of a Lot or parcel of land before public streets, easements or other areas to be dedicated or reserved for public use are deducted from such Lot or parcel.

GROSS VEHICLE WEIGHT shall mean the weight of the vehicle or vehicle combination together with the weight of the maximum load to be carried thereon at any one time; or, the declared gross weight per current vehicle registration.

GROUND COVER shall mean low growing plant materials intended to spread over the ground, and which typically grow to a height of 2 ½' or less. Also, organic or inorganic materials such as bark, crushed rock, cinders, or other similar materials typically use in Landscaped Areas between plantings.

GROUP HOME FOR THE DISABLED shall mean a Dwelling Unit that is licensed or authorized by a governmental authority having jurisdiction over operations for 10 or fewer disabled persons who reside together as a single housekeeping unit and who receive care, supervision, or counseling from one or more staff persons. This Use includes assisted-living homes, homes for the mentally ill, group care agencies and similar residential living arrangements for disabled persons, but shall not include boarding houses, nursing homes, or other group homes not for the disabled. A facility is not a Group Home for the Disabled unless it meets the provisions of Title VII of the Civil Rights Act of 1968 as amended by the Fair Housing Act.

GROUP HOMES, OTHERS shall mean a Dwelling in which persons reside while receiving therapy or counseling to assist them in adjusting to society after or during imprisonment

through such means as pre-release, work-release, or probationary programs. This category does not include a Group Home for the Disabled.

GUEST HOUSE shall mean a detached habitable Structure used by members of the Family occupying the main Dwelling and their nonpaying guests.

HEARING CLERK shall mean the person, or persons, responsible for the receipt of reports from the Zoning Inspector of Code Enforcement Officer that a violation of the Zoning Ordinance exists, schedules Zoning Hearings, and develops and maintains the files of the Hearing Officer.

HEARING OFFICER shall mean a person, or persons, appointed by the Board of Supervisors pursuant to A.R.S. 11-815(E) to hear and determine whether a violation of the Zoning Ordinance exists, and if a violation is found to exist, impose civil penalties in accordance with Section 5.14.C.4 of the Zoning Ordinance.

HEIGHT, TOWER means the vertical distance from the preexisting Grade at the base of the Tower to the highest point of the Tower including Antennas.

HELIPORT shall mean any area which is used for the landing and taking off of helicopters.

HISTORIC STRUCTURE means any Structure that is:

1. Listed individually in the National Register of Historic Places (a listing maintained by the Department of Interior) or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing on the National Register.
2. Certified or preliminarily determined by the Secretary of the Interior as contributing to the historical significance of a registered historic district or a district preliminarily determined by the Secretary to qualify as a registered historic district.
3. Individually listed on a state inventory of historic places in states with historic preservation programs which have been approved by the Secretary of the Interior; or
4. Individually listed on a local inventory of historic places in communities with historic preservation programs that have been certified either;
5. By an approved state program as determined by the Secretary of the Interior; or
6. Directly by the Secretary of the Interior in states without approved programs.

HOME OCCUPATION shall mean any Use customarily conducted entirely within a Dwelling and carried on solely by the inhabitants thereof, which use is clearly incidental and secondary to the Use of the Structure for Dwelling purposes and which use does not change the character thereof or does not adversely affect the uses permitted in the zone of which it is a part. A Home Occupation shall meet all of the requirements of 24.2.

HOSPITAL/HEALTH CLINIC shall mean an institution for the diagnosis, care, and treatment of human illness, including surgery and primary treatment.

HOTEL - MOTEL shall mean a Structure or portion thereof or a group of attached or Detached Structures containing completely furnished individual guest rooms or suites typically occupied less than thirty (30) days, by any one individual or group of individuals, for compensation.

INTENDED USE shall mean a new Use that is not currently taking place on a property but that will begin on the property within a reasonable amount of time as determined solely by the Director of Community Development. A Use is not an Intended Use unless progress toward the new Use is indicated by objectively verifiable evidence.

INOPERABLE VEHICLE shall mean any whole, dismantled or partially dismantled, vehicle which can not be started and driven under its own power.

INSTALLED means attached, or fixed in place, whether or not connected to a power source.

INSTITUTIONAL RESIDENCE shall mean facilities for living, sleeping and sanitation and may include facilities for eating and cooking, for occupancy by other than a Family.

INVASIVE SPECIES shall mean an alien (non-native) species whose introduction does or is likely to cause economic or environmental harm or harm to human health and which tend to disrupt natural ecosystems by displacing native species.

JUNK YARD shall mean the use of more than the allowable square footage of any Lot or parcel of land regardless of Zone classification for the outdoor storage of any used or secondhand materials, including but not limited to lumber, auto parts, household appliances, pipe, fencing, drums, machinery or furniture.

KENNEL, COMMERCIAL shall mean any Kennel maintained for the purpose of boarding, breeding, raising or training dogs or cats for a fee or for sale.

KENNEL, NONCOMMERCIAL shall mean any property where five or more dogs and/or cats, over the age of four months, are kept or maintained for the use and enjoyment of the occupant for noncommercial purposes.

KITCHEN shall mean any room or portion thereof in a Building or Dwelling unit which is used or intended to be used for cooking or the preparation of food.

LANDSCAPE AREA shall mean that part of the property exclusively set aside for living plant materials and associated non-living ornamental materials such as mulch, fencing, walls or decorative rock.

LANDSCAPING shall mean the placement of living plant materials including trees, shrubs, vegetative and organic or inorganic materials in a prescribed area. Organic and inorganic materials include gravel, cinders, rock and bark materials.

LARGE RETAIL ESTABLISHMENT shall mean a retail establishment (store) with any commercial retail uses or a combination of such commercial retail uses comprised of greater than 25,000 square feet and less than 70,000 square feet of gross floor area. The 25,000 square feet of floor area includes gross floor area and ancillary outdoor storage or merchandise display areas. The floor area does not include motor vehicle parking or loading areas. For the purpose of determining the applicability of the 25,000 square foot of floor area, the aggregate square footage of all adjacent stores which share common

check stands, management, a controlling ownership interest, and storage areas, shall be considered one establishment, e.g. a plant nursery associated with a general merchandise area such as a home improvement area.

LIGHTING DEFINITIONS

CLASS 1 LIGHTING means all outdoor lighting used for but not limited to outdoor sales or eating areas, assembly or repair areas, advertising and other Signs, Recreational Facilities and other similar applications where **COLOR RENDITION IS IMPORTANT** to preserve the effectiveness of the activity.

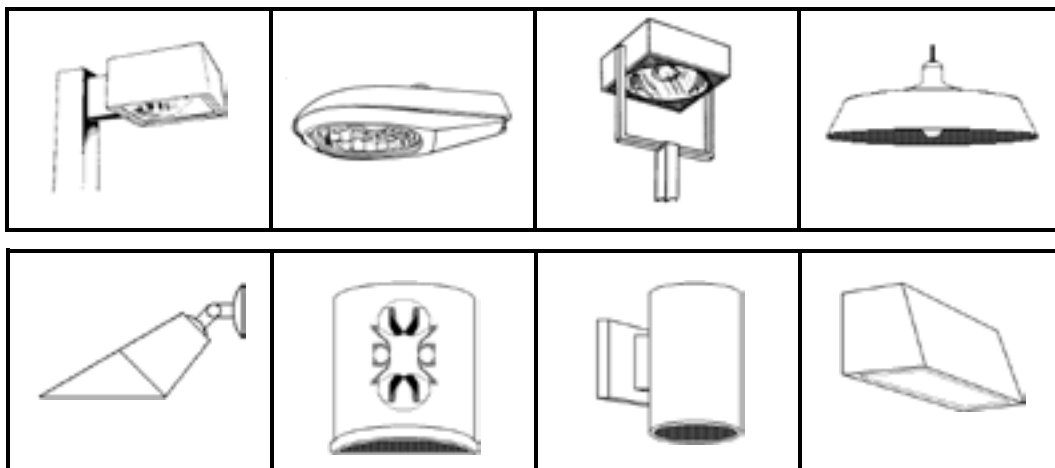

CLASS 2 LIGHTING means all outdoor lighting used for but not limited to illumination for walkways, roadways, equipment yards, parking lots and outdoor security where **GENERAL ILLUMINATION** of the grounds is the primary concern.

CLASS 3 LIGHTING means any outdoor lighting used for **DECORATIVE** effects, including but not limited to architectural illumination, flag and monument lighting, and illumination of trees, bushes, landscape features, etc.

DIRECT ILLUMINATION means illumination resulting from light emitted directly from a lamp or Luminaire, not light diffused through translucent Signs or reflected from other surfaces such as the ground or Building faces.

FIXTURE, FULLY SHIELDED means a light fixture or luminous tube constructed and mounted such that all light emitted by the fixture or tube, either directly from the lamp, tube, or a diffusing element, or indirectly by reflection or refraction from any part of the Luminaire, is projected below the horizontal.

1. A practical working way to determine if a fixture or tube is fully shielded: if the lamp or tube, any reflective surface, or lens cover (clear or prismatic) is visible when viewed from above or directly from the side, from any angle around the fixture or tube, the fixture or tube is not fully shielded.
2. Examples of fixtures that are Fully Shielded (Note: to be fully shielded these fixtures must be closed on top and mounted such that the bottom opening is horizontal):

3. Examples of fixtures that are NOT Fully Shielded:

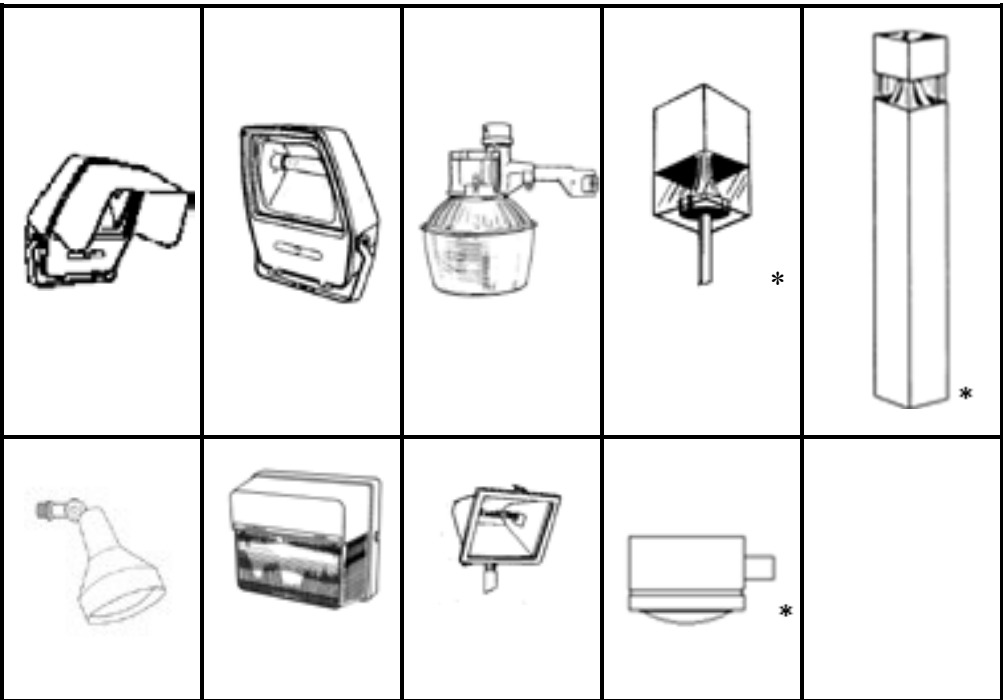

Table
Note:
Even
though
the
lamp in
these

fixtures is shielded from direct view when viewed from the side or above, reflective surfaces and/or lens covers are directly visible from the side.

Note for luminous (neon) tubes: when such lighting is installed under or behind a roof overhang, if the roof-line or eave is not horizontal the tubing may be visible from above when viewed from the side and therefore be unshielded.

HIGH-PRESSURE SODIUM is a type of lamp using sodium and mercury vapor at high pressure to produce light.

HPS = high-pressure sodium.

LOW-PRESSURE SODIUM is a type of lamp using sodium vapor at low pressure to produce light.

LPS = low-pressure sodium.

LUMEN is the unit used to measure the actual amount of visible light that is produced by a lamp.

LUMINAIRE means the complete lighting assembly, including the lamp, housing, shields, lenses and associated electronics, less the support assembly. A light fixture.

LUMINOUS TUBE means a glass tube filled with a gas or gas mixture (including neon, argon, mercury or other gasses), usually of small diameter (10-15 millimeter), caused to emit light by the passage of an electric current, and commonly bent into various forms for use as decoration or signs. A “neon” tube does not include common fluorescent lamps.

LIGHT POLLUTION is any adverse effect of manmade lighting; light where it is not needed or wanted; wasted light.

METAL HALIDE is a type of lamp using mercury and metal halide(s) to produce light.

MH = metal halide.

OUTDOOR LIGHT FIXTURE means an outdoor electrically powered illuminating device, outdoor lighting or reflective surface, lamp, luminous tube and/or similar devices, either permanently installed or portable, which is used for illumination or advertisement. Such devices shall include, but are not limited to, search, spot and flood lights for:

1. Buildings and Structures
2. Recreational areas
3. Parking lot lighting
4. Landscape and architectural lighting
5. Billboards and other Signs (advertising or other)
6. Street lighting
7. Product display area lighting
8. Building overhangs and open canopies
9. Pedestrian walkways or areas
10. Building or Landscape decoration

NEON TUBE (see Luminous Tube)

SPOT LAMP means a lamp designed to direct its output in a specific direction (a beam) with a reflector formed from the glass envelope of the lamp itself (see below).

TEMPORARY LIGHTING means lighting which does not conform to the provisions of this Ordinance and which will not be used for more than one thirty (30) day period within a calendar year. Temporary lighting is intended for uses which by their nature are of limited duration; e.g. civic events, or construction projects.

TOTAL OUTDOOR LIGHT OUTPUT means the maximum total amount of light, measured in lumens, from all Outdoor Light Fixtures on a project site. Includes all lights and luminous tubingF used for Class 1, Class 2, Class 3 lighting, and lights used for external illumination of Signs, but does not include lights used to illuminate internally illuminated Signs or luminous tubing used in neon signs. For lamp types that vary in their output as they age (such as high pressure sodium, metal halide, and fluorescent), the initial output, as defined by the manufacturer, is the value to be considered. For luminous tubes, output is calculated per linear foot of tubing rather than per lamp.

LIVESTOCK shall mean all animals that are used as (or which are the sources of) agricultural commodities. Included are cattle (beef or dairy), bison, equines (all horses, mules, burros, and asses), sheep, goats, swine (excluding feral pigs), camelids and poultry (which includes ratites).

LOT shall mean:

1. A parcel of real property with a separate and distinct number or other designation shown on a plan recorded in the office of the County Recorder, or
2. A Parcel of real property delineated on an approved record of survey, Parcel map or subdivision map as filed in the office of the County Recorder or in the office of the Department of Community Development Department, and Abutting at least one (1) public Street or Right-Of-Way, or Easement determined by the Commission to be adequate for the purpose of Access, or
3. A parcel of real property abutting at least one (1) public Street or Right-of-Way or Easement determined by the Commission to be adequate for the purpose of Access and held under separate ownership from Abutting property prior to the date of adoption of this Ordinance.

LOT, CORNER shall mean a Lot located at the intersection or interception of two (2) or more Streets at an angle of not more than one hundred thirty-five (135) degrees. If the angle is greater than one hundred thirty-five (135) degrees, the Lot shall be considered an Interior Lot.

LOT (SITE) COVERAGE shall mean that portion of a Lot or Building Site which is occupied by any Building or Structure footprint, excepting paved areas, uncovered parking areas, driveways, walks, at grade patios and landscaped areas.

LOT DEPTH shall mean the average horizontal distance between the Front and Rear Lot Lines measured in the mean direction of the side Lot lines.

LOT, FLAG shall mean an Interior Lot not having direct Frontage to a public Street or highway, except for a portion of said Lot used for Access purposes. That portion of a Flag Lot used for Access purposes shall have a minimum width of twenty feet.

LOT, INTERIOR shall mean a Lot other than a corner Lot.

LOT LINE shall mean any line bounding a Lot as herein defined.

LOT LINE, FRONT on an Interior Lot shall mean the property line Abutting the Street. On a corner Lot, the Front Lot Line is the shorter property line Abutting a Street, except in those cases where the subdivision or parcel map specifies another line as the Front Lot Line. On a through Lot or a Lot with three (3) or more sides Abutting a Street or a Corner Lot with Lot Lines of equal length, the Director shall determine which property line shall be the Front Lot Line for purposes of compliance with Yard and Setback provisions of this Ordinance. On a private Street or Easement, the Front Lot Line shall be designated as the edge of the Easement.

LOT LINE, REAR shall mean a Lot Line not Abutting a Street which is opposite and most distant from the Front Lot Line. In the case of an irregular-shaped Lot, a line within the Lot, parallel to and at a maximum distance from the Front Lot Line, having a length of not less than ten (10) feet. A Lot which is bounded on all sides by Streets may have no Rear Lot Lines.

LOT LINE, SIDE shall mean any Lot Line which is not a Front or Rear Lot Line.

LOT, SIZE the area contained within the boundaries lines of a Lot including Easements.

LOT, THROUGH shall mean a Lot having Frontage on two dedicated parallel or approximately parallel Streets.

LOT WIDTH shall mean the horizontal distance between the Side Lot Lines, measured at right angles to the Lot Depth at a point midway between the Front and Rear Lot Lines. The strip of land used for Access or utilities shall not be included in the calculation of Lot Width.

MANUFACTURED HOME shall mean a factory built Dwelling Unit constructed after June 15, 1976 to standards established by the U.S. Department of Housing and Urban Development (HUD) with a HUD seal affixed, and which is designed to be used as a year-round Dwelling when connected to the required utilities. A Manufactured Home does not include Mobile Homes, Travel Trailers, Park Models or Recreational Vehicles.

MANUFACTURED HOME PARK shall mean any area or tract of land where one or more Manufactured or Mobile Home spaces are rented or leased or held out for rent or lease to accommodate Manufactured or Mobile Homes used for habitation.

MANUFACTURED HOME SPACE shall mean a plot of ground within a Manufactured Home Park designed for the accommodation of one Manufactured or Mobile Home.

MEAT PROCESSING, GAME shall mean the preparation of meat for human consumption by a processor or slaughterer regulated by the Arizona Department of Agriculture through an Exempt Processing License under A.R.S. § 3-2001(11) whose products are specifically labeled “not for sale.”

MEAN SEA LEVEL means, for purposes of the National Flood Insurance Program, the National Geodetic Vertical Datum (NGVD) of 1929, North American Vertical Datum (NAVD) of 1988, or other datum, to which Base Flood Elevations shown on a community’s Flood Insurance Rate Map are referenced.

MEAT PROCESSING, SMALL shall mean the preparation of meat for human consumption as regulated by the Arizona Department of Agriculture for sale only within the state of Arizona.

MEAT RECEIVING FACILITY, GAME shall mean a mobile refrigeration unit for the collection of game meat to be processed at a separate location.

MEDICAL MARIJUANA DISPENSARIES AND OFF-SITE CULTIVATION FACILITIES DEFINITIONS

MEDICAL MARIJUANA: All parts of any plant of the genus cannabis whether growing or not, and the seeds of such plant that may be administered to treat or alleviate a

qualifying patient's debilitating medical condition or symptoms associated with the patient's debilitating medical condition.

MEDICAL MARIJUANA DISPENSARY: A not-for-profit entity defined in ARS §36-2801(11) that acquires, possesses, cultivates, manufactures, delivers, transfers, transports, supplies, sells, or dispenses marijuana or related supplies and educational materials to qualifying patients or their designated caregivers.

MEDICAL MARIJUANA INFUSION FACILITY: A facility that incorporates Medical Marijuana by means of cooking, blending, or incorporation into consumable/edible goods.
